Three thematic chapters consider broader regional issues: Southeast Asia Political Economy, ASEAN, and South China Sea. Southeast Asia in the New International Era Robert Dayley, Clark D. Neher, 2013-03-12 *Southeast Asia in the New International Era* highlights the dramatic political events sweeping a dynamic region populated by more than 500 million people. Where economic boom and crisis dominated events in the late twentieth century, economic recovery and policy dilemmas define much of the region today. Political cleavage continues to bedevil Thailand's intermittent democratization; Vietnam's single-party rule fosters ever-tighter political control as it reacts to lagging economic growth. Surprising many, Burma's once-closed polity now shows signs

of genuine reform and openness Elsewhere patronage politics continues to inhibit development in the Philippines even as it fuels unprecedented growth in Cambodia and Laos Home to the world s largest Muslim population Indonesia blazes new ground with young democratic institutions while simmering aspirations for greater democracy in neighboring Malaysia generate mass protest Representing the greatest contrast in the region is the rich and stable corporatist state of Singapore versus the economically poor and politically fragile democracy of Timor Leste Amidst domestic developments ASEAN s global profile continues to rise as the region s governments address a growing array of transnational concerns This newly revised edition examines these developments and many others affecting the region and international political economy *Southeast Asia In The New International Era* Clark Neher,1998-07-23 Clark Neher builds this text around the theme that Southeast Asian political developments must be seen within the context of the changing international system Among the areas he explores are the national elections that have taken place in the Philippines Indonesia Singapore Thailand and Cambodia the role of the United Nations in its attempt to bring peace to Cambodia the likelihood that Vietnam will become a part of the world capitalist system the major impact of the demise of the Soviet bloc on Southeast Asia the new role of the United States Japan and China and the prospects for the continued high economic growth rates of the region Now in its third edition this widely praised text continues to meet the need for a comprehensive assessment of Southeast Asia both on a regional and country by country basis in the changing global context In this new edition Neher has updated all statistics and revised illustrative examples and his concluding remarks for each chapter to indicate new directions patterns and prospects

Culture, Identity and Religion in Southeast Asia Alistair D. B. Cook, 2009-05-27 I have read the draft of this book sent to me by the editor After reading this draft I do think this book is valuable and timely It discusses the contemporary issues that have worried many people in the present world terrorism human rights Islamic radicalism and the problem of identity in the Singaporean capitalism These issues are not discussed in the theoretical abstract way it also doesn t meant that theories are not discussed at all but in the context of various concrete societies The book deals with one of the above issues in Malaysia Singapore and Indonesia Aceh and Sumenep in Madura Each issue is written by a different author that has studied the issue thoroughly So the book is a collection of research done by specialists of these issues Two essays on Southeast Asia one on health and the other on human security give the general picture of this region acting as a broad introduction of the chapters that follow Each chapter has been written professionally and the readers will learn many things from each of them One has to read the chapter in order to really appreciate them Therefore I really recommend that this manuscript to be published as a book in order to get a large audience One shortcoming though this book deals with three countries only Malaysia Singapore and Indonesia albeit these three are the important countries in the region Other important Southeast Asian countries such as Thailand the Philippines and Burma are not discussed individually With the omission of these countries it thus can be argued whether this book can represent the Southeast Asian region Also in dealing with Indonesia the chapters talk on sub national level namely on Aceh province and a peripheral city Sumenep in the island of Madura East Java while Malaysia and Singapore are dealt on the level of nation state To conclude even with these shortcomings this book is still valuable Therefore I would like to recommend it be published
