**South Asia's Nuclear Security** Bhumitra Chakma, 2014-12-17 South Asia is often viewed as a potential nuclear flashpoint and a probable source of nuclear terrorism But how valid are such perceptions This book seeks to address this question and assesses the region's nuclear security from two principal standpoints First it evaluates the robustness of the Indo Pakistani mutual deterrence by analysing the strength and weaknesses of the competing arguments regarding the issue It also analyses the causes and consequences of nuclear arms race between India and Pakistan the nature of deterrence structure in the region and the challenges of confidence building and arms control between the two countries in order to assess the robustness of South Asia's nuclear deterrence Second it assesses the safety and security of the nuclear assets and nuclear infrastructure of India and Pakistan The author holds that the debate on South Asia's nuclear security is largely misplaced because the optimists tend to overemphasise the stabilising effects of nuclear weapons and the pessimists are too alarmists It is argued that while the risks of nuclear weapons are significant it is unlikely that India and Pakistan will give up their nuclear arsenals in the foreseeable future Therefore what needs to happen is that while

nuclear elimination should be the long term goal in the interim years the two countries need to pursue minimum deterrence policies to reduce the likelihood of deterrence failure and the possibility of obtaining fissile materials by non state actors

**Strengthening Regional Trade Integration in South Asia** Owais Hasan Khan, 2021-03-05 This book brings forth the philosophical conceptual and practical contours of the trade regionalism provisions under the GATT WTO It analyses SAARC as the regional integration organisation of South Asia along with identifying major challenges and bottlenecks faced by it in the process of achieving regional integration It presents ways and methods through which SAARC can be made a more effective regional organisation The book predominantly focuses on trade regionalism However other areas of integration which have impacts on the trade regionalism are also examined like social and political integrations etc The book takes off from the premise that trade regionalism under SAARC has failed and has been marred by political and security concerns among its member nations It has failed to achieve its objective on all the three counts which are promoting peace development and economic cooperation However with the developing countries as members SAARC has great potential for trade integration Certain structural normative and organisation alteration along with favourable ideation can still make SAARC achieve its full potential The book also deals with the comparative analysis of SAARC regional integration with the regional integration under European Union and ASEAN Regarding comparative regionalism the discussion has been confined only to the EU and ASEAN The EU has been chosen because it is comparatively established as one of the most successful regional organisations in the contemporary world Whereas ASEAN has been chosen because of its similarity to the SAARC s economy society and political structure The analysis presented in the book is from the perspectives of international law and international relations theories and practise This book thus is of particular relevance to the students researchers academicians policymakers and practitioners of international trade law international relations and South Asian studies
