Timothy Gibbs

South Africa's Transkei The Political Economy Of An Independent Bantustan:

The Political Economy of Modern South Africa Alf Stadler, 2022-10-05 Originally published in 1987 this book argues that South African politics reflect the changing ways in which the region has been incorporated into the world economy It traces the effects of a process of industrialisation under the dominance of mining on the other sectors of the economy and on the evolution of the class structure It shows how a coercive labour system influenced the definition of political and social rights in racial terms and profoundly influenced the development of authoritarian controls over blacks in the urban and rural areas from the 1920s onwards The book includes an essay on the different strands in the reform movement and speculates about the social and political forces which underlined the political changes which began to take place during the mid 1970s

South Africa's Transkei Roger Southall, 1983 New Histories of South Africa's Apartheid-Era Bantustans

Shireen Ally, Arianna Lissoni, 2017-06-26 The bantustans or homelands were created by South Africa's apartheid regime as ethnically defined territories for Africans Granted self governing and independent status by Pretoria they aimed to deflect the demands for full political representation by black South Africans and were shunned by the anti apartheid movement In 1972 Steve Biko wrote that politically the bantustans are the greatest single fraud ever invented by white politicians With the end of apartheid and the first democratic elections of 1994 the bantustans formally ceased to exist but their legacies remain inscribed in South Africa's contemporary social cultural political and economic landscape While the older literature on the bantustans has tended to focus on their repressive role and political illegitimacy this edited volume offers new approaches to the histories and afterlives of the former bantustans in South Africa by a new generation of scholars This book was originally published as various special issues of the South African Historical Journal The Political Economy Of U.s. Policy Toward South Africa

Kevin Danaher, 2019-07-11 By tracing U S involvement in South African political and economic development since the late 1800s this book analyzes U S corporate and government motives for maintaining the political status quo in South Africa In recent decades according to the author U S policy toward South Africa has grown more contradictory Endeavoring to protect the United States's reputation on the question of race government officials denounce apartheid yet Washington remains the main force blocking an international response to South African policies As the situation in South Africa continues to polarize the U S is increasingly isolated in its position of verbally condemning yet materially supporting South Africa's white minority regime a regime confronting the distinct possibility of civil war **The Political Economy of**

Aid in Palestine Sahar Taghdisi-Rad, 2010-10-04 This book examines the nature of donor operations in Palestine and questions the viability of aid as an instrument of economic development in conflict zones It highlights the political and ideological determinants of aid allocation and effectiveness arguing that aid to Palestine cannot bring about significant improvement as long as the Palestinian economy is fundamentally affected by Israeli occupation settlement and blockade

The Agrarian Question in Southern Africa and "accumulation from Below" M. Neocosmos, 1993 Repression

and Resistance Robin Cohen, Yvonne G. Muthien, Abebe Zegeye, 2024-02-29 Originally published in 1990 this book provides a unique view of South Africa and when it was published it represented a coming of age of a new and vigorous strand of scholarship. The contributors are black social scientists, doctors or trade unionists, some working inside black universities which subsequently turned against the apartheid planners who created them. This book reflects the conviction that the black people of South Africa are not only passive victims of white repression but actors with the capacity for both overt and covert resistance. Whether writing about the health service shopfloor struggles or the evasion of pass controls, the contributors combine scholarly analysis with an insider's knowledge of the difference between apartheid theory and the social reality of South Africa during the 1990s. Apartheid, 1948-1994 Saul Dubow, 2014-05 This fresh interpretation of apartheid South Africa integrates histories of resistance with the analysis of power, asking not only why apartheid was defeated but how it came to survive for so long.

Siting Culture Kirsten Hastrup, Karen Fog Olwig, 2005-06-20 Culture has been subject to critical debate in anthropology during the past decade and this is related to a shift in emphasis from the bounded local culture to transnational cultural flows. At the same time that cultural mobility is being emphasized, the people studied by anthropologists are recasting culture as a place of belonging as they construct local identities within global fields of relations. So far, much of the analysis of the role of place in culture has been carried out at a level of theoretical debate. *Siting Culture* argues that it is only through rich ethnographic studies that anthropologists may explore the significance of place in the global space of relations which mould the lives of people throughout the world. By examining the concept of culture through case studies from Europe, Africa, Oceania, Latin America and the Caribbean, it probes the methodological and theoretical implications of the divergent scholarly and popular concepts of culture.

