South East Asia In The 1980s Politics Of Economic Crisis:

Southeast Asia (Routledge Revivals) Jonathan Rigg, 2013-09-13 Southeast Asia A Region in Transition first published in 1991 is a contemporary human geography of the market economies of the region usually defined by membership of the Association of Southeast Asian Nations ASEAN Organized thematically the chapters deal with the environment and development plural societies agrarian change and urbanization This thematic approach provides a comprehensive picture of the ASEAN countries and gives a depth of coverage often lacking in other regional geographies With a detailed introduction dealing with the physical environment and history of the region this work will be of great value to students studying the human geography of Southeast Asia as well as those with a more general interest in the issues and developments affecting the ASEAN region

Southeast Asia in the Nineteen-eighties 1980s Richard Robinson, 1987 *The Cambridge History of Southeast Asia: Volume 2, The Nineteenth and Twentieth Centuries* Nicholas Tarling, 1992 Southeast Asia has long been seen as a unity although other terms have been used to describe it Further India Little China the Nanyang The region has had a protracted maritime history Confucianism Buddhism Islam Hinduism Christianity are all represented It has seen a quintet of colonial powers Britain France The Netherlands Spain the United States Most recently it has become one of the fastest growing parts of the world economy The very term Southeast Asia is clearly more than a geographical expression The Cambridge History of Southeast Asia is a multi authored treatment of the whole of mainland and island Southeast Asia from Burma to Indonesia Unlike other histories of the region it is not divided on a country by country basis and is not structured purely chronologically but rather takes a thematic and regional approach to Southeast Asia s history This volume the second and final in the series takes us into the nineteenth and twentieth centuries from the late eighteenth century of the Christian era when most of the region was incorporated into European empires to the complexity and dramatic change of the post World War II period It covers the economic and social life as well as the religious and popular culture of the region as they develop over two centuries The political structures of the region are also closely examined from the insurgencies and rebellions of early this century to the modern Nationalist movements which challenged the control of the colonial powers and led to the formation of independent states Under the editorship of Nicholas Tarling Professor of History at the University of Auckland New Zealand each chapter is well integrated into the whole Professor Tarling has assembled a highly respected team of international scholars who have presented the latest historical research on the region and succeeded in producing a provocative and exciting account of the region s history

The New Political Economy of Southeast Asia Rajah Rasiah, Johannes Dragsbaek Schmidt, 2010-01-01 This well researched book examines the dramatic transformation of Southeast Asian countries from agricultural and mining economies to industrial nations In doing so it explores the effects of development policy on a number of interdisciplinary issues and the emergence of new social and political pressures created by industrialization These include their heightened vulnerability to complex economic crises their use of sophisticated

instruments in the labour process and increased awareness of environmental issues The distinguished authors present a regional and cross border focus on transnational actors and institutions and the policy issues and problems which have a wider impact on spatial configurations in the region This insightful study will appeal to researchers academics and policymakers working on the economics and development of Southeast Asia

Economic Change in South-East Asia, C.1830-1980 Ian Brown,1997 This book provides an introduction to the economic history of South East Asia from the early nineteenth century to the contemporary period It examines for example the strong commitment of agriculturists across the region to cultivation for export markets from the middle decades of the nineteenth century and the impact of agricultural specialization on their material welfare the economic role of the immigrant Chinese as traders moneylenders revenue farmers bankers and industrialists the impact of the inter war depression on the economies of South East Asia the implications of the Green Revolution in rice for rural inequalities and the causes and nature of South East Asia s modern industrialization On each topic it attempts to draw the reader into the specialist literature to emphasize divergent views and where appropriate to admit ignorance Above all it seeks to kindle curiosity and enthusiasm to encourage the reader to explore further

The Cambridge History of Southeast Asia: Volume 2, Part 2, From World War II to the Present Nicholas Tarling,2000-01-28 In these four volumes published in paperback in 2000 twenty two scholars of international reputation consider the whole of mainland and island Southeast Asia from Burma to Indonesia Each volume has a new preface which points to the relationships with the other volumes The prefaces also comment on some of the research into and thinking about the subject undertaken since the original contributions were completed for the first edition Volume 2 Part 2 covers the period from World War II to the present and examines the end of European colonial empires the emergence of political structures of the independent states economic and social change religious change in contemporary Southeast Asia Southeast Asia s role and identity in decolonisation and the ongoing weakening of links with the West

Government and Politics in Southeast Asia N. John Funston,2001 In this substantial and referenced study nine leading scholars present from inside the history society geography economy and governmental institutions of each of the 10 ASEAN countries Brunei Cambodia Indonesia Laos Malaysia Myanmar Philippines Singapore Thailand and Vietnam

