South Pacific Diary 1942 1943:

South Pacific Diary, 1942-1943 Mack Morriss, 2021-12-14 A unique chronicle of the war from the perspective of a sensitive twenty four year old sergeant who wrote for the Army s in house paper Yank the Army Weekly and a tale of the South Pacific that will not soon be forgotten Correspondent Mack Morriss reluctantly left his diary in the Honolulu Yank office in July 1943 Here is contained an account of the past eight and one half months he wrote in his last entry a period which I shall never forget The next morning he was on a plane headed back to the South Pacific and the New Georgia battleground Morriss was working out of the press camp at Spa Belgium in January 1945 when he learned that the diary he had kept in the South Pacific had arrived in a plain brown wrapper at the New York office He was so happy to know that this impossible thing had happened he wrote to his wife that he helped two friends murder a quart of scotch What was preserved and appears in print here for the first time is a unique chronicle of the war in the South Pacific from the perspective of a sensitive twenty four year old sergeant This is an intensely personal account reporting the war from the ridge known as the Sea Horse on Guadalcanal from the bars and dance halls of Auckland to a B 17 flying through the moonlit night to bomb Japanese installations on Bougainville Morriss thought deeply and wrote movingly about everything connected with the war the sordiness and heroism the competence and ineptitude of leaders the strange mixture of constant complaint and steady courage of ordinary GIs friendships formed under combat stress and above all what he perceived to be his own indecisiveness and weaknesses Ronnie Day introduces Morriss s diary and illuminates the work with extensive notes based on private papers government documents travel in the Solomon Islands and the recollections of men mentioned in the diary

Mothers' Darlings of the South Pacific Judith A. Bennett, Angela Wanhalla, 2016-03-31 Over the course of World War II two million American military personnel occupied bases throughout the South Pacific leaving behind a human legacy of at least 4 000 children born to indigenous mothers Based on interviews conducted with many of these American indigenous children and several of the surviving mothers *Mothers Darlings of the South Pacific* explores the intimate relationships that existed between untold numbers of U S servicemen and indigenous women during the war and considers the fate of their mixed race children These relationships developed in the major U S bases of the South Pacific Command from Bora Bora in the east across to Solomon Islands in the west and from the Gilbert Islands in the north to New Zealand in the southernmost region of the Pacific The American military command carefully managed interpersonal encounters between the sexes applying race based U S immigration law on Pacific peoples to prevent marriage across the color line For indigenous women and their American servicemen sweethearts legal marriage was impossible giving rise to a generation of fatherless children most of whom grew up wanting to know more about their American lineage *Mothers Darlings of the South Pacific* traces these children s stories of loss emotion longing and identity and of lives lived in the shadow of global war Each chapter discusses the context of the particular island societies and shows how this often determined the ways intimate relationships

developed and were accommodated during the war years and beyond Oral histories reveal what the records of colonial governments and the military have largely ignored providing a perspective on the effects of the U S occupation that until now has been disregarded by Pacific war historians The richness of this book will appeal to those interested the Pacific World War II as well as intimacy family race relations colonialism identity and the legal structures of U S immigration [The First Lady of World War II](#) Shannon McKenna Schmidt,2023-05-02 The first book to tell the full story of Eleanor Roosevelt s unprecedented and courageous trip to the Pacific Theater during World War II On August 27 1943 news broke in the United States that First Lady Eleanor Roosevelt was on the other side of the world A closely guarded secret she had left San Francisco aboard a military transport plane headed for the South Pacific to support and report the troops on WW2 s front lines Americans had believed she was secluded at home As Allied forces battled the Japanese for control of the region Eleanor was there on the frontlines spending five weeks traveling on a mission as First Lady of the United States to experience what our servicemen were experiencing and report back home The most remarkable journey any president s wife has ever made Washington Times Herald September 28 1943 Mrs Roosevelt s sudden appearance in New Zealand well deserves the attention it is receiving This is the farthest and most unexpected junket of a First Lady whose love of getting about is legendary Detroit Free Press August 28 1943 By a happy chance for Australia this famous lady s taste for getting about her habit of seeing for herself what is going on in the world and most of all her deep concern for the welfare of the fighting men of her beloved country have brought her on the longest journey of them all across the wide war clouded Pacific Sydney Morning Herald September 4 1943 No other U S mother had seen so much of the panorama of the war had been closer to the sweat and boredom the suffering Time October 4 1943 **United States Army In WWII - The Pacific - Guadalcanal: The First Offensive** Samuel Milner,2014-08-15 Includes 3 charts 36 maps and 107 illustrations The successes of the South Pacific Force wrote Admiral Halsey in 1944 were not the achievements of separate services or individuals but the result of whole hearted subordination of self interest by all in order that one successful fighting team could be created The history of any South Pacific campaign must deal with this fighting team with all United States and Allied services The victory on Guadalcanal can be understood only by an appreciation of the contribution of each service No one service won the battle The most decisive engagement of the campaign was the air and naval Battle of Guadalcanal in mid November 1942 an engagement in which neither Army nor Marine Corps ground troops took any direct part This volume attempts to show the contribution of all services to the first victory on the long road to Tokyo It does not describe all ground air and naval operations in detail but it does attempt by summary when necessary to show the relationship between air ground and surface forces in modern warfare **Severed: A History of Heads Lost and Heads Found** Frances Larson,2014-11-17 A wide ranging and thoughtful Wall Street Journal exploration of the varied obsessions that the civilized West has had with decapitated heads and skulls The human head is exceptional It accommodates four of our five senses

