South Africa Human Rights And T:

The Politics of Welfare in the Global South Sattwick Dey Biswas, Cleopas Gabriel Sambo, Sony Pellissery, 2024 This book is a comprehensive reference for conducting political analyses of emerging welfare systems in the Global South It places a central emphasis on decolonizing social policy literature by developing empirically grounded theories and concepts illuminating societies in both the Global South and North These case studies contribute to theoretical generalizations capable of explaining universal principles that are relevant to both the Global South and North Secrecy and Liberty: National Security, Freedom of Expression and Access to Information Joan Fitzpatrick, Piotr Hoffman, Sandra Coliver, Stephen Bowen, 2021-09-27 The tension between national security and freedom of expression and information is both acute and multifaceted Without national security basic human rights are always at risk On the other hand the tendency of governing elites to confuse the life of the nation with their own survival has often resulted in excessive restrictions on expression and information as well as other fundamental rights A proper balance between secrecy and liberty requires a vigilant press and an independent judiciary It also requires greater clarity than currently exists as to how competing rights and interests should be weighed This book addresses that gap Its centerpiece is a set of Principles drafted by a group of international and national law experts many of whom contributed chapters to guide governments courts and international bodies in how to strike a proper balance The Principles have been widely endorsed among others by United Nations experts on freedom of expression and independence of judges and lawyers Sixteen country studies profiling among other states Albania Chile China Egypt France Germany India Israel Japan Norway South Africa South Korea Turkey the United Kingdom the United States and the Federal Republic of Yugoslavia explore the tremendous diversity of national security doctrines and the penal and other measures aimed at suppressing allegedly secret information and speech claimed to be subversive separatist or otherwise dangerous Five chapters examine the cases considered and approaches taken by the UN Human Rights Committee three regional human rights bodies and the European Court of Justice A Commentary draws on the other chapters to support and elucidate the Principles noting where they reflect an existing consensus and the points at which they attempt to elicit a more rights protective approach **International Labor and Environmental Standards** United States. Congress. House. Committee on Banking, Finance, and Urban Affairs. Subcommittee on International Development, Finance, Trade, and Monetary Policy, 1995 **Democratic South Africa's Foreign Policy** Suzanne Graham, 2016-10-06 This book provides readers with the first comprehensive study of South Africa s foreign policy conducted in a multilateral setting by placing on record over 1000 of South Africa s votes at the United Nations over a 20 year period The study investigates consistency in terms of South Africa s declared foreign policy and its actual voting practices at the United Nations Democratic South Africa s Foreign Policy Voting Behaviour in the United Nations offers a compendium of South Africa s United Nations behaviour during a poignant transitional period in the country s recent history In setting out a framework for analysing the conduct of

other countries voting behaviour in parallel with this study it can be used to advance the field as a useful comparative tool This book presents the material needed for International Relations scholars and practitioners in the field to make a reasoned and reflective assessment of this dimension of South Africa's foreign policy *African Legal Theory and Contemporary Problems* Oche Onazi, 2013-11-26 The book is a collection of essays which aim to situate African legal theory in the context of the myriad of contemporary global challenges from the prevalence of war to the misery of poverty and disease to the crises of the environment Apart from being problems that have an indelible African mark on them a common theme that runs throughout the essays in this book is that African legal theory has been excluded under explored or under theorised in the search for solutions to such contemporary problems The essays make a modest attempt to reverse this trend The contributors investigate and introduce readers to the key issues questions concepts impulses and problems that underpin the idea of African legal theory They outline the potential offered by African legal theory and open up its key concepts and impulses for critical scrutiny This is done in order to develop a better understanding of the extent to which African legal theory can contribute to discourses seeking to address some of the challenges that confront African and non African societies alike

Imperative in South Africa John W. De Gruchy, 2011-08-01 This book is an outcome of the conversation that occurred during the five days of intense discussion at two symposia initiated by the New Humanism Project The struggle for a more humane society is both local and universal and increasingly these are connected in our time So while the conversation focused specifically on South Africa the discussion was neither parochial nor insular in its scope and character Hopefully then people beyond South Africa will find the contents of this book of value for them in terms of their own contexts

Conflictual Democracy and the South African Constitution Henk Botha, 2025-04-02 Human dignity equality and freedom are central to the South African Constitution This book examines these values through a conflictual democratic lens which views conflict power and disagreement as constitutive of democracy The book explores the capacity of value based constitutional interpretation to create openings for democratic dialogue and emancipatory social struggles Conversely it also assesses the ability of constitutional interpretation to normalise and depoliticise domination inequality and exclusion The book uses a conflictual frame to shed light on the interplay between the universality of dignity equality and freedom and the particularity of the discourses and conventions that mediate their interpretation and enforcement It argues that such a frame could enable realistic assessments of the ability of the constitutional order to safeguard spaces for emancipatory struggles and respond to radical demands for the reconstitution of society Drawing on the text of the Constitution case law academic