Comparative Employment Relations in the Global Economy Carola Frege, John Kelly, 2013-07-24 Employment Relations is widely taught in business schools around the world. Increasingly, however, more emphasis is being placed on the comparative and international dimensions of the relations between employers and workers. It is becoming ever more important to comprehend today's work and employment issues alongside a knowledge of the dynamics between global financial and product markets, global production chains, national and international employment actors and institutions, and the ways in which these relationships play out in different national contexts. This textbook is the first to present a cross-section of country studies including all four BRIC countries: Brazil, Russia, India, and China, alongside integrative thematic chapters covering all the important topics needed to excel in this field. The textbook also benefits from the editors' and contributors' experience as leading scholars in Employment Relations. The book is an ideal resource for students on advanced undergraduate and postgraduate comparative programmes across areas such as Employment Relations, Human Resource Management, Political Economy, Labour Politics, Industrial and Economic Sociology, Regulation and Social Policy.

The Politics of Evil Clifton Crais, 2002-10-17 In *The Politics of Evil*, Clifton Crais provides a unique interpretation of South African history, power, culture, and resistance.

Mongameli Mabona Ernst Wolff, 2020-12-01

The life and work of a remarkably versatile and pioneering South African thinker Mongameli Anthony Mabona 1929 is a singular South African scholar with an exceptional life path Yet he is a wrongly forgotten figure today British imperialism and apartheid shaped the world into which he was born and to a large extent these powers carved out his destiny for him Nevertheless a curious set of coincidences enabled him to obtain a tertiary education as a priest to pursue his doctoral studies in Italy and to befriend Alioune Diop He is one of the first published philosophers of Anglophone Africa and holds doctorates in theology and anthropology His opposition to institutionalized racism an opposition which included his co authoring the 1970 Black Priests Manifesto eventually led to his exile This book is the first study of any kind devoted to Mabona It documents his life and offers a synoptic reading of his scholarly and poetic work *Photography and History in Colonial Southern Africa* Lorena Rizzo, 2019-09-16 This book studies the relationship between photography and history in colonial Southern Africa using a series of encounters with Southern African photographic archives to reflect on photography as a distinct historical form Through use of private and public archives images produced by African itinerant photographers white settlers and colonial state institutions this book explores the relationship between photography and history in colonial Southern Africa Late nineteenth century Cape Colonial prison albums police photographs from German Southwest Africa African studio portraits identity documents travel permits and passports from the 1920s and 1930s visual studies of whiteness and blackness authored by settler photographers South African dompas photographs from the 1950s and 1960s and aerial photography from the Eastern Cape in the mid twentieth century are examined to highlight the ways in which photographic images cut across conventional institutional boundaries and complicate rigid distinctions between the private and the public the political and the aesthetic the colonial and the vernacular or the subject and the object *Photography and History in Colonial Southern Africa* argues that rather than understanding photographs as a means of preserving and recreating the past in the present we can value them for how they evoke at once the need for and the limits of historical reconstruction This book will be of interest to students and scholars of colonial history photographic history visual media and African studies *South African Horror Cinema* Calum Waddell, 2025-08-21 This is the first study to explore South Africa both in horror cinema and as a formidable producer of celluloid scares From framing the notorious apartheid system as a mental asylum in the ground breaking and criminally underseen Jannie Totsiens Jans Rautenbach 1970 to such seventies exploitation shockers as *The Demon* Percival Rubens 1979 through to the blockbuster hit *District 9* Neill Blomkamp 2009 and beyond this book suggests that South Africa should finally obtain its rightful place in the canon of wider genre studies and horror cinema fandom Taking in the 80s nightmares of Darrell Roodt and concluding with an analysis of the recent boom period in South African fright films including discussion of such contemporary efforts as *The Tokoloshe* Jerome Pikwane 2018 and the Troma esque leanings of *Fried Barry* Ryan Kruger 2020 *South African Horror Cinema* focuses on ever changing identities and perspectives and embraces the frequently carnivalesque and grotesque elements of a most unique lineage in

