Firepower Gerard Ryle, 2010-10-08 A magic pill that cuts fuel consumption and reduces emissions that was the miracle promised by Tim Johnstone's company Firepower. The House of Lancaster Neil Squires, 2015-08-06 Acclaimed world champions in 2003, the England rugby union team came home from the World Cup in New Zealand eight years later to the sound of silence. Their rugby was uninspiring and their reputation in tatters. Stuart Lancaster, former burger flipper, PE teacher and the novice Saxons coach, was tasked with turning a failing team around. The transformation was astounding. Now Lancaster's side has the work ethic, humility and resolve to compare with that World Cup winning team. Much of this is down to their coach, but with so little international experience, how did he bring about this renewal? Part biography, part examination of leadership, *The House of Lancaster* pulls apart the England rugby machine and looks at how it has been put together. Filled with exclusive interviews from the leading protagonists, players and coaches, as well as containing unprecedented access to Lancaster's methods, *The House of Lancaster* shows how the vision, personality and leadership skills of one driven man can turn a team into genuine world beaters. With a foreword from Sir Ian McGeechan OBE.

Australian Business Law 2012 Paul Latimer, 2012 [Indigenous People, Race Relations and Australian Sport](#) Christopher J. Hallinan, Barry Judd, 2016-05-06 The Indigenous peoples of Australia have a proud history of participation and the achievement of excellence in Australian sports. Historically, Australian sports have provided a rare and important social context in which Indigenous Australians could engage with and participate in non-Indigenous society. Today, Indigenous Australian people in sports continue to provide important points of reference around which national public dialogue about racial and cultural relations in Australia takes place. Yet much media coverage surrounding these issues and almost all academic interest concerning Indigenous people and Australian sports is constructed from non-Indigenous perspectives. With a few notable exceptions, the racial and cultural implications of Australian sports as viewed from an Indigenous Australian Studies perspective remains understudied. The media coverage and academic discussion of Indigenous people and Australian sports is largely constructed within the context of Anglo-Australian nationalist discourse and becomes most emphasised when reporting on aspects of racial and cultural explanations of Indigenous sporting excellence and failures associated with anomalous behaviour. This book investigates the many ways that Indigenous Australians have engaged with Australian sports and the racial and cultural readings that have been associated with these engagements. Questions concerning the importance that sports play in constructions of Australian indigenities and the extent to which these have been maintained as marginal to Australian national identity are the central critical themes of this book. This book was published as a special issue of *Sport in Society*.
