Schweiger**

Southern Europe Since 1945 Tradition And Modernity In Portugal Spain Italy Greece And Turkey:

Southern Europe Giulio Sapelli, 2014-09-19 Until relatively recently most of southern Europe was governed by authoritarian dictatorships but within the space of two decades more or less stable democracies have become established throughout the entire region At the same time backward peasant economies have been transformed by the injection of huge amounts of capital and new technology into modern economies which are now approaching the size of the more established economies of Northern Europe Southern Europe is a major contribution to our understanding of European politics The product of original research and synthesis on exceptionally wide literature it provides authoritative and systematic coverage of the politics economics and society of this important region of Europe from 1945 up to the 1994 election of Silvio Berlusconi s far right alliance in Italy

Themes in Modern European History Since 1945 Rosemary Wakeman, 2003 Twelve chapters consider the key political cultural and economic changes of post 1945 Europe Southern Europe? Martin Baumeister, Roberto Sala, 2015-10-08 Gegenwärtig erlebt der Süden Europas in der öffentlichen Debatte eine neue Konjunktur Mit Vorliebe wird dabei ein europäischer Nord-Süd-Gegensatz heraufbeschworen ohne jedoch auf seine lange Geschichte zu blicken Wirtschaftlich und politisch unterentwickelt unterschieden sich Italien Spanien Portugal und Griechenland nach dem Zweiten Weltkrieg von den sogenannten westeuropäischen Gesellschaften Zu Beginn des 21. Jahrhunderts schien diese Ungleichheit überwunden Nun droht die Schuldenkrise den Kontinent erneut zu spalten Die Beiträge hinterfragen gängige Annahmen und Bilder von Südeuropa und ergründen inwiefern der Süden einen homogenen Raum mit strukturellen Gemeinsamkeiten darstellt

European Integration Since the 1920s Mark Hewitson, 2024-10-14 Brexit populism and Euroscepticism seem to have challenged old assumptions about European integration and raised the prospect of disintegration This book re-examines why the European Union and its forerunners were created and investigates how and why they have changed It links contemporary events to historical explanation arguing that there were long term sets of conditions dating back to the 1920s which pushed European governments to cooperate economically and to try to resolve their diplomatic differences The failure of the French and German governments to create what Aristide Briand had called a European federal union demonstrated both the precariousness of the enterprise and its connection to the domestic politics of European states After 1945 the unexpected advent of a Cold War and the military diplomatic and economic presence of the United States in Europe facilitated the gradual development of habits of cooperation and institutional integration but they also placed limits on European governments activities as did disagreements between political parties and the expectations of citizens As a consequence supranational bodies such as the European Commission have been accompanied and often overshadowed by intergovernmental institutions such as the European Council with the EU as a whole functioning in important respects as a type of confederation The volume addresses a series of large scale historical questions which are integral to an understanding of the European Union It asks how and why citizens of member states have identified with the

EU how matters of security affected the development of the European Community during and after the Cold War whether economic and social convergence have taken place and with what consequences and why European institutions have come to function as they have The study is thematic focusing on the most important aspects of European integration and explaining why member states have decided to carry out or have consented to the unique experiment of the European Union Crisis in the European Monetary Union Giuseppe Celi, Andrea Ginzburg, Dario Guarascio, Annamaria Simonazzi, 2017-12-22 After decades of economic integration and EU enlargement the economic geography of Europe has shifted with new peripheries emerging and the core showing signs of fragmentation This book examines the paths of the core and peripheral countries with a focus on their diverse productive capabilities and their interdependence *Crisis in the European Monetary Union A Core Periphery Perspective* provides a new framework for analysing the economic crisis that has shaken the Eurozone countries Its analysis goes beyond the short term to study the medium and long term relations between core countries particularly Germany and Southern European peripheral countries The authors argue that long term sustainability means assigning the state a key role in guiding investment which in turn implies industrial policies geared towards diversifying innovating and strengthening the economic structures of peripheral countries to help them thrive Offering a fresh angle on the European crisis this volume will appeal to students academics and policymakers interested in the past present and future construction of Europe *Coping with Accession to the European Union* T. Börzel, 2015-12-11 The book explores the role of new modes of governance in helping future member states to cope with their accession to the EU It examines the extent to which civil society and business have assisted the governments of Southern Central and Eastern European accession countries in taking on the ever more comprehensive body of EU laws and regulations **Italy, Europe, The Left** Vassilis Fouskas, 2018-12-20 Published in 1998 Was the Italian Communist Party PCI a typical Social Democratic party in tune with the programmatic principles of the Second International What is the appropriate context within which the strategies of historic compromise and Eurocommunism in the 1970s can be analyzed and understood In what form and to what extent has the process of European integration and the crisis of Keynesianism contributed to the transformation of the party in 1989 91 What caused the collapse of the ruling political class of the First Italian Republic Why did the transformed PCI the PDS Democratic Party of the Left fail to lead the transition to the Second Italian Republic between 1992 and 1996 Is there any link between the party's historical factions and the current divisions in the Italian Left Is it possible to theorize and speculate upon these divisions Italy Europe the Left seeks to answer these questions debating conventional views and examining the extent to which the end of the Cold War has contributed to a redefinition of the Left's identity in Italy and Europe The exemplary methodological framework and the wider European perspective adopted throughout make the book an indispensable reading in the field of Italian and European politics **Core-periphery Relations in the European Union** José Magone, Brigid Laffan, Christian Schweiger, 2016-02-26 Successive Enlargements to the European Union membership

