South To A New Place Region Literature Culture:

Comics and the U.S. South Brannon Costello, Qiana J. Whitted, 2012-01-20 *Comics and the U S South* offers a wide ranging and long overdue assessment of how life and culture in the United States South is represented in serial comics graphic novels newspaper comic strips and webcomics Diverting the lens of comics studies from the skyscrapers of Superman s Metropolis or Chris Ware s Chicago to the swamps backroads small towns and cities of the U S South this collection critically examines the pulp genres associated with mainstream comic books alongside independent and alternative comics Some essays seek to discover what Captain America can reveal about southern regionalism and how slave narratives can help us reread Swamp Thing others examine how creators such as Walt Kelly Pogo Howard Cruse Stuck Rubber Baby Kyle Baker Nat Turner and Josh Neufeld A D New Orleans after the Deluge draw upon the unique formal properties of the comics to question and revise familiar narratives of race class and sexuality and another considers how southern writer Randall Kenan adapted elements of comics form to prose fiction With essays from an interdisciplinary group of scholars *Comics and the U S South* contributes to and also productively reorients the most significant and compelling conversations in both comics scholarship and in southern studies

Understories: Plants and Culture in the American Tropics Lesley Wylie, 2023-11-15 *Understories Plants and Culture in the American Tropics* establishes the central importance of plants to the histories and cultures of the extended tropical region stretching from the U S South to Argentina Through close examination of a number of significant plants cacao mate agave the hevea brasiliensis kudzu the breadfruit soy and the ceiba pentandra among others this volume shows that vegetal life has played a fundamental role in shaping societies and in formulating cultural and environmental imaginaries in and beyond the region Drawing on a wide range of cultural traditions and forms across literature popular music art and film the essays included in this volume transcend regional and linguistic boundaries to bring together multiple plant centred histories or understories narratives that until now have been marginalized or gone unnoticed Attending not only to the significant influence of humans on plants but also of plants on humans this book offers new understandings of how colonization globalization and power were and continue to be imbricated with nature in the American tropics

Navigating Souths Michele Grigsby Coffey, Jodi Skipper, 2017-08 The work of considering imagining and theorizing the U S South in regional national and global contexts is an intellectual project that has been going on for some time Scholars in history literature and other disciplines have developed an advanced understanding of the historical social and cultural forces that have helped to shape the U S South However most of the debates on these subjects have taken place within specific academic disciplines with few attempts to cross engage *Navigating Souths* broadens these exchanges by facilitating transdisciplinary conversations about southern studies scholarship The fourteen original essays in *Navigating Souths* articulate questions about the significances of the South as a theoretical and literal home base for social science and humanities researchers They also examine challenges faced by researchers who identify as southern studies scholars as well

as by those who live and work in the regional South and show how researchers have responded to these challenges In doing so this book project seeks to reframe the field of southern studies as it is currently being practiced by social science and humanities scholars and thus reshape historical and cultural conceptualizations of the region *Ex-Centric Souths* Urszula Niewiadomska-Flis,2020-02-04 *Ex Centric Souths Re Imagining Southern Centers and Peripheries* adds a voice in ongoing attempts to chart new routes and to decenter the South in many ways in the hope of exploring Southern identity and multiple Souths The articles collected in this volume bring to the forefront the translocal and transnational connections and relationships between the South and the circum Caribbean region they address the changing nature of Southernness and especially its sense of place and finally they investigate the potential of various texts to narrate and revisit regional concerns Some contributions hold up to view topics ignored and marginalized while other decontextualize themes and issues central to Southern studies by telling alternative histories *Postregional Fictions* Clare Chadd,2021-07-07 Drawing from recent debates about the validity of regional studies and skepticism surrounding the efficacy of the concept of authenticity Clare Chadd s *Postregional Fictions* focuses on questions of southern regional authenticity in fiction published by Barry Hannah from 1972 to 2001 The first monograph on the Mississippi author s work to appear since his death this study considers the ways in which Hannah s novels and short stories challenge established conceptual understandings of the U S South Hannah s writing often features elements of metafiction through which the putative sense of southernness his stories dramatize is complicated by an intense self reflexivity about the extent to which a sense of place has never been foundational or essential but has always been constructed and performed Such texts locate a productive terrain between the local and the global with particular relevance for critical apprehensions of the post South and postsouthern literature Offering sustained close readings of selected stories and focusing especially on Hannah s late work Chadd argues that his fiction reveals the region constantly shifting in a process of mythmaking dialogue and performance In turn she uses Hannah s work to suggest how notions of the South and southernness might survive the various deconstructive approaches leveled against them in recent decades of southern studies scholarship Rather than seeing an impasse between the regional and the global Chadd s reading of Hannah shows the two existing and flourishing in tandem In *Postregional Fictions* Chadd offers a new interpretation of Hannah based on an appreciation of the vital intersection of southern and postmodern elements in his work *After the Fall* Richard Gray,2011-05-03 *After the Fall* A common refrain heard since the collapse of the World Trade Center towers on September 11 2001 is that everything has changed *After the Fall* presents a timely and provocative examination of the impact and implications of 9 11 and the war on terror on American culture and literature Author Richard Gray widely regarded as the leading European scholar in American literature reveals the widespread belief among novelists dramatists and poets as well as the American public at large that in the post 9 11 world they are all somehow living after the fall He carefully considers how many writers faced with what they see as the end of their world have retreated into the seductive pieties of