Empire and Neoliberalism in Asia Vedi R. Hadiz,2006-09-27 This book analyzes the overall effect of American primacy on social and political conflicts in Asia discussing how the post Cold War American agenda does not promote democratization in the region in contradiction to one of the major proclaimed aims of the proponents of the Pax Americana This team of renowned scholars argue that the US agenda can strengthen anti democratic impulses in Asian societies exacerbating and complicating existing domestic conflicts and struggles Empire and Neoliberalism in Asia also examines how the requirements of the War on Terror intersect with and reinforce those of transnationalized sections of American capital Drawing on country case studies this multidisciplinary book looks at the ramifications of the American Empire for the Asian region and will appeal to anyone interested in Asian politics

international relations political economy development studies and sociology **Reorganising Power in Indonesia** Vedi Hadiz, Richard Robison, 2004-07-31 Reorganising Power in Indonesia is a new and distinctive analysis of the dramatic fall of Soeharto the last of the great Cold War capitalist dictators and of the struggles that reshape power and wealth in Indonesia The dramatic events of the past two decades are understood essentially in terms of the rise of a complex politico business oligarchy and the ongoing reorganisation of its power through successive crises colonising and expropriating new political and market institutions With the collapse of authoritarian rule the authors propose that the way was left open for this oligarchy to reconstitute its power within society and the institutions of newly democratic Indonesia **Neoliberalism and Conflict In Asia After 9/11** Garry Rodan, Kevin Hewison, 2013-09-13 Key events in Asia's recent history have included the end of the Cold War the Asian Economic Crisis and the war on terror This is a critical assessment of these events and of the interplay of security and economics in shaping political regimes and modifying market systems Based on the notion that market systems are inherently political and conflict ridden this collection clarifies and explains the conflicts shaping the path of neoliberal globalization Collectively it represents a disciplined and systematic address of four overarching questions What are the significant conflicts emanating from neoliberal globalization and what are their implications What are the implications of new security concerns for these conflicts and what are their impacts How are conflicts associated with globalization and security affecting social and economic policy directions Can these directions be reconciled with the reproduction of existing political regimes or do they threaten their basis In addressing these questions the essays depict neoliberal globalization in the new security context as being able to accommodate a range of political regimes This fascinating collection is a must read for those with a professional interest in the region post 9 11 This book was previously published as a special issue of the Journal Critical Asian Studies *US-Asia Economic Relations* Justin Robertson, 2008-09-02 In a world of continuing financial volatility this book critically evaluates the oft cited claim that US firms and the US government attempt to open emerging markets in economic distress and acquire valuable industrial and financial assets Focusing particularly on Korea and Thailand the author examines the degree of market opening the roles US actors played in this process and the level of foreign firm activity in the years after the Asian crisis Justin Robertson finds surprisingly little coherence between the strategies of US firms and US policy makers At the same time the book downplays European investments concluding instead that the decade since the Asian crisis has reaffirmed strengths of US capital particularly in some of the most important sectors of the global economy Investment banking private equity and subcontracting are significant new features of US Asia economic relations Providing a sophisticated understanding of US interests in Asia especially in terms of the politics of finance capital and including a wealth of empirical data on the US and Asian political economies this book will be invaluable for students and scholars of international political economy and Asian economics and politics *Democracy And Development In Southeast Asia* Clark Neher, Ross Marlay, 2018-02-12 Exploring the remarkable

political and economic changes sweeping Southeast Asia the authors take as their starting point the trend albeit uneven toward democratization They focus specifically on Asian democracy a form that has been adapted by Southeast Asians to suit their own particular needs This book begins by building a framework for understanding democracy in its broadest sense The authors investigate the uniquely Asian style of democracy which borrows democratic political institutions and meshes them with the cultural patterns specific to each country In separate chapters the authors trace the evolutionary historical processes within each country as well as citizen participation electoral practices and civil liberties The chapters end with an assessment of the prospects for democracy in that nation as well as an evaluation of whether democratic regimes are necessary for developing successful economies and societies in the new international era *Southeast Asian Paper Tigers* K. S. Jomo, 2013-04-03 This important collection is a timely contribution to the debate on the Asian financial crisis With chapters written by well established international experts in Asian economics this book constitutes a finely judged example of the varying opinions on the matter **State Structure, Policy Formation, and Economic Development in Southeast Asia** Antoinette R. Raquiza, 2013-06-17 Why do some small developing countries industrialize and others don't What factors account for different economic performance among states that are vulnerable to external shocks crony capitalism and political instability This book argues that the answer lies in the structuring of state power specifically the way different sets of governing elites political leaders and economic technocrats are embedded in political organisations and state institutions and the way these elites relate to each other in the economic development policy process Conducting a comparative historical analysis of Thailand and the Philippines the book argues that the institutional settings of governing elites influence economic outcomes In Thailand political power traditionally connects to state institutions in ways that has limited the impact of political turnovers and global downturns conducive to long term industrial activities In contrast Philippine state power derives from family networks that merge social and political power suited to fast moving short term commercial interests In focusing on this political and institutional story the author analyses the current development dilemmas of countries weighed down by historical legacies of unstable regimes dependency and social conflict and how they are likely to develop in the future The Political Economy of the Asian Financial Crisis Stephan Haggard, 2010-10-01 The Asian crisis has sparked a thoroughgoing reappraisal of current international financial norms the policy prescriptions of the International Monetary Fund and the adequacy of the existing financial architecture To draw proper policy conclusions from the crisis it is necessary to understand exactly what happened and why from both a political and an economic perspective In this study renowned political scientist Stephan Haggard examines the political aspects of the crisis in the countries most affected Korea Thailand Malaysia and Indonesia Haggard focuses on the political economy of the crisis emphasizing the longer run problems of moral hazard and corruption as well as the politics of crisis management and the political fallout that ensued He looks at the degree to which each government has rewoven the social safety net and discusses corporate and financial restructuring and greater

