## Sources And Resources Of Feminist Theologies:

*Feminist Theologies for a Postmodern Church* Loraine MacKenzie Shepherd, 2002 Liberal modern approaches to theology have tended to silence voices from the margins This book offers an alternative feminist theological approach that more adequately addresses issues of diversity and marginalization It critically examines and combines aspects of four different feminist approaches Elisabeth Schüssler Fiorenza's critical modern Mary McClintock Fulkerson's poststructural Kwok Pui-lan's postcolonial and Kathryn Tanner's postliberal This alternative feminist theological approach is then used to examine how a liberal mainstream Protestant denomination has dealt with issues of sexual orientation and gender Particular attention is given to biblical interpretation as shaped by community the role of traditional doctrine assumptions of authority and revelation and communities of accountability An A-Z of Feminist Theology Lisa Isherwood, Dorothea McEwan, 2016-10-06

This exciting volume brings together a wide range of perspectives on one of the most important and challenging areas of modern theology There are entries on all the major themes of Christian feminist theology including models of God and of the Church ethics and spirituality sexuality and liberation Many of the entries push their respective discussions beyond the rigid boundaries of previous theological discourse Together they present the far reaching concerns of feminist theology in an accessible and stimulating way The compendium is both a resource and an inspiration for scholars and students of feminist theology and for all those who are interested in this field of reflection and activity **Introducing Asian Feminist**

**Theology** Kwok Pui-lan, 2000-07-01 Asian women comprise more than a quarter of the world's population and the forms in which they express feminist theology are many and varied extending through grassroots movements theological networks ecumenical conferences and journals Those involved in the process include community organizers theological students church leaders and social activists among whom even the concept feminism assumes many definitions and substitutes Kwok Pui-lan's introduction to this huge subject begins with a survey of the social political and cultural contexts of Asian women's experiences and then traces the emergence of feminist consciousness and the organization of women's networks She describes the resources of Asian feminist theology and the appropriation of Asian religious traditions and considers the reconstructions of the concept of God in inclusive categories Finally she summarizes Asian women's critique of the patriarchal church and outlines the search for a new spirituality that express women's embodiedness and sexuality **The**

**Community of the Weak** Hans-Peter Geiser, 2013-03-28 Social postmodernism and systematic theology can be considered the new pair in some of the most creative discussions on the future of theological method on a global scale Both in the academy and in the public square as well as in the manifold local and pastoral moments of ministry and community social activism the social the postmodern and the theological intermingle in engaging and border crossing ways The Community of the Weak presents a new kind of jazzy fundamental theology with a postmodern touch using jazz as a metaphor writing ethnographically messy texts out of the personal windows of lived experiences combining fragments of autobiography with

theological reconstruction A comparative perspective on North American and European developments in contemporary systematic theology serves as a hermeneutical horizon to juxtapose two continents in their very different contexts The author proposes a systematic and fundamental theology that is more jazzy global and narrative deeply embedded in pastoral ministry to tell its postmodern story

**An/Other Praxis** Herry M. Mukdani, 2013-12-01 Today's ecclesial praxis has to add something to human capacity in order for the church to envision itself whole This book addresses multiple struggles as creative acts theologically for rethinking a possibly constructive ecclesial praxis that addresses God's new creation in its relation to God's people By examining it in broader paradigms Herry Mukdani proposes an Other praxis as a critical option for ecclesial freedom An Other Praxis searches not only new impulses for theological practices but the extension of voices from the margins that have contributed both to fresh ideas and to new opportunities for life It also demands ecclesial praxis to put all existing voices into account and responsibly re-discover the subaltern or subordinated others Thus this praxis helps the subaltern communities of faith claim their own identities as border crossers in the midst of cultural and religious plurality They will be active subjects of new theological productions from and for the church They are able to prove theological creativity possible today that expands beyond its ecclesial limits An Other Praxis will be of interest to readers not merely because they want to learn something beyond the existing forms of praxis Rather it will always give them refreshing energies capable of making rich and sometimes risky responses to the ministry possible and real It will also give them attitude and perspective to improve a culturally diverse conversation in theology and thus it adds diversity in ministry and leadership in today's church

*Critique Scandinave de la Théologie Féministe Anglo-américaine* Hanna Stenström, 2007 Scandinavian Critique of Anglo American Feminist Theology is a collection of articles by scholars in various theological disciplines from five Scandinavian or Nordic countries The articles cover a wide range of topics including feminist sexual ethics ecofeminist theology gender perspectives on European welfare systems Birgitta of Sweden and a search for Mary beyond stereotypes As the title implies a critical dialogue with US feminist theology is a recurrent theme throughout the book but the essays also include constructive work from different theological perspectives The journal also includes a bibliography that shows the diversity of Scandinavian and Nordic feminist theological research

