Dealing with Europe Alasdair Blair, 2019-01-15 Published in 1999 This book provides a

detailed analysis of the positions and strategies adopted by Britain during the 1990 91 Intergovernmental Conference which concluded in the Maastricht Treaty on European Union The main focus is on the questions of British policy coordination and the factors which determined the government s position during the negotiations on European Political Union and European Monetary Union This is the first major study which reconstructs the mechanisms of British policy making and notes the internal and external factors which shaped the construction of the government s position on the major points of the negotiations The hypothesis of the book is that domestic politics primarily through the Prime Minister s aim to maintain the unity of the Conservative Party was the determining factor in shaping government policy This view is based upon micro level empirical analysis undertaken through a methodological approach of historical interpretation **The Newspapers**

Westminster Tales Steve Barnett, Ivor Gaber, 2001-05-21 Politics today is inextricably bound to the media indeed it is now a routine assumption that the media can determine election outcomes Consequently over the last twenty years the conduct of politics has become increasingly driven by what might play well on television or in the press Election campaigning budgets

party platforms and even the contents of legislative bills are dominated by media considerations Westminster Tales explores how that relationship works in practice What sort of deals are done between politicians and journalists What tactics do politicians use to try and manipulate the media What are journalists techniques of resistance What determines how a campaign is put together Have policy issues and the national good really been surrendered to image making and sound bite tactics Barnett and Gaber examine the modern process of political communication through the eyes of the many actors now involved Through their own experiences and through personal interviews conducted with many of the key media and political figures they construct a vivid picture of how political communication is managed today and the direction in which it is going

Staerck, 2002-12-13 Britain and the Cold War 1945-1964 offers new perspectives on ways in which Britain fought the Cold War and illuminates key areas of the policy formulation process It argues that in many ways Britain and the United States perceived and handled the threat posed by the Communist bloc in similar terms nevertheless Britain's continuing global commitments post war economic problems and domestic considerations obliged her on occasion to tackle the threat rather differently *Permanent Campaigning in Greece in Times of Crisis* Panos A. Koliastasis, 2022-10-22 This book investigates the phenomenon of permanent campaigning in Greece over the last decade It explores the political communication strategies of three recent successive Greek prime ministers from 2012 until the early months of 2022 to deal with economic migration and pandemic crises from a permanent campaigning perspective Moreover it evaluates and measures for the first time their permanent campaign strategies using the proposed framework of Lilleker and Joathan 2020 and the three following indicators capacity building and strategy paid and owned media and earned media The need for presidents to communicate with public opinion and their dependence on public support is anything but new the difference in the case of the permanent campaign is that the campaign tools methods techniques and personnel follow the elected leader in office in order to back his constant efforts to retain or even increase public approval as well as advance their re-election prospects This book aims to extend the research on the permanent campaigning in European parliamentary systems and will be of interest to political communication and campaigning students and researchers In Whose Interest? of service as policy researchers developed sophisticated quantitative analytic and decision making techniques They then spent several years trying to use them in the real world Success and failures are described in illuminating detail providing insight not commonly found in such critiques The authors delineate the interaction of politics and technical issues Their book describes policy analysis as it is not how it ought to be Peter W House is the director of policy research and analysis at the National Science Foundation He is the author of ten books on multidisciplinary science and technology policy research and analyses in government private and university sectors including The Art of Public Policy Analysis and with Roger D Shull Regulatory Reform Politics and the Environment and Regulations and Science Management of Research on Demand Roger D Shull is a senior analyst at the Division of Policy Research and Analysis National Science Foundation

Making Health Policy, 2016-08-29 What shapes health policy Current thinking dictates that scientific evidence should be the basis for policy making in healthcare but is this a new approach and how has it developed Making Health Policy shows how networks in science and the media have established a dialogue for policy making since 1945 Surprisingly many of the networks influencing health policy are not political ones central to public discussion Instead scientific networks have shaped policies on public health based upon findings of chronic disease epidemiology For policies on illicit drugs the clinical experience of a small group of psychiatrists held sway And ironically in an ever cost conscious world high technology areas such as renal dialysis saw economic considerations diminish as time passed Health pressure groups entered the equation and the last half of the twentieth century witnessed the rise of the media as the defining agency in the science policy relationship Making Health Policy is the first historical study to explore the unspoken links between science and recent health policy