macabre motion pictures **Rogues Gallery** Matthew Blackman, Nick Dall, 2021-03-15 If you reckon corruption in South Africa began with Zuma or even with apartheid it's time to catch a wake up call Rogues Gallery tells the story of some of the biggest skelms to grace our un-fair shores showing that dodgy dealings have been a national pastime for as long as South African history has been written down The action starts with the machinations of three colonial governors rotten Willem Adriaan van der Stel and the twaddling British duo Sir George Yonge and Lord Charles Somerset Added to this is Cecil John Rhodes's unparalleled success in poisoning the land with theft fraud and war and Oom Paul Kruger's corrupt and compromised Volksraads official and unofficial Readers are then treated to apartheid's finest feats in corruption from the Broederbond's perfect ten in state capture to the Department of Information's peddling of fake news and the apartheid state's manufacture of no-not illegal cigarettes Class A drugs And let's not forget the hotbed of corruption that was the independent homelands Add to this a few murders plenty of nepotism and a state president who started out as a Nazi spy and the gallery of rogues is complete On the flipside every chapter also features at least one brave whistle blower the true heroes of this book Irreverent entertaining and impeccably researched Rogues Gallery busts the myth that the Zuptas were the first to capture the South African state showing that corruption has always been around and that the tricks politicians play haven't changed a jot Mandela's Kinsmen Timothy Gibbs, 2014 Mandela's Kinsmen is the first study of the fraught relationships between the ANC leadership and their relatives who ruled apartheid's foremost tribal Bantustan the Transkei In the early 20th century the chieftaincies had often been well springs of political leadership In the Transkei political leaders such as Mandela used regionally rooted clan schooling and professional connections to vault to leadership they crafted expansive nationalisms woven from these kin identities But from 1963 the apartheid government turned South Africa's chieftaincies into self governing tribal Bantustans in order to shatter African nationalism While historians often suggest that apartheid changed everything African elites being eclipsed by an era of mass township and trade union protest and the chieftaincies co-opted by the apartheid government there is another side to this story Drawing on newly discovered accounts and archives Gibbs reassesses the Bantustans and the changing politics of chieftaincy showing how local dissent within Transkei connected to wider political movements and ideologies Emphasizing the importance of elite politics he describes how the ANC in exile attempted to re-enter South Africa through the Bantustans drawing on kin networks This failed in KwaZulu but Transkei provided vital support after a coup in 1987 and the alliances forged were important during the apartheid endgame Finally in counterpoint to Africanist debates that focus on how South African insurgencies narrowed nationalist thought and practice he maintains ANC leaders calmed South Africa's conflicts of the early 1990s by espousing an inclusive nationalism that incorporated local identities and that Mandela's kinsmen still play a key role in state politics today Timothy Gibbs is a Lecturer in African History University College London Southern Africa South Africa Namibia Lesotho Swaziland Botswana Jacana **Rural Resistance in South Africa** Thembele Kepe, Lungisile Ntsebeza, 2011-11-04 Much has been written about

anti apartheid resistance by the marginalized people of South Africa as well as its violent repression by security forces in urban areas e g Sharpeville massacre Soweto riots Very little attention has been paid to resistance by rural people The Mpondo Revolts which began in the 1950s and reached a climax in 1960 rank among the most significant rural resistances in South Africa Here Mpondo villagers emphatically rejected the introduction of Bantu Authorities and unpopular rural land use planning that meant loss of land The volume presents a fresh understanding of the uprising as well as its meaning and significance then and now particularly relating to land rural governance party politics and the agency of the marginalized

Twentieth-Century South Africa William Beinart, 2001-10-04 An innovative examination of the forces both destructive and dynamic which have shaped twentieth century South Africa This book provides a stimulating introduction to the history of South Africa in the twentieth century It draws on the rich and lively tradition of radical history writing on that country and to a greater extent than previous accounts weaves economic and cultural history into the political narrative Apartheid and industrialization especially mining are central theme as is the rise of nationalism in the Afrikaner and African communities But the author also emphasizes the neglected significance of rural experiences and local identities in shaping political consciousness The roles played by such key figure as Smuts Verwoerd de Klerk Platje and Mandela are explored while recent historiographical trends are reflected in analyses of rural protest white cultural politics the vitality of black urban life and environmental decay The book assesses the analysis of black reactions to apartheid the rise of the ANC The concluding chapter brings this seminal history up to date tackling the issues and events from 1994 1999 in particular the success of Mandela and the ANC in seeing through the end of apartheid rule It also looks at the chances of a stable future for the new found democracy in South Africa

Traditional Leadership and Democratisation in Southern Africa Sandra Düsing, 2002 What are the impacts of ethnically based traditional political institutions on democratic state and nation building in Southern Africa and how do heterogeneous sources of legitimacy affect the prospects of long term democratic regime consolidation What are the impacts of traditionalism employed for purposes of party political mobilization An indicator for the political influence of traditional leadership in Southern Africa is the fact that a considerable number of democratically elected politicians in high office originate from aristocratic families representing hereditary traditional leadership structures for centuries This is evident for the charismatic founding president of the new South Africa Nelson Mandela as well as for his adversary the prime minister in office Mangosuthu Buthelezi The careful reconsideration of this state behind the state has been identified as crucial in this study to make any realistic assessments of the prospects for

sustainable democratization in Southern African countries in the near future