commentary and constitutional political and critical legal theory this book will be an important read for researchers of constitutional law and critical legal theory both within South Africa and beyond Henk Botha is a Professor in the Faculty of Law Stellenbosch University South Africa Globalisation, Human Rights Education and Reforms Joseph Zajda,Sev Ozdowski,2016-09-23 This book the seventeenth instalment in the 24 volume series Globalisation Comparative Education and Policy Research explores the interrelationship between ideology the state and human rights education reforms setting it in a global context The book examines major human rights education reforms and policy issues in a global culture It focuses on the ambivalent and problematic relationship between the state globalisation and human rights education discourses Using a number of diverse paradigms ranging from critical theory to historical comparative research the authors examine the reasons for and the outcomes of human rights education reforms and policy The authors discuss discourses surrounding the major dimensions affecting the human rights education namely national identity democracy and ideology These dimensions are among the most critical and significant dimensions defining and contextualising the processes surrounding the nation building identity politics and human rights education globally With this as its focus the chapters represent hand picked scholarly research on major discourses in the field of human rights education reforms The book draws upon recent studies in the areas of globalisation equality and the role of the state in human rights education reforms Furthermore the perception of globalisation as dynamic and multi faceted processes clearly necessitates a multiple perspective approach in the study of human rights education This book provides that perspective commendably It also critiques current human rights education practices and policy reforms It illustrates the way shifts in the relationship between the state and human rights education policy In the book the authors who come from diverse backgrounds and regions attempt insightfully to provide a worldview of current developments in research concerning human rights education and citizenship education globally The book contributes in a very scholarly way to a more holistic understanding of the nexus between nation state human rights education both locally and globally Rights-based Litigation, Urban Governance and Social Justice in South Africa Marius Pieterse,2017-09-08 Rights based Litigation Urban Governance and Social Justice in South Africa considers the overlap between legal and everyday struggles for social and spatial justice in the particular context of Johannesburg South Africa Drawing from literature across disciplines of law urban geography and urban planning as well as from reported case law concerning the invocation of constitutional rights in Johannesburg and other South African cities the book critically examines whether and to what extent the invocation of legal rights before South African courts have contributed to the advancement of social justice in the city It considers the impact of the legal assertion of different constituent aspects of the so called right to the city on the many people simultaneously performing the right the governance structures responsible for enabling and facilitating its enjoyment and thirdly the physical place in which it is performed Drawing broad conclusions on the utility of rights based litigation for the achievement of social change and spatial justice this book will be of interest to students and

their position in relation to democratic decision making processes the implications of children and their rights for democratic and constitutional theory the role of the courts in ensuring the enforcement of children s rights and the debates surrounding the litigation and adjudication of social and economic rights This book thus represents a major original contribution to the existing scholarship in a range of areas including human and specifically social rights legal and political theory and constitutional law Children s rights were often thought to be synonymous with economic and social welfare prior to the adoption of the Convention on the Rights of the Child in 1989 Ironically since that time remarkably little scholarship has been devoted to the vitally important economic and social rights dimensions of children s rights Nolan s book singlehandedly remedies that neglect and does so in a sophisticated nuanced and balanced way It provides a superb account of the pros and cons of judicial activism in promoting these rights Philip Alston John Norton Pomeroy Professor NYU Law School Thus far the burgeoning literature on the judicial enforcement of socio economic rights has failed to engage in a sustained systemic manner with this topic from the perspective of children and the complexity of their status as citizens within contemporary democracies This book fills this gap and makes a major contribution to the literature in the three interrelated areas of the judicial review of socio economic rights claims children s rights and democratic theory Nolan navigates skilfully through the dense but rich literature in these areas as well as relevant international and comparative law In so doing she illuminates both the pitfalls and potential of resorting to courts in a partial response to the multifaceted and deeply entrenched global phenomenon of child poverty Professor Sandra Liebenberg HF Oppenheimer Professor of Human Rights Law University of Stellenbosch Law Faculty Winner of the Kevin Boyle Book Prize 2012 awarded by the Irish Association of Law Teachers to a book that is deemed to have made an outstanding contribution to the understanding of law

*Bullsh*t Comparisons* Andrew Brooks, 2024-03-28 Life is complicated comparisons are easy We consume enormous quantities of information every day from sources that are reliable and those less trustworthy including journalists politicians friends and social media One of the most common tools we use to communicate is comparison Are we suffering a hurricane of migrants Do dogs look like their owners Is Oxford better than Harvard Metaphors models and metrics are used to compare anything from schools to wars to iconic people But how helpful are they What truths do they hide and what bullsh t do comparisons propagate Looking across a fascinating range of situations both familiar and unfamiliar serious and light hearted Bullsh t Comparisons is a ground breaking guide to the role of could be true but misleading comparisons It is illuminated by examples spanning the globe from university league tables to childhood rivalries politicians tawdry analogies the FIFA World Footballer of the year award and Chinese neo colonialism in Africa Ideal for anyone interested in critical thinking or who simply wants to be able to spot bullsh t at twenty paces this thought provoking intelligent and often amusing book will challenge you to think critically about the use of comparison

Essays on Contemporary Issues in African Philosophy Jonathan O. Chimakonam, Edwin Etieyibo, Ike Odimegwu, 2021-11-06 This volume is a collection of chapters about contemporary issues within African philosophy. They are issues African philosophy must grapple with to demonstrate its readiness to make a stand against some of the challenges society faces in the coming decade such as xenophobia, Afro-phobia, extreme poverty, democratic failure, and migration. The text covers new methodical directions and there is focus on the conversationalist, complementarist, and consolationist movements within the field as well as the place of the Indigenous Knowledge System. The collection speaks to African philosophy's place in intellectual history with coverage of African Ethics and African socio-political philosophy. Contributors come from a variety of different backgrounds, institutions, and countries. Through their innovative ideas, they provide fresh insight and intellectual energy. The book appeals to philosophy students and researchers.
