South Africa 1948 1994:

Switzerland and South Africa 1948-1994 Georg Kreis, 2007 While other states imposed economic sanctions on the apartheid regime of South Africa Swiss authorities long adhered to the position that South Africa is a state like any other Swiss big business corporations saw an attractive trade partner in South Africa in part they also profited from the boycotts of others Additionally some political forces sympathised openly with the regime in Pretoria Encouraged by the debate concerning Swiss policy and activity during the Second World War in 1997 the order was given to initiate a historical study of Swiss behaviour towards the apartheid regime Thus this report commissioned by the Swiss parliament and the Federal Council and passed over to the Swiss National Science Foundation for execution came into being It unites the results of ten different research projects The report identifies the most important players involved in fashioning relations with South Africa it explains the legal situation in which these persons acted and it describes the thought processes that led to the actions The longest chapter deals with the attitudes and the areas of activity in the economic sector Here the trade with loans gold diamonds and war materials is paramount Other chapters are concerned with questions that are not primarily economic in nature such as political declarations the illusion of being in the role of a mediator contacts in sports and culture and after 1986 the beginning of support for the black majority

Apartheid, 1948-1994 Saul Dubow, 2014-05-23 This new study offers a fresh interpretation of apartheid South Africa Emerging out of the author's long standing interests in the history of racial segregation and drawing on a great deal of new scholarship archival collections and personal memoirs he situates apartheid in global as well as local contexts The overall conception of *Apartheid 1948 1994* is to integrate studies of resistance with the analysis of power paying attention to the importance of ideas institutions and culture Saul Dubow refamiliarises and defamiliarises apartheid so as to approach South Africa's white supremacist past from unlikely perspectives He asks not only why apartheid was defeated but how it survived so long He neither presumes the rise of apartheid nor its demise This synoptic reinterpretation is designed to introduce students to apartheid and to generate new questions for experts in the field

The History of Education Under Apartheid, 1948-1994 Peter Kallaway, 2002 South Africa 1948-1994 Rosemary Mulholland, 1997-08-28 This book focuses on the struggle for political and social freedom by the black majority in South Africa The book begins with an account of the origins of racism segregation and republicanism before 1948 It then concentrates on the history of South Africa following the establishment of the apartheid regime Topics include apartheid in practice the emergence of protest movements the Sharpeville massacre the pressures for change and the end of apartheid culminating in Nelson Mandela's appointment as president This highly illustrated text is based around lead questions and activities provides essential knowledge through background briefings encourages analysis of the issues through investigations contains review sections to aid clarity and allow students opportunities for revision

Law and Religion, An Overview Silvio Ferrari, 2017-07-05 The focus of this volume is on the historical and geographical elements of law and religion The first part delineates and analyzes the relation between church and state from the Gregorian Revolution to the human rights era and gives a sense of the evolution of the church and state relationship whilst the second part explores law and religion issues around the world The volume redresses the tendency towards a western centric approach in the discipline by including essays from regional experts which present local approaches to law and religion in Asia Africa and South America The collection is unique in that it brings together wide ranging case studies and out of print papers and is an important resource for established and new scholars in the field Language Conflict and Language Rights