have transformed it into an economically politically and culturally heterogeneous body with distinct vulnerabilities in its multi level governance This book analyses core periphery relations to highlight the growing cleavage and potential conflict between the core and peripheral member states of the Union in the face of the devastating consequences of Eurozone crisis Taking a comparative and theoretical approach and using a variety of case studies it examines how the crisis has both exacerbated tensions in centre periphery relations within and outside the Eurozone and how the European Union s economic and political status is declining globally This text will be of key interest to students and scholars of European Union studies European integration political economy public policy and comparative politics *Employment, Trade Unionism, and Class* Gregoris Ioannou, 2021-07-18 The economic crisis has brought about a watershed in institutional political and social relations reshaping the labour market and the class structure in southern Europe This book provides a critical comparative assessment of the dynamics of change in the employment field focusing on Spain Greece and Cyprus The book assesses how the liberalization and deregulation processes and the promotion of market enhancing reforms progressed in three different national settings identifying the forces agents contexts and mechanisms shaping the employment and industrial relations systems The comparative perspective used deciphers the interplay of external and internal dynamics in the restructuring of the labour field in Southern Europe examining austerity and its contestation in connection with prevailing societal ideologies and class shifts The first part of the book sets the theoretical and historical context the second is comprised of three empirical national case studies and the third discusses comparatively the handling of the crisis its impact and its legacy from the standpoint of a decade later The book presents differences in industrial relations systems trade union forms and class composition dynamics accounting for the development of the crisis and the reshaping of the employment field after one decade of crisis It will be of value to researchers academics professionals and students working on issues of employment and industrial relations labour market and labour law political economy and class structure as well as those interested in the contemporary society and economy of southern Europe in general and Spain Greece and Cyprus in particular **Southern Europe and the New Immigrations** Russell King, Richard Black, 1999-01-01 Offers coverage across Spain Portugal Italy and Greece and includes a discussion across a range of migrant groups processes and issues This book is suitable for those who have an interest in contemporary European society *Coastal Mass Tourism* Bill Bramwell, 2004-02-05 This book examines the development of mass tourism in coastal regions of Southern Europe with implications for similar regions across the world It provides a critical assessment of two influential policies intended to promote sustainable development these being attempts to make mass tourism resorts more sustainable and the development of smaller scale alternative tourism products Crisis and Transition in Italian Politics Martin Bull, Martin Rhodes, 2014-03-05 Since 1989 Italian politics has witnessed changes that have placed it under an international spotlight This analysis looks at this period of Italian politics through the prism of the changes of the early 1990s *Football Italia* Mark Doidge, 2015-05-21 This book is available as

open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com Football has undergone a period of transformation over the last thirty years Despite these global processes different national leagues have adapted in different ways After an initial period of success directly after Italia 90 Italian football has gone through a period of sustained crisis It has been blighted by financial mismanagement corruption scandals and fan violence This has impacted Italy's ability to compete on a global stage Football Italia accounts for the development of Italian football in relation to the wider global transformations impacting football and addresses the reasons for Serie A's initial success and current malaise Theoretically this book locates Italian football within the wider power network of the state and how this has impacted political engagement After an historical overview of the Italian political economy Football Italia highlights how football is part of the wider political network Football clubs are owned by powerful businessmen and they are all men who are also politicians This centralisation of power within a small hegemonic group inhibits change Within this broader structure wider corruption scandals continue from regular match fixing scandals to doping Meanwhile stadiums are crumbling and police over aggressive It is within this context that we must place the fans Both the ultras and supporters who attend official supporters clubs are disaffected and without the power to change the status quo Consequently Italian football has been in decline throughout the 21st century

Comparing Party System Change Jan-Erik Lane, Paul Pennings, 2003-12-16 This volume brings together comparative studies and in depth case studies that research the diversity of party system change in Europe In so doing it presents a model for change which challenges orthodox views of political evolution

Contemporary European Politics José M. Magone, 2019-05-16 Revised throughout the second edition of this comprehensive and highly respected textbook continues to provide a thorough introduction to European and European Union politics Pairing a genuinely comparative approach with in depth analysis of the national supranational local and regional political systems of large and small countries across Europe including Central and Eastern Europe and the Balkans this accessible book covers history theory institutions parties and party systems and interest groups among others Key topics and features of this book Examines the European Union multilevel governance system and uses a regional cluster approach to highlight differences across Europe Contextualises European politics in a theoretical framework explaining the major political social and economic transformations taking place in the information age A new chapter on the comparative political systems and cultures of wider Europe particularly Russia Ukraine Moldova Georgia Belarus and Turkey Engages with the latest challenges and crises facing Europe including new streamlined chapters on parties elections politics and policy making of the European Union Extended coverage of hot topics such as finance and the Eurocrisis immigration populism and xenophobia Uses a wide range of pedagogical features including further readings and revision questions Includes a fully updated companion website containing rich reference data chapter summaries and weblinks Richly illustrated throughout this work is an indispensable resource for all students and scholars of European politics

