Cataloging Policy and Support Office, 2007 **The Columbia Anthology of Modern Korean Poetry** David Richard McCann, 2004 The only up to date representative gathering of Korean poetry from the twentieth century in English this volume presents 228 poems by 34 modern Korean poets including renowned poets such as So Chongju and Kim Chiha *Against the Chains of Utility* Serk-Bae Suh, 2025-08-31 The 1970s and 1980s were pivotal decades in South Korea marked by rapid industrialization and urbanization The language of sacrifice was constantly employed by the developmental state to justify its exploitation of

workers and violation of countless civil rights as necessary for the nation's economic growth and security. As a counter to this prevailing rhetoric, a rich variety of literary texts emerged to capture moments of anti-utilitarian sacrifice, including Kim Hyon's critical essays, Pak Sangnyung's monumental novel *A Study of Death* (1975), and Ko Chong-i's poems about the Passion of Jesus. *Against the Chains of Utility* examines the anti-utilitarian visions outlined in these and other works, which range from the idea of sacrifice as an escape from instrumental rationality to the view of literature as a deviation from the mundane world. In doing so, it tasks us with rethinking literature's relationship to society during formative years in South Korean history. In *Against the Chains of Utility*, Serk Bae Suh challenges the notion of utilitarian sacrifice, which continues to pervade every aspect of Korean society. He argues that any act of sacrifice for a higher cause is inherently utilitarian, regardless of whether its motives are morally sound or questionable. Such sacrifices establish a circuit of exchange where sacrifice is valued solely based on its ability to achieve an end. To counter this instrumentalization, anti-utilitarian sacrifice must exist as a means without an end. Suh posits that literature's relevance to society lies in this seemingly nihilistic sacrifice, viewing literature not as a proxy for politics but as the art of imagination in language.

Triangle Republics | Jonathan Kief, 2025-09-16 In Korea, the end of the Second World War in 1945 brought both liberation from Japanese colonial rule and the division of the nation by the triumphant Allies. The peninsula was not only decoupled from its former colonial metropole but also carved up into two halves that were subsequently incorporated into the rival blocs of the emerging Cold War order. Although the two Koreas are typically seen as isolated from each other, texts continued to circulate between them with the assistance of Korean diasporic and other colleagues in Japan throughout the ensuing decades. Jonathan Kief follows the triangular flow of texts linking North Korea, South Korea, and Japan from 1945 until the 1980s, revealing overlooked paths of interaction and exchange. He highlights the creative ways in which poets, playwrights, novelists, critics, and academics crossed boundaries of language, ideology, genre, and geography to challenge the stability of the Cold War. By showing how writers in North and South Korea engaged in dialogue via the mediation of a multiethnic set of colleagues in Japan, *Triangle Republics* offers a new perspective on this era, emphasizing its vibrant, dynamic, and interconnected nature.
