

The background of the title page is a detailed illustration in a reddish-brown, woodcut-like style. It depicts a large elephant on the left, with several people around it. One person is seated on the elephant's back, holding a long staff. Another person stands behind the elephant's head. In the foreground, a group of people are gathered around a large pile of goods, including what appear to be baskets of fruit or textiles. The scene is set in a landscape with hills and trees in the distance.

Transnational Southeast Asia Hannah Ming Yit Ho,Ying-kit Chan,2025-04-19 This open access book presents Southeast Asia as an interesting and conceptually meaningful site to interrogate the transnational paradigm In featuring research from and across different nations in Southeast Asia it asks in what ways Southeast Asia lends itself to nuanced applications of transnationalism and what the wider cultural and collective implications of that might be Instead of viewing the past and the present as oppositional concepts of time a temporal continuum is applied to a time space compression that is fundamental to the workings of the transnational paradigm in the region that we call Southeast Asia The transnational paradigm a conceptual tool encompassing various configurations of transnationalism across disciplines becomes relevant for analysing global cultural flows but not without due consideration of the nuances shaped by spatio temporal trends A paradigm shift in transnationalism from historical connections to contemporary connectivity is afforded by increased mobility and accelerated cultural flows which have given rise to unprecedented economic productivity in the past century and digital connectivity in the new millennium a shift that the chapters collectively explore Relevant to advanced students and scholars across disciplines in the humanities and social sciences focused on Southeast Asia this book is a timely exploration that unpicks and unpacks this long discussed aspect within Asian area studies *Dutch East India Company Merchants at the Court of Ayutthaya* Bhawan Ruangsilp,2007-05-31 No European country enjoyed such long standing relations with the Thai Kingdom of Ayutthaya as the Netherlands This study focuses on the perceptions of the merchants of the Dutch East India Company VOC of the Thai royal court in the seventeenth and eighteenth century Basing herself on a wealth of Dutch primary sources the author shows how trade politics and diplomacy shaped a unique relationship based on partnership and a sense of differences The book contributes to expanding the study of the history of Ayutthaya known for its scarcity of sources with the help of contemporary Dutch views **Tanegashima - The Arrival of Europe in Japan** Olof G. Lidin,2003-12-16 The year 1543 marked the beginning of a new global consciousness in Japan with the arrival of shipwrecked Portuguese merchants on Tanegashima Island in southern Japan Other Portuguese soon followed and Japan became aware of a world beyond India After the merchants came the first missionary Francis Xavier in 1549 beginning the Christian century in Japan This is not a new story but it is the first time that Japanese Portuguese and other European accounts have been brought together and presented in English Their arrival was recorded by the Japanese in Tanegashima kafu the Teppoki and the Kunitomo teppoki here translated and presented together with European reports Includes maps and Portuguese and Japanese illustrations The Travels of Mendes Pinto Fernão Mendes Pinto,2013-05-24 The immortal work of travel and adventure by the sixteenth century Portuguese explorer now available in a sparkling English translation This work by Fern o Mendes Pinto

presented as his incredible yet true autobiography came second only to Marco Polo's work in exciting Europe's imagination of the Orient. Chronicling adventures from Ethiopia to Japan, *Travels* covers twenty years of Mendes Pinto's odyssey as a soldier, a merchant, a diplomat, a slave, a pirate, and a missionary. It continues to fascinate readers today with the baffling mysteries surrounding it and the sheer enjoyment of its narrative. There is plenty here for the modern reader. The vivid descriptions of swashbuckling military campaigns and exotic locations make this a great adventure story. Mendes Pinto may have been a sensitive eyewitness or a great liar or a brilliant satirist, but he was certainly more than a simple storyteller. Stuart Schwartz, *The New York Times*. *Asia in the Making of Europe*, Donald Frederick Lach, Edwin J. Van Kley, 1965. First systematic inclusive study of the impact of the high civilizations of Asia on the development of modern Western civilization.

The historical and empirical project presented here is grounded in a desire to theorize religion-state relations in the multi-ethnic, multi-religious, secular city-state of Singapore. The core research problematic of this project has emerged out of the confluence of two domains: religion, law, and bureaucracy; and religion and colonial encounters. This work has two core objectives: one to articulate the actual points of engagement between institutions of religion and the state, and two to identify the various processes, mechanisms, and strategies through which relations across these spheres are sustained. The thematic foundations of this book rest on disentangling the complex interactions between religious communities, individuals, and the various manifestations of the Singapore state relationships that are framed within a culture of bureaucracy. This is accomplished through a scrutiny of Hindu domains on the island-nation-state from her identity as part of the Straits Settlements to the present day. The empirical and analytical emphases of this book rest on the author's engagement with the realm of Hinduism as it is conceived, structured, framed, and practiced within the context of a strong state in Singapore today. Ethnographically, the book focusses on Hindu temple management and the observance of Hindu festivals and processions enacted within administrative and bureaucratic frames. **A History of Myanmar since Ancient Times** Michael Aung-Thwin, Maitrii Aung-Thwin, 2013-10-15. In *A History of Myanmar since Ancient Times*, Michael Aung-Thwin and Maitrii Aung-Thwin take us from the sacred stupas of the plains of Pagan to grand colonial-era British mansions, revealing the storied past and rich culture of this country. The book traces the traditions and transformations of Myanmar's communities over nearly three millennia, from the relics of its Neolithic civilization to the splendors of its pre-colonial kingdoms, its encounters with British colonialism, and the struggles for the republic that followed the end of World War II. The authors also consider the complexities of present-day life in Myanmar and examine the key political events and debates of the last twenty-five years that have brought the world's attention to the country. By exploring