constructive approach to the dangerous memories and theologies of colonial histories in Belgium and Native Americans in the United States This sampler of the field will help you rethink theologies and find constructive alternatives Quellen Feministischer Theologien Elisabeth Hartlieb,Charlotte Methuen,1997 Feminist Theology Watson,2003-12-08 Rethinking the Christian faith from a woman s perspective has been an important advancement in modern theology This book introduces the methods ideas and contributions of recent feminist theology to readers encountering the subject for the first time Natalie Watson explores the historical background of feminist theology discusses the value of reading Scripture from a feminist perspective and shows how this approach can offer a critical creative and constructive rereading of the Christian tradition She also sets forth some fresh ideas encouraging people to see feminism not as a threat to the church but as a challenging perspective that actually enhances its life in today s world An extensive annotated bibliography invites readers to further study presenting a wealth of books on feminist theology by many well known authors Ideal for classroom instruction discussion groups and personal study this volume is an exceptional user friendly guide to contemporary feminist thought

**From Women's Experience to Feminist Theology** Linda Hogan,2016-10-06 What are the implications of adopting a primacy of praxis position in feminist theology How can we respect the diversity of women s experience while retaining it as a useful analytic category Do these twin resources of women s experience and praxis together imply that feminist theology is ultimately relativist Through an analysis of the work of some of today s key feminist theologians Christian womanist and post Christian Linda Hogan considers these and other methodological questions *Dictionary of Feminist Theology* Russell,Russell, David,2004-01-01 Providing a tool for all who wish to learn about the growing fields of womanist mujerista Asian feminist and white Euroamerican feminist studies in religion this dictionary furnishes a pluralistic approach to feminist theologies guiding readers who are interested in all areas of Christian theology as they relate to feminism *The Role of Women's Experience in Feminist Theologies of Atonement* Linda D. Peacore,2010-03-11 A strong critique of traditional atonement theology is found in the work of many contemporary feminist theologians This approach in large part is related to the notion of women s experience a category that is used widely within feminist theology But what is women s experience and how does it affect feminist theology particularly views on the atonement The category of women s experience is pivotal to feminist theology yet its use may lead to models of atonement that place excessive stress upon the subjective element of Christ s saving work thereby neglecting to address adequately the objective aspects of the cross This book focuses on the methodological issues regarding the category of women s experience generally its definition and use in feminist theology with a more detailed analysis of its use in the context of feminist theologies of atonement Utilizing the work of a wide variety of feminist theologians in conversation with theologies of experience this work attempts to understand the role of women s experience as it shapes feminist views on the atonement noting the strengths and limitations of feminist approaches to soteriology **Speaking the Christian God** Alvin F. Kimel,1992 A collection of essays written by a wide diversity of

scholars including Thomas F Torrance Geoffrey Wainwright Elizabeth Achtemeier Colin Gunton and Robert W Jenson that discuss and critically analyze the crucial theological issues at stake in the feminist theological agenda The first volume of its kind to offer an orthodox critical response to the proposals of contemporary feminist theology Global Dictionary of Theology William A. Dyrness, Veli-Matti Kärkkäinen, 2009-10-25 Theological dictionaries are foundational to any theological library But until now there has been no Global Dictionary of Theology a theological dictionary that presumes the contribution of the Western tradition but moves beyond it to embrace and explore a full range of global expressions of theology The Global Dictionary of Theology is inspired by the shift of the center of Christianity from the West to the Global South But it also reflects the increase in two way traffic between these two sectors as well as the global awareness that has permeated popular culture to an unprecedented degree The editorial perspective of the Global Dictionary of Theology is an ecumenical evangelicalism that is receptive to discovering new facets of truth through listening and conversation on a global scale Thus a distinctive feature of the Global Dictionary of Theology is its conversational approach Contributors have been called on to write in the spirit of engaging in a larger theological conversation in which alternative views are expected and invited William A Dyrness Veli Matti Kärkkäinen Juan F Martinez and Simon Chan edit approximately 250 articles written by over 100 contributors representing the global spectrum of theological perspectives Pastors theological teachers theological students and lay Christian leaders will all find the Global Dictionary of Theology to be a resource that unfolds new dimensions and reveals new panoramas of theological perspective and inquiry Here is a new launching point for doing theology in today's global context Creating Women's Theology Monica A. Coleman, Nancy R. Howell, Helene Tallon Russell, 2011-09-22 Creating Women's Theology engages women's questions Can women from different religious traditions engage one theological approach Can one philosophical approach support feminist religious thought What kind of belief follows women's criticism of traditional Christianity Creating Women's Theology offers a portrait of how some women have found room for faith and feminism For the last twenty five years women religion scholars have synthesized process philosophy with their feminist sensibilities and faith commitments to highlight the value of experience the importance of freedom and the interdependence of humanity God and all creation Cutting across cultural and religious traditions process relational feminist thought represents a theology that women have created This volume offers an introduction to process and feminist theologies before presenting selections from canonical works in the field with study questions This volume includes voices from Christianity Judaism goddess religion the Black church and indigenous religions Creating Women's Theology invites new generations of undergraduate seminary and university graduate students to the methods and insights of process relational feminist theology Theology and Bioethics E.E. Shelp, 2013-04-17 We who live in this post modern late twentieth century culture are still children of dualism For a variety of rather complex reasons we continue to split apart and treat as radical opposites body and spirit medicine and religion sacred and secular private and public love and justice men and women

