Sources Of Chinese Tradition Volume 2:

Sources of Chinese Tradition William Theodore De Bary, Wm. Theodore De Bary, 1999 *Sources of Chinese Tradition* Wm. Theodore De Bary, Richard Lufrano, 2001-04-18 For four decades *Sources of Chinese Tradition* has served to introduce Western readers to Chinese civilization as it has been seen through basic writings and historical documents of the Chinese themselves. Now in its second edition, revised and extended through the Deng Xiaoping and Jiang Zemin era, China this classic volume remains unrivaled for its wide selection of source readings on history, society, and thought in the world's largest nation. Award-winning China scholar Wm. Theodore de Bary, who edited the first edition in 1960, and his coeditor Richard Lufrano have revised and updated the second volume of *Sources* to reflect the interactions of ideas, institutions, and historical events from the seventeenth century up to the present day. Beginning with Qing civilization and continuing to contemporary times, volume II brings together key source texts from more than three centuries of Chinese history, with opening essays by noted China authorities providing context for readers not familiar with the period in question. Here are just a few of the topics covered in this second volume of *Sources of Chinese Tradition*: Early Sino-Western contacts in the seventeenth century; Four centuries of Chinese reflections on differences between Eastern and Western civilizations; Nineteenth and twentieth century reform movements with treatises on women's rights, modern science, and literary reform; Controversies over the place of Confucianism in modern Chinese society; The nationalist revolution including readings from Sun Yat-sen and Chiang Kai-shek; The communist revolution with central writings by Mao Zedong; Works from contemporary China featuring political essays from Deng Xiaoping and dissidents including Wei Jingsheng. With more than two hundred selections in lucid, readable translation by today's most renowned experts on Chinese language and civilization, *Sources of Chinese Tradition* will continue to be recognized as the standard for source readings on Chinese civilization, an indispensable learning tool for scholars and students of Asian civilizations.

Sources of Chinese Tradition Wm. Theodore De Bary, Irene Bloom, 1999-07-27 A collection of seminal primary readings on the social, intellectual, and religious traditions of China, *Sources of Chinese Tradition Volume 1* has been widely used and praised for almost forty years as an authoritative resource for scholars and students and as a thorough and engaging introduction for general readers. Here at last is a completely revised and expanded edition of this classic sourcebook, compiled by noted China scholars Wm. Theodore de Bary and Irene Bloom. Updated to reflect recent scholarly developments with extensive material on popular thought and religion, social roles, and women's education, this edition features new translations of more than half the works from the first edition, as well as many new selections. Arranged chronologically, this anthology is divided into four parts, beginning at the dawn of literate Chinese civilization with the Oracle Bone inscriptions of the late Shang dynasty (1571-1045 B.C.E.) and continuing through the end of the Ming dynasty (C.E. 1644). Each chapter has an introduction that provides useful historical context and offers interpretive strategies for understanding the readings. The first part, *The Chinese Tradition in Antiquity*, considers the early development of Chinese civilization and

includes selections from Confucius's Analects the texts of Mencius and Laozi as well as other key texts from the Confucian Daoist and Legalist schools Part 2 The Making of a Classical Culture focuses on Han China with readings from the Classic of Changes I Jing the Classic of Filiality major Han syntheses and the great historians of the Han dynasty The development of Buddhism from the earliest translations from Sanskrit to the central texts of the Chan school which became Zen in Japan is the subject of the third section of the book Titled Later Daoism and Mahayana Buddhism in China this part also covers the teachings of Wang Bi Daoist religion and texts of the major schools of Buddhist doctrine and practice The final part The Confucian Revival and Neo Confucianism details the revival of Confucian thought in the Tang Song and Ming periods with historical documents that link philosophical thought to political social and educational developments in late imperial China With annotations a detailed chronology glossary and a new introduction by the editors Sources of Chinese Tradition will continue to be a standard resource guidebook and introduction to Chinese civilization well into the twenty first century

East India Company British colonization the struggle for liberation the partition of 1947 and the creation of Pakistan Bangladesh and contemporary India This third edition now begins earlier than the first and second featuring a new chapter on eighteenth century intellectual and religious trends that set the stage for India's modern development The editors have added material on Gandhi and his reception both nationally and abroad and include different perspectives on and approaches to Partition and its aftermath They expand their portrait of post 1947 India and Pakistan and add perspectives on Bangladesh The collection continues to be divided thematically with a section devoted to the drafting of the Indian constitution the rise of nationalism the influence of Western thought the conflict in Kashmir nuclear proliferation minority religions secularism and the role of the Indian political left A phenomenal text *Sources of Indian Traditions* is more indispensable than ever for courses in philosophy religion literature and intellectual and cultural history

Globalized Knowledge Flows and Chinese Social Theory Xiaoying Qi, 2014-01-21 This book considers the nature and possibilities of conceptual change and transformation under conditions of globalization especially with regard to Chinese social and cultural concepts It argues that the influence of globalization promotes the spread of West European and American social science concepts and methods at the expense of local concepts and approaches and at the same time paradoxically provides opportunities for the incorporation of local concepts including Chinese concepts into Western or mainstream social science

The Causes of War Alexander Gillespie, 2013-10-16 This is the first volume of a projected four volume series charting the causes of war from 3000 BCE to the present day written by a leading international lawyer and using as its principal materials the documentary history of international law largely in the form of treaties and the negotiations which led up to them These volumes seek to show why millions of people over thousands of years slayed each other In departing from the various theories put forward by historians anthropologists and psychologists Gillespie offers a different taxonomy of the causes of war focusing on the broader settings of politics religion migrations and empire building These four contexts were dominant and often overlapping justifications for the first four thousand years of human civilisation for which written records exist

