own extensive collection of maritime history materials as well as from research in libraries and museums around the country Based on recent discoveries in nautical archaeology Francaviglia tells the stories of the Spanish flotilla that wrecked off Padre Island in 1554 and of La Salle s flagship Belle which sank in 1687 He explores the role of the Texas Navy in the Texas Revolution of 1835 1836 and during the years of the Texas Republic and also describes the Civil War battles at Galveston and Sabine Pass Finally he recounts major developments of the nineteenth century concluding with the disastrous Galveston Hurricane in 1900 More than one hundred illustrations many never before published complement the text Starry Starry Night Larry Farmer,2023-04-26 Ex Marine Nathan too restless for college and everyday life at home craves the adventure of backpacking around the world Michaela daughter of a Holocaust survivor shares his love of backpacking and moving on As they leave a kibbutz in Israel they join forces to explore Europe before returning to their studies Is it a match made in heaven Whether they will ever settle down as the love they share demands is the question Could it be that the only adventure that really matters after all is the rest of their lives together Fun with the Family Texas Sharry Buckner,2009-12-08 Provides family friendly information and tips for vacationing in Texas presenting lodging and dining suggestions for different budgets and details on activities kids will enjoy covering children s museums historic sites recreation trails parks zoos amusement and water parks festivals and other options in each of the state s regions **Bridging the Gap** ,2009-02 Offers information on the conditions age and costs to repair and modernize the nation s 590 000 bridges as well as key examples showcasing new inspection and construction technologies Key findings 1 Within the next 15 years almost half of the nation s bridges will exceed 50 years of age exceeding the life span for which they were designed Even now one in five are over 50 2 With age comes decay One in four of our bridges are rated as deficient either in need of repair or in need of widening to handle today s traffic 3 New estimates show that more than 140 billion will be needed to fix them 4 Soaring construction costs have whittled away the ability of states to address preventive maintenance and new bridge construction Illustrations *Ixtoc I Pollution Compensation--shipboard Asbestos Exposure--MARPOL Protocol* United States. The abuse to my family lit the fuse Drunk drivers took away family members and then my whole reason for living This action by drunk drivers resulted in an explosion It was time to set right some of the wrongs caused by a legal system that just doesn't work anymore I traveled the entire United States in retribution Traveling the Shore of the Spanish Sea Geoff Winningham,2010-02-15 In a work of sweeping breadth and beauty Geoff Winningham has created a profusely illustrated contemplative travel journal that showcases his talent as both a photographer and a writer and reveals his affection and respect for the two countries he calls home In 2003 photographer Geoff Winningham saw for the first time both the southern coast of Veracruz with its volcanoes rain forests and steep mountains and the Texas coast near High Island where the land seems to stretch endlessly covered by a sea of salt grass He decided that these two visually striking areas could be the beginning and end points of a photographic study that would also engage the two cultures in which he had lived for twenty years the U S and Mexico Now seven years and more than a hundred trips later Traveling the Shore of the Spanish Sea The Gulf Coast of Texas and Mexico is the result In this beautifully illustrated and engagingly written book Winningham also considers the role that the Gulf of Mexico played in the discovery and exploration of the New World Winningham's journey begins east of High Island in Port Arthur where the images suggest a cautionary tale relating to the oil industry and the land It ends twelve hundred miles down the coast at the end of an old stone road in tropical terrain of almost indescribable beauty overlooking the sea In between more than two hundred photographs include natural landscapes ranging from unspoiled to completely despoiled roadside architecture and signage and images of people Winningham met As he attempts to come to terms with the disturbing changes he witnessed to the coastal environment the book also contains elements of a poignant personal lament for what is being lost Traveling the Shore of the Spanish Sea The Gulf Coast of Texas and Mexico will delight and enchant readers with its deeply felt personal narrative and the power and beauty of its images **Pacific Northwest (Bonneville)-California Intertie** United States.