home hearth and family and how their works are informed by the equally seductive myth of American exceptionalism As a counterbalance Gray also discusses in depth the many writings that get it right transnational and genuinely crossbred works that resist the oppositional and simplistic us and them Christian and Muslim language that has dominated mainstream commentary These imaginative works Gray believes choose instead to respond to the heterogeneous character of the United States as well as its necessary positioning in a transnational context After the Fall offers illuminating insights into the relationships of such issues as nationalism trauma culture and literature during a time of profound crisis

Appalachian Ecocriticism and the Paradox of Place Laura Wright, Jessica Cory, 2023-05 Ecocriticism and Appalachian studies continue to grow and thrive in academia as they expand on their foundational works to move in new and exciting directions When researching these areas separately there is a wealth of information However when researching Appalachian ecocriticism specifically the lack of consolidated scholarship is apparent With *Appalachian Ecocriticism and the Paradox of Place* editors Jessica Cory and Laura Wright have created the only book length scholarly collection of Appalachian ecocriticism *Appalachian Ecocriticism and the Paradox of Place* is a collection of scholarly essays that engage environmental and ecocritical theories and Appalachian literature and film These essays many from well established Appalachian studies and southern studies scholars and ecocritics engage with a variety of ecocritical methodologies including ecofeminism ecospiritualism queer ecocriticism and materialist ecocriticism to name a few Adding Appalachian voices to the larger ecocritical discourse is vital not only for the sake of increased diversity but also to allow those unfamiliar with the region and its works to better understand the Appalachian region in a critical and authentic way Including Appalachia in the larger ecocritical community allows for the study of how the region its issues and its texts intersect with a variety of communities thus allowing boundless possibilities for learning and analysis

Studying and Teaching W.C. Falkner, William Faulkner, and Digital Literacy Koichi Fujino, 2017-11-22 This book explores the ways to teach the literary works of William Clark Falkner and William Faulkner to ESL English as a Second Language students in today s digital environment William Faulkner s great grandfather William Clark Falkner wrote romantic

literary works and William Faulkner critically uses the motifs of his great grandfather's works to establish his literary world. Applying Mikhail Bakhtin's dialogical theory, this book theoretically explains how these two authors imagine the social formations of the American South differently in their literary works. The coined term social combination, which is defined as the individuals' mutual effort to have equal relationships for a certain time, is used as a key term to examine how these two authors depict the characters' personal relationships. William Faulkner employs his characters' social combination as a resistance against the American South's romantic illusions that are represented by William Clark Falkner's literary works. William Faulkner's historical perspective is beneficial for today's ESL students who explore their new egalitarian formations in their digitally expanded world. The last part of this study outlines how an American literary teacher can connect the works of William Clark Falkner and William Faulkner when teaching ESL students by using today's digital environment. Using three digital platforms, Moodle, WordPress, and Google Drive, a teacher composes egalitarian relationships among class members and inspires students' autonomous discussion on these two authors' works. Through these activities, ESL students are expected to comprehend that the literature of the American South is not only the historical development of the foreign region but the phenomenon that is connected to their own social formations.

Cavaliers and Economists Katharine A. Burnett, 2019-05-15. Offering a compelling intervention in studies of antebellum writing, Katharine A. Burnett's *Cavaliers and Economists: Global Capitalism and the Development of Southern Literature, 1820-1860* examines how popular modes of literary production in the South emerged in tandem with the region's economic modernization. In a series of deeply historicized readings, Burnett positions southern literary form and genre as existing in dialogue with the plantation economy's evolving position in the transatlantic market before the Civil War. The antebellum southern economy comprised part of a global network of international commerce driven by a version of laissez-faire liberal capitalism that championed unrestricted trade and individual freedom to pursue profit. Yet the economy of the U.S. South consisted of large-scale plantations that used slave labor to cultivate staple crops including cotton. Each individual plantation functioned as a racially and socially repressive community, a space that seemingly stood apart from the international economic networks that fueled southern capitalism. For writers from the South, fiction became a way to imagine the region as socially and culturally progressive while still retaining hallmarks of traditional southern culture, namely plantation slavery, in the context of a rapidly changing global economy. Burnett excavates an elaborate network of transatlantic literary exchange operating concurrently with the region's economic expansion, in which southern writers adopted popular British genres such as the historical romance and the seduction novel as models for their own representations of the U.S. South. Each chapter focuses on a different genre, pairing largely under