transparency in business government relations Professor Haggard provides a counterpoint to the analysis by examining why Singapore Taiwan and the Philippines escaped financial calamity *Southeast Asia's Economic Crisis* Heinz Wolfgang Arndt, Hal Hill, 1999 Southeast Asia is suddenly in crisis the largest country Indonesia deeply so This volume comprising a set of specially commissioned papers examines the origins lessons and future path of the crisis Why didn't economists foresee the sudden and catastrophic events of 1997-98 How can seemingly robust and vigorous economies fall so far so swiftly Do we in consequence need to change the way we view the world Is there anything to salvage of the East Asian miracle Is Southeast Asia about to experience its own version of the lost decade analogous to that which afflicted much of Africa and Latin America in the 1980s *States and Sovereignty in the Global Economy* David Alden Smith, Dorothy J. Solinger, Steven Topik, 1999 With editors and contributors of outstanding academic reputation this exciting new book presents an unconventional and radical perspective revealing that states do still matter *South East Asia in the World-Economy* Chris J. Dixon, 1991-07-26 South East Asia has for many centuries occupied a pivotal position in the wider Asian economy linking China and the Far East with India and the Middle East and since the early 1500s the region has also played a major role in the world economy South East Asia in the World economy is a textbook survey of the area's interaction with these wider regional and international structure Professor Chris Dixon demonstrates how this region's role has undergone frequent and profound change as a result of the successive emergency and dominance of mercantile industrial and finance capital He shows how the region has developed as a supplier of luxury product such as spices as a producer of bulk primary products and how since the mid 1960s it has become a major recipient of investment and a favoured location for European and American markets The author examines how these phases in the evolution of the international economy have been reflected in the relations of evolution of the production and in the spatial pattern of economic activity He also discusses how the progressive integration of South East Asia in the world economy has established the dominance of a small number of core areas and produced a pattern of uneven development throughout the region In a concluding chapter Chris Dixon explores the prospects for South East Asia in the 1990s in the light of the restructuring of the world economy **Capitalist Restructuring and the Pacific Rim** Ravi Palat, 2004-07-31 This book situates the evolution of capitalist economies along Asia's Pacific Rim after the Second World War within broader global political and economic changes Specifically it charts their growth at the interface of periodic crises and successive waves of restructuring and links changes in the world economy to shifts in regional dynamics in east and southeast Asia It suggests that while the expansion of Japanese corporate networks was crucial to the emergence of the region as a low cost exporter to the world the reintegration of China into the world market will free the region from its dependence on the US as a market of last resort **Free Markets and Food Riots** John K. Walton, David Seddon, 2011-08-10 This book describes and explains the extraordinary wave of popular protest that swept across the so called Third World and the countries of the former socialist bloc during the period from the late 1970s to the

early 1990s in response to the mounting debt crisis and the austerity measures widely adopted as part of economic reform and adjustment Explores this general proposition in a cross national study of the austerity protests or the IMF Riots that have affected so many debtor nations since the mid 1970s Argues that modern austerity protests like the classical bread riots in eighteenth century Europe are political acts aimed at injustice but acts that are an integral part of the process of international economic and political restructuring Evaluates how modern food riots are most important for what they reveal about global economic transformation and its social and political consequences Provides a general framework drawing on comparative and historical material and then trace the cycle of uneven development debt neo liberal reform and protest in Latin America Africa Asia the Middle East and Eastern Europe Focusses on the role of women in structural adjustment and protest politics and the features of seemingly anomalous cases which qualify the general argument