encases the brain and boasts the most expressive set of muscles in the body. It is our most distinctive attribute and connects our inner selves to the outer world. Yet there is a dark side to the head's preeminence, one that has in the course of human history manifested itself in everything from decapitation to headhunting. So explains anthropologist Frances Larson in this fascinating history of decapitated human heads. From the Western collectors whose demand for shrunken heads spurred massacres to Second World War soldiers who sent the remains of the Japanese home to their girlfriends from Madame Tussaud modeling the guillotined head of Robespierre to Damien Hirst photographing decapitated heads in city morgues from grave robbing phrenologists to skull obsessed scientists, Larson explores our macabre fixation with severed heads.

Survival in the South Pacific Robert Richardson, 2024-09-30 This account of oft forgotten aspects of the war that is also a powerful survival story is highly recommended for the casual reader of military history as well as the serious scholar of the Pacific war. *Journal of America's Military Past*. In September 1943 as America began advancing from its foothold on Guadalcanal, a young American airman was lost in heavy weather over the South Pacific on what was expected to be a routine flight. In examining that loss and the events leading up to a rescue attempt on an island in the South Pacific and bringing together societies utterly alien to each other, *Survival in the South Pacific* brings together the big themes of the Pacific War. Lieutenant Leonard Richardson and his comrades had been swept from their homes across America, trained at speed for war and dispatched to one of the remotest places on the globe. American war plans in place when Pearl Harbor was attacked poorly reflected the capabilities of its military and the limits imposed by America's far flung and indefensible territories. The Germany First policy had resulted in a deeply uncertain future for forces in the South Pacific and Australia. The United States was unprepared for the global war that came to it in late 1941, even as the pipeline of men and materiel began to fill. Young Allied and Japanese aviators, sailors and soldiers were not the only ones thrown into the swirling maelstrom of war that had engulfed the Pacific; the indigenous islanders were also immersed in a new reality. In bringing together individual stories of men at war, this book gives a new perspective on the Pacific War. *Guadalcanal: the First Offensive* John Miller, 1949

Hell's Islands Stanley Coleman Jersey, 2008 Presents battlefield accounts and first person narratives from over 200 Allied and Japanese veterans of the battle on Guadalcanal Island between August 1942 and February 1943 **United States**

Army in World War II. , 1949 **Bloody Pacific** P. Schrijvers, 2010-06-25 Based on countless diaries and letters, Schrijvers recounts American GIs' experiences in Asia and the Pacific. From the daunting spaces of the China-India theatre to the fortress islands of Iwo Jima and Okinawa, he brings to life their struggle with suffocating wilderness, devastating diseases, and Japanese soldiers who preferred death over life. *The GI War Against Japan* Peter Schrijvers, 2005-03 Recounts the harrowing experiences of American soldiers in Asia and the Pacific. Based on countless diaries and letters, it sweeps across the battlefields from the early desperate stand at Guadalcanal to the tragic sinking of the U.S.S. Indianapolis at war's very end. *Islands of Destiny* John Prados, 2013-10-01 The Battle of Midway is traditionally held as the point when Allied forces

gained advantage over the Japanese In Islands of Destiny acclaimed historian and military intelligence expert John Prados points out that the Japanese forces quickly regained strength after Midway and continued their assault undaunted Taking this surprising fact as the start of his inquiry he began to investigate how and when the Pacific tide turned in the Allies favor Using archives of WWII intelligence reports from both sides Prados offers up a compelling reassessment of the true turning in the Pacific not Midway but the fight for the Solomon Islands Combat in the Solomons saw a series of surface naval battles including one of the key battleship versus battleship actions of the war two major carrier actions daily air duels including the aerial ambush in which perished the famous Japanese naval commander Admiral Yamamoto Isoroku and many other hair raising exploits Commencing with the Allied invasion of Guadalcanal Prados shows how and why the Allies beat Japan on the sea in the air and in the jungles The Army Air Forces in World War II, Volume Four: The Pacific, Guadalcanal to Saipan, August 1942 to July 1944 , *The War Beat, Pacific* Steven Casey,2021-04-05 The War Beat Pacific is the first book to use a wealth of previously untapped documents to provide a comprehensive account of the reporting of the war against Japan from Pearl Harbor and Bataan through Midway and Guadalcanal Tarawa and Saipan Leyte and Luzon Iwo Jima and Okinawa to Hiroshima and Nagasaki **The Pacific Campaign in World War II** William Bruce Johnson,2006-05-02 This is a fascinating new account of how diplomacy and politics gave way to military strategy and warfare in the Pacific Presenting previously unpublished photographs interviews with veterans newly commissioned maps and new translations of Japanese sources this book freshly examines the key events in the fight for the Pacific Detailing the background to the Japanese attack on Pearl Harbor it shows how the decision makers in Washington following consultation with the leaders of Britain Australia and New Zealand moved to stop Japan from its drive toward Australia by initiating a counterthrust in the Solomon Islands It also shows how qualities and character of leadership are crucial to winning wars detailing how Admiral Ernest J King managed to commit the Marine Corps to ground action in the South Pacific six months earlier than originally planned by ignoring the Roosevelt s commitment to defeat Germany prior to fighting Japan and by outmaneuvering Gen Douglas MacArthur for leadership It also explains how Marines under Maj Gen A A Vandegrift despite inadequate logistical support managed to prevail in the Americans first ground campaign of World War II making Japan s ultimate defeat inevitable In addition to recounting these key events it traces how censorship and patriotism influenced the reporting of the conflict in America how Hollywood films further shaped public opinion by portraying the significant events in particular ways and how certain crucial decisions such as the early bombing raid of Tokyo and giving Douglas MacArthur command of the war effort in Australia were political rather than strategic and were made to foster morale rather than to gain any military advantage This book will be of great interest to all students and scholars of Military History and to all readers with a general interest in World War II particularly in the conflicts of the Pacific Pearl Harbor and Guadalcanal Natives and Exotics Judith A. Bennett,2009-07-15 Ambitious in its scope and scale this environmental history of World War II ranges over rear bases and