Sources of Japanese Tradition Yoshiko Kurata Dykstra, 2001 A perennial best seller *Sources of Japanese Tradition* has long been a staple in classrooms and libraries a handy and comprehensive reference for scholars and students and an engaging introduction for general readers Now in its long awaited second edition this classic volume remains unrivaled for its wide selection of source readings on history society politics education philosophy and religion in the land of the rising sun

Sources of Japanese Tradition, Abridged de Theodore, 2010-06-01 For almost fifty years *Sources of Japanese Tradition* has been the single most valuable collection of English language readings on Japan Unrivaled in its wide selection of source materials on history society politics education philosophy and religion the two volume textbook is a crucial resource for students scholars and readers seeking an introduction to Japanese civilization Originally published in a single hardcover book Volume 2 is now available as an abridged two part paperback Part 1 covers the Tokugawa period to 1868 including texts that address the spread of neo Confucianism

and Buddhism and the initial encounters of Japan and the West Part 2 begins with the Meiji period and ends at the new millennium shedding light on such major movements as the Enlightenment constitutionalism nationalism socialism and feminism and the impact of the postwar occupation Commentary by major scholars and comprehensive bibliographies and indexes are included Together these readings map out the development of modern Japanese civilization and illuminate the thought and teachings of its intellectual political and religious leaders

A Global Enlightenment Alexander Statman, 2023-04-26 A Global Enlightenment is a book about the idea of Western progress told through a series of conversations about Chinese science Its protagonists an ex Jesuit missionary a French statesman a Manchu prince Chinese literati European savants and other figures of the late Enlightenment world exchanged ideas across cultures In telling their stories here Alexander Statman shows how Chinese science shaped a signature legacy of the European Enlightenment the idea of Western progress By focusing on the orphans of the Enlightenment those who sought to vindicate ancient wisdom as others left it behind Statman reveals that ideas about the uniqueness of the West and the mystery inscrutability or otherness of the East did not follow from the Enlightenment idea of progress but had to be invented The orphans of the Enlightenment believed that the knowledge of the past and the East still had value for modern Europe and their efforts to recover and explain it in turn uncover an unknown story of European engagement with Chinese science In contrast to the common view that over the course of the Enlightenment non Western ideas were banished from European thought Statman found that the opposite is true Toward the end of the Enlightenment Europeans only grew more interested in Chinese science and this has had lasting effects from the eighteenth century to today

The Chinese Capital Market Annette Kleinbrod, 2008-03-12 The significance of China's development reaches far beyond the country's domestic concerns This is due to a variety of factors among them the country's rapid growth and development and its increasingly open borders allowing it to become a member of the regional and international community of states over the last twenty five years China is not a major force yet but its voice is gaining influence Simultaneously its development on domestic regional and international levels is a huge uncertainty which inheres both potential and risk and is likely best described by the title of Johnny Erling's book China der grosse Sprung ins Ungewisse China the Great Leap into the Unknown Thereby the attempts to understand the relevant processes and related prospects often appear to be an endless puzzle which allows for further insight with every piece that can be added while a certain dimension of mystery remains as China develops further Today China's development is challenged considerably by a number of factors in the fields of the society policy economy and environment Finding a viable solution to these challenges and sustaining development is a concern of great priority to the Chinese government A decisive question with this in mind is how the financial system could be enhanced to a level at which it would be an effective catalyst for development

Genealogies of Mahāyāna Buddhism Joseph Walser, 2018-06-28 Genealogies of Mahāyāna Buddhism offers a solution to a problem that some have called the holy grail of Buddhist studies the problem of the origins of Mahāyāna

Buddhism In a work that contributes both to a general theory of religion and power for religious studies as well as to the problem of the origin of a Buddhist movement Walser argues that that it is the neglect of political and social power in the scholarly imagination of the history of Buddhism that has made the origins of Mah y na an intractable problem Walser challenges commonly held assumptions about Mah y na Buddhism offering a fascinating new take on its genealogy that traces its doctrines of emptiness and mind only from the present day back to the time before Mah y na was Mah y na In situating such concepts in their political and social contexts across diverse regimes of power in Tibet China and India the book shows that what was at stake in the Mah y na championing of the doctrine of emptiness was the articulation and dissemination of court authority across the rural landscapes of Asia This text will be of interest to undergraduate and postgraduate students and scholars of Buddhism religious studies history and philosophy *Imagined Civilizations* Roger Preston Hart,2013-08-15 While the Jesuits claimed Xu as a convert he presented the Jesuits as men from afar who had traveled from the West to China to serve the emperor **Socialism with Chinese Characteristics** Roland Boer,2021-04-27 This book covers the whole system of Socialism with Chinese Characteristics dealing with Deng Xiaoping s theory the socialist market economy a moderately well off Xiaokang society China s practice and theory of socialist democracy human rights and Xi Jinping s Marxism In short the resolute focus is the Reform and Opening Up Socialism with Chinese Characteristics is one of the most important global realities today However the concept and its practice remain largely misunderstood outside China This book sets to redress such a lack of knowledge by making available to non Chinese speakers the sophisticated debates and conclusions in China concerning socialism with Chinese Characteristics It presents this material in a way that is both accessible and thorough