studied southern texts with well known British works Ranging from the humorous sketch to the imperial adventure tale and the social problem novel *Cavaliers and Economists* reveals how southern writers like Augusta Jane Evans Johnson Jones Hooper Maria McIntosh William Gilmore Simms and George Tucker reworked familiar literary forms to reinvent the South through fiction By considering the intersection of economic history and literary genre *Cavaliers and Economists* provides an expansive study of the means by which authors created southern literature in relation to global free market capitalism showing that in the process they renegotiated and rejustified the institution of slavery **Taboo**, 2005 [A Web of Words](#) Richard J. Gray, 2007 Helps readers understand how any literary tradition involves an open conversation between its texts a web of words that stretches from the local to the transnational This book charts 3 different intertextual practices involving writings both within and outside the South **Faulkner's Geographies** Jay Watson, Ann J. Abadie, 2015-06-25 The recent spatial turn in social theory and cultural studies opens up exciting new possibilities for the study of William Faulkner's literature The fictional domains of Yoknapatawpha County and Jefferson Mississippi are not simply imagined communities but imaginative geographies of remarkable complexity and detail as evidenced by the maps Faulkner created of his apocryphal county Exploring the diverse functions of space in Faulkner's artistic vision the eleven essays in *Faulkner's Geographies* delve deep into Yoknapatawpha but also reach beyond it to uncover unsuspected connections and flows linking local regional national hemispheric and global geographies in Faulkner's writings Individual contributions examine the influence of the plantation as a land use regime on Faulkner's imagination of north Mississippi's geography the emergence of micro Souths as a product of modern migratory patterns in the urban North of Faulkner's fiction the enlistment of the author's work in the geopolitics of the cultural Cold War during the 1950s the historical and literary affiliations between Faulkner's Deep South and Greater Mexico the local and idiosyncratic as alternatives to region and nation the unique intersection of regional and metropolitan geographies that Faulkner encountered as a novice writer immersed in the literary culture of New Orleans the uses of feminist geography to trace the interplay of gender space and movement and the circulation of Caribbean and Black South spaces and itineraries through Faulkner's masterpiece *Absalom Absalom* By bringing new attention to the function of space place mapping and movement in his literature *Faulkner's Geographies* seeks to redraw the very boundaries of Faulkner studies **Race, Immigration, and American Identity in the Fiction of Salman Rushdie, Ralph Ellison, and William Faulkner** Randy Boyagoda, 2010-04-02 Read together novels from a contemporary world writer Salman Rushdie and two modern American authors Faulkner and Ellison depict a century long transformation of how American identity and experience have been conceived and imagined these changes are revealed in the fiction of encounters between immigrants and natives **The Southern Hospitality Myth** Anthony Szczesiul, 2017-06-01 Hospitality as a cultural trait has been associated with the South for well over two centuries but the origins of this association and the reasons for its perseverance often seem unclear Anthony Szczesiul looks at how and why we have taken something so particular as the

social habit of hospitality which is exercised among diverse individuals and is widely varied in its particular practices and so generalized it as to make it a cultural trait of an entire region of the country Historians have offered a variety of explanations of the origins and cultural practices of hospitality in the antebellum South Economic historians have at times portrayed southern hospitality as evidence of conspicuous consumption and competition among wealthy planters while cultural historians have treated it peripherally as a symptomatic expression of the southern code of honor Although historians have offered different theories they generally agree that the mythic dimensions of southern hospitality eventually outstripped its actual practices Szczesiul examines why we have chosen to remember and valorize this particular aspect of the South and he raises fundamental ethical questions that underlie both the concept of hospitality and the cultural work of American memory particularly in light of the region's historical legacy of slavery and segregation The Language of Vision Joseph R.