operational fronts from Bora Bora to New Guinea providing a lucid analysis of resource exploitation entangled wartime politics and human perceptions of the vast Oceanic environment Although the war's physical impact proved significant and oftentimes enduring this study shows that the tropical environment offered its own challenges Unfamiliar tides left landing craft stranded unseen microbes carrying endemic diseases disabled thousands of troops Weather terrain plants animals all played an active role as enemy or ally At the heart of *Natives and Exotics* is the author's analysis of the changing visions and perceptions of the environment not only among the millions of combatants but also among the Islands peoples and their colonial administrations in wartime and beyond Judith Bennett reveals how prewar notions of a paradisiacal Pacific set up millions of Americans Australians New Zealanders and Japanese for grave disappointment when they encountered the reality She shows that objects usually considered distinct from environmental concerns souvenirs cemeteries war memorials warrant further examination as the emotional quintessence of events in a particular place Among native people wartime experiences and resource utilization induced a shift in environmental perceptions just as the postwar colonial agenda demanded increased diversification of the resource base Bennett's ability to reappraise such human perceptions and productions with an environmental lens is one of the unique qualities of this study Impeccably researched *Natives and Exotics* is essential reading for those interested in environmental history Pacific studies and a different kind of war story that has surprising relevance for today's concerns with global warming

Red Arrow across the Pacific Mark D. Van Ells, 2024-09-30 The history of WWII's most battle tested US Army division and its crucial role in achieving Allied victory in the Pacific *Red Arrow across the Pacific* reveals the long overdue story of the renowned Thirty Second Red Arrow Infantry Division Discover how this National Guard unit which originated in Wisconsin and Michigan but soon evolved to include soldiers from California to New England became one of the first US military units deployed overseas in World War II eventually logging more combat hours than any other US Army division Far more than a traditional battle narrative *Red Arrow across the Pacific* offers a cultural history of the Red Arrow's wartime experience from its mobilization in 1940 to its deployment across New Guinea Australia and the Philippines to its postwar occupation of Japan Drawing from letters memoirs and interviews author Mark D Van Ells lets the soldiers speak for themselves describing in their own words the terror of combat their impressions of foreign lands the struggle to maintain their own humanity and the many ways the war profoundly changed them Nuanced and remarkably thorough this book explores the dramatic evolution of the Thirty Second Infantry Division and reveals how the story of the Red Arrow reflects the experience of the US military during World War II

The Army Air Forces in World War II: Services around the world, 1948 *A Religious History of the American GI in World War II* G. Kurt Piehler, 2021-12 *A Religious History of the American GI in World War II* breaks new ground by recounting the armed forces unprecedented efforts to meet the spiritual needs of the fifteen million men and women who served in World War II For President Franklin D Roosevelt and many GIs religion remained a core American value that

fortified their resolve in the fight against Axis tyranny While combatants turned to fellow comrades for support even more were sustained by prayer GIs flocked to services and when they mourned comrades lost in battle chaplains offered solace and underscored the righteousness of their cause This study is essential reading for anyone seeking to understand the social history of the American GI during World War II Drawing on an extensive range of letters diaries oral histories and memoirs G Kurt Piehler challenges the conventional wisdom that portrays the American GI as a nonideological warrior American GIs echoed the views of FDR who saw a Nazi victory as a threat to religious freedom and recognized the antisemitic character of the regime Official policies promoted a civil religion that stressed equality between Protestantism Roman Catholicism and Judaism Many chaplains embraced this tri faith vision and strived to meet the spiritual needs of all servicepeople regardless of their own denomination While examples of bigotry sectarianism and intolerance remained the armed forces fostered the free exercise of religion that promoted a respect for the plurality of American religious life among GIs