current developments within the broader patterns of Myanmar's history, culture and society they provide a nuanced perspective on the issues and questions surrounding Myanmar's future. This updated edition considers the changes that have taken place since the elections of 2010, the reforms that the civilian government introduced and the ramifications of the country's new international status. It also assesses the implications of the 2012 by-elections, the ensuing political dynamics among various stakeholders and the continuing socio-economic challenges facing Myanmar in the twenty-first century. The most comprehensive history of Myanmar ever published in the English language, this book makes a significant contribution to our understanding of Southeast Asian history and will surprise, challenge and inform in equal measure. *The Journal of Asian Studies*, 1987. An essential resource for those interested in Asia. Recognized as the leading publication in its field. It features articles on the history, arts, social sciences and contemporary issues of East, South and Southeast Asia, as well as a large book review section.

The Tongking Gulf Through History Nola Cooke, Tana Li, James A. Anderson, 2011-05-25. Since 2005 a series of significant developments has been unfolding in the area of the Tongking Gulf under the rubric of an ambitious project called Two Corridors and One Rim. Proposed by Vietnam in 2004 and enthusiastically embraced by China, the project is designed to link their shared shores and hinterlands by superhighways and high-speed rail. An area that had seemed a backwater for two hundred years has suddenly become a dynamic engine of growth. Yet how innovative are these developments? Drawing on fresh historical insights and recent archaeological research in northern Vietnam and southern China, *The Tongking Gulf Through History* reveals that this region has long been a center of cultural, political and economic exchange. From a historical point of view, contributors argue the Gulf of Tongking has come full circle. Inspired by the Braudelian vision that regionality arises from long-term human interactions, essays avoid state-centered approaches of nationalist histories to focus on local communities throughout the Gulf. In doing so, they reveal a complex pattern of interrelationships and geopolitical factors that has shaped the Gulf region for over two millennia. The first half of the volume covers the era from the Neolithic to the tenth century when an independent state emerged from old Chinese Jiaozhi or modern northern Vietnam; the second surveys the nine centuries that followed in which only two states came to share the maritime shores of the Tongking Gulf. Together, the essays illuminate how millennia of recurring human interactions within this geographical space have created a regional ensemble with its own longstanding historical integrity and dynamics.

Spanish and Portuguese Conflict in the Spice Islands: The Loaysa Expedition to the Moluccas 1525-1535 Glen Frank Dille, 2021-04-18. Gonzalo Fernandez de Oviedo y Valdes 1478-1557, warden of the fortress and port of Santo Domingo of the Island of Hispaniola, also served his emperor Charles V as the official chronicler of the first half-century of the Spanish presence in the New World. His monumental *General y Natural Historia de las Indias*, consisting of three parts with fifty books, hundreds of chapters and thousands of pages, is still a major primary source for researchers of the period 1492-1548. Part One, consisting of 19 books, was first published in 1535, then reprinted and augmented in 1547, with a third edition including

Book XX the first book of Part II appearing in Valladolid in 1557 Book XX which was printed separately in Valladolid in 1557 the year of Oviedo's death concerns the first three Spanish voyages to the East Indies While it might be expected that the narrative of Magellan's voyage would predominate in Book XX Oviedo devoted only the first four chapters to this monumental voyage The remaining thirty one concern the two subsequent and little known Spanish follow up expeditions to the Moluccas 1525-35 The first initially led by Garcia Jofre de Loaysa set out from Coruña to follow Magellan's route through the Strait and across the Pacific A second relief expedition under Alvaro Saavedra was sent out in search of Loaysa's company from the Pacific coast of New Spain in 1527 In each venture only one vessel reached the Spice Islands Oviedo's narrative offers many details of the 10 years of hardships and conflict with the Portuguese endured by the stoic Spanish and of the growing unrest it provoked among their indigenous hosts The news that Charles V had pawned his claim to the King João III of Portugal allowed a very few of the Spaniards to negotiate a passage back to Spain via Lisbon while others remained in Portuguese settlements in the East Indies The reports made by the returnees to the Consejo de Indias were integrated by Oviedo into his narrative expanded and enriched by personal interviews His chronicle includes much information about the indigenous culture commerce geography and of the exotic fauna and flora of the Spice Islands