Though this is still our strong tendency we are beginning to discover both the futility and the harm of such dualistic splitting. Peoples of many ancient cultures might smile at the belatedness of our discovery concerning the commonalities of medicine and religion. A cursory glance back at ancient Egypt, Samaria, Babylonia, Persia, Greece, and Rome would disclose a common thread: the close union of religion and medicine. Both were centrally concerned with healing, health, and wholeness. The person was understood as a unity of body, mind, and spirit. The priest and the physician frequently were combined in the same individual. One of the important contributions of this significant volume of essays is the sustained attack upon dualism. From a variety of vantage points, virtually all of the authors unmask the varied manifestations of dualism in religion and medicine, urging a more holistic approach. Since the editor has provided an excellent summary of each article, I shall not attempt to comment on specific contributions. Rather, I wish to highlight three broad themes which I find notable for theological ethics.

*Feminism and Christian Tradition* Mary-Paula Walsh, 1999-05-30. This annotated bibliography, a volume in the Greenwood series *Bibliographies and Indexes in Religious Studies*, provides access to the numerous writings from the 1960s through the 1990s on feminism and Christian tradition. Major feminist theologians and sociologists are represented. As a guide to further research, this cross-disciplinary approach presents themes and issues in both a historical and a topical framework. An extensive overview of feminism in relation to the women's movement, women's studies, sociology, and American religion introduces the literature and provides a historical context for the nearly one thousand entries that follow. Cross-referenced throughout, the literature is presented in six thematic categories that include introductory and background materials; feminism and the development of feminist theology; topical literatures in feminist theology; feminism and womanist theology; religious leadership of women; and responses and recent developments. Separate author, subject, and title indexes complete the volume.

**Struggling with God** Simon D. Podmore, 2013-10-31. Invoking the biblical motif of Jacob's struggle with the Face of God (Genesis 32), Simon D. Podmore undertakes a constructive theological account of spiritual trial, a temptation known in German mystical and Lutheran tradition as *Anfechtung*, in relation to enduring questions of the otherness and hiddenness of God and the self, the problem of suffering and evil, the freedom of Spirit, and the anxious relationship between temptation and ordeal, fear and desire. This book traces a genealogy of spiritual trial from medieval German mystical theology through Lutheran and Pietistic thought. Tauber, Luther, Arndt, Boehme, and reconstructs Kierkegaard's innovative yet under-examined recovery of the category *Anfægtelse*, a Danish cognate for *Anfechtung*, within the modern context of the spiritless decline of Christendom. Developing the relationship between struggle, *Anfechtung*, and release, *Gelassenheit*, Podmore proposes a Kierkegaardian theology of spiritual trial which elaborates the kenosis of the self before God in terms of Spirit's restless longing to rest transparently in God. Offering an original rehabilitation of the temptation of spiritual trial, this book strives for a renewed theological hermeneutic which speaks to the enduring human struggle to realise the unchanging love of God in the face of spiritual darkness.

*Feminist Theology and the Challenge of Difference* Margaret D. Kamitsuka, 2007-07-20. In

the early years of contesting patriarchy in the academy and religious institutions feminist theology often presented itself as a unified front a sisterhood The term feminist theology however is misleading It suggests a singular feminist purpose driven by a unified female cultural identity that struggles as a cohesive whole against patriarchal dominance Upon closer inspection the voice of feminist theology is in fact a chorus of diverging perspectives each informed by a variety of individual and communal experiences and an embattled scholarly field marked by the effects of privilege and power imbalances This complexity raises an important question How can feminist theologians respect the irreducible diversity of women s experiences and unmask entrenched forms of privilege in feminist theological discourse In *Feminist Theology and the Challenge of Difference* Margaret D Kamitsuka urges the feminist theological community to examine critically its most deeply held commitments assumptions and goals especially those of feminist theologians writing from positions of privilege as white or heterosexual women Focusing on women s experience as portrayed in literature biblical narrative and ethnographic writing Kamitsuka examines the assumptions of feminist theology regarding race and sexuality She proposes theoretical tools that feminist theologians can employ to identify and hopefully avoid the imposition of racial or sexual hegemony thus providing invaluable complexity to the movement s identity and ultimately contributing to current and future Christian theological issues Blending poststructuralist and postcolonial theoretical resources with feminist and queer concerns *Feminist Theology and the Challenge of Difference* makes constructive theological proposals ranging from sin to christology The text calls feminist theologians to a more rigorous self critical approach as they continue to shape the changing face of Christian theological discourse     *Margins* Felix Wilfred,2008