Millichap, 2016 *The Language of Vision* celebrates and interprets the complementary expressions of photography and literature in the South Southern imagery and text affect one another explains Joseph R. Millichap as intertextual languages and influential visions Focusing on the 1930s and including significant works both before and after this preeminent decade Millichap uncovers fascinating convergences between mediums particularly in the interplay of documentary realism and subjective modernism Millichap's subjects range from William Faulkner's fiction perhaps the best representation of literary and graphic tensions of the period and the work of other major figures like Robert Penn Warren and Eudora Welty to specific novels including Ralph Ellison's *Invisible Man* and James Agee's *Let Us Now Praise Famous Men* Fleshing out historical and cultural background as well as critical and theoretical context Millichap shows how these texts echo and inform the visual medium to reveal personal insights and cultural meanings Warren's fictions and poems Millichap argues redefine literary and graphic tensions throughout the late twentieth century Welty's narratives and photographs reinterpret gender race and class and Ellison's analysis of race in segregated America draws from contemporary photography Millichap also traces these themes and visions in Natasha Trethewey's contemporary poetry and prose revealing how the resonances of these artistic and historical developments extend into the new century This groundbreaking study reads southern literature across time through the prism of photography offering a brilliant formulation of the dialectic art forms *All Y'all* Heidi

Siegrist, 2024-11-11 The South is often perceived as a haunted place in its region's literature one that is strange deviant or queer The peculiar often sexually charged literary worlds of contemporary writers like Fannie Flagg Monique Truong and Randall Kenan speak to this connection between queerness and the South Heidi Siegrist explores the boundaries of negotiating place and sexuality by using the concept of Southernness a purposefully fluid idea of the South that extends beyond simple geography eschewing familiar ideas of the Southern canon When the connection between queerness and Southernness becomes apparent Siegrist shows a Southern branded queer deviance can not only change the way we think about literature but can also change Southern queer people's lived experiences Siegrist gathers a bevy of undertheorized

writers from Kenan and Truong to Dorothy Allison and even George R R Martin showing that there are many queer Souths Siegrist offers these multiverses as a way to appreciate a place that is often unfriendly even deadly to queer people But as Siegrist argues none of these Souths from the terrestrial to the imaginary would be what they are without the influence and power of queer literature

Latining America Claudia Milian,2013-02-01 With Latining America Claudia Milian proposes that the economies of blackness brownness and dark brownness summon a new grammar for Latino a studies that she names Latinities Milian s innovative study argues that this ensnared economy of meaning startles the typical reading practices deployed for brown Latino a embodiment Latining America keeps company with and challenges existent models of Latinidad demanding a distinct paradigm that puts into question what is understood as Latino and Latina today Milian conceptually considers how underexplored Latin participants the southern the black the dark brown the Central American have ushered in a new world of Latined signification from the 1920s to the present Examining not who but what constitutes the Latino and Latina Milian s new critical Latinities disentangle the brown logic that marks Latino a subjects She expands on and deepens insights in transamerican discourses narratives of passing popular culture and contemporary art This daring and original project uncovers previously ignored and unremarked upon cultural connections and global crossings whereby African Americans and Latinos traverse and reconfigure their racialized classifications

Faulkner's Imperialism Taylor Hagood,2008-11-15 In Faulkner s Imperialism Taylor Hagood explores two staples of Faulkner s world myth and place Using an interdisciplinary approach to examine the economic sociological and political factors in Faulkner s writing he applies postcolonial theory cultural materialism and the work of the New Southernists to analyze the ways myth and place come together to encode narratives of imperialism and anti imperialism in the worlds in which Faulkner lived and the one that he created The resulting discussion highlights the deeply embedded imperial impulses underpinning not just Yoknapatawpha and Mississippi but the Midwest the Caribbean France and a host of often overlooked corners of the Faulknerian map Faulkner defines space in his fiction by creating places through culturally compelling narratives Although these narrative spaces often have imperial roots Hagood reveals how the oppressed can subvert these mythic places by turning the myths against their oppressors The Greco Roman myths long recognized as part of Faulkner s fictional world for example define racially hybrid spaces ostensibly designed to articulate white patriarchal narratives of imperial control but which actually carry within their very dreams of Arcady an anti imperial narrative In Faulkner s Mississippi Delta which he modeled after the Nile Delta plantation owners evoke the imperial power of ancient Egypt to confirm their own cultural ascendancy even while African Americans use biblical narratives of the Israelites enslaved in Egypt to speak against the power that controls them Faulkner also used places he personally experienced such as New Orleans a city that he recognized as containing multiple layers of imperial design to dramatize the constant struggle between the oppressor and the oppressed Rather than reading the roles of myth and place according to conventional myth criticism or typical place models used by other Faulkner

scholars Hagood examines the intertextuality within Faulkner's writing as well as the relationship of his writing to others work in an attempt to understand how the texts fit together and speak to one another One of the few books that examine Faulkner's work as a whole Faulkner's Imperialism moves beyond South versus North paradigms to encompass all the spaces within Faulkner's created cosmos considering their interrelationships in a precise holistic way