The European Mosaic David Gowland, Richard

Dunphy,Charlotte Lythe,2014-01-14 The European Mosaic is an up to date introduction to all aspects of the politics economics culture and recent history of the European Union in particular and Europe in general The European Mosaic effectively familiarizes students with EU issues that are currently in the news and likely to remain so for the foreseeable future It is a clear and accessible introduction to the European polity Its strongly interdisciplinary focus provides a multidimensional understanding of contemporary Europe of the process of European integration and of the dynamics of the European Union Suitable for undergraduate courses in European politics The Routledge Handbook of the Global Sixties

Chen Jian,Martin Klimke,Masha Kirasirova,Mary Nolan,Marilyn Young,Joanna Waley-Cohen,2018-02-06 This extraordinary collection is a game changer Featuring the cutting edge work of over forty scholars from across the globe The Routledge Handbook of the Global Sixties is breathtaking in its range incisive in analyses and revolutionary in method and evidence Here fifty years after that iconic 1968 Western Europe and North America are finally de centered if not provincialized and we have the basis for a complete remapping a thorough reinterpretation of the Sixties Jean Allman J H Hexter Professor in the Humanities Director Center for the Humanities Washington University in St Louis This is a landmark achievement It represents the most comprehensive effort to date to map out the myriad constitutive elements of the Global Sixties as a field of knowledge and inquiry Richly illustrated and meticulously curated this collection purposefully provincializes the United States and Western Europe while shifting the loci of interpretation to Africa the Middle East Asia and Latin America It will become both a benchmark reference text for instructors and a gateway to future historical research Eric Zolov Associate Professor of History Director Latin American Professor of Public Affairs and History The University of Texas at Austin As the fiftieth anniversary of 1968 approaches this book reassesses the global causes themes forms and legacies of that tumultuous period While existing scholarship continues to largely concentrate on the US and Western Europe this volume will focus on Asia Africa the Middle East and Eastern Europe International scholars from diverse disciplinary backgrounds explore the global sixties through the prism of topics that range from the economy decolonization and higher education to forms of protest transnational relations and the politics of memory International Handbook on Informal Governance

Thomas Christiansen,Christine Neuhold,2012-01-01 This volume provides a welcome overview of the diverse ways in which informal practices and norms shape policy in national states the European Union and international relations The wide range of cases that feature in the volume point to the normative and substantive importance of informality This volume is a valuable contribution to a fascinating and under researched topic Gary Marks University of North Carolina Chapel Hill US and VU Amsterdam The Netherlands Acknowledging that governance relies not only on formal rules and institutions but to a significant degree also on informal practices and arrangements this unique Handbook examines and analyses a wide variety of theoretical conceptual and normative perspectives on informal governance The insights arising from this focus on informal governance are discussed from various disciplinary perspectives within different policy domains and in a number of regional

and global contexts This Handbook is an important contribution that will put informal governance firmly on the map of academic scholarship with its review of the range of the different uses and effects of informal arrangements across the globe Bringing together multidisciplinary contributions on informal governance arrangements this Handbook will appeal to postgraduate students in political science and scholars within the field of political science and global governance The European Periphery and the Eurozone Crisis Neil Dooley, 2018-10-30 This book provides a new understanding of the eurozone crisis across three of the worst hit cases Greece Portugal and Ireland In contrast to accounts which stress the immaturity of the European periphery as well as more critical narratives that understand these countries as victims of German and core economic domination this book recognises that individual peripheral countries have followed dramatically different paths to crisis making it difficult to speak of the eurozone crisis as a single phenomenon Bringing literature from Comparative Political Economy into dialogue with scholarship on Europeanisation this book contributes the concept of divergence via Europeanisation It explores the much overlooked ways in which the negotiation of a one size fits all project of European financial integration has been generative of precarious patterns of economic growth across Greece Portugal and Ireland The book shows that far from their failure or inability to do so it has been the European periphery's attempt to follow the rules of European integration that explains their current difficulties This novel understanding of the eurozone crisis should appeal to students and scholars in International Political Economy European and European Union Studies Comparative Political Economy Irish Politics Greek Politics and Portuguese Politics **The New World Architecture** Jose Magone, 2017-07-28 The collapse of the bipolar world sustained by the United States and the former Soviet Union led to a power vacuum in the 1990s that the European Union has only reluctantly begun to fill It is under pressure to take over important international tasks and roles in order to develop a new equilibrium in the system of international relations After 2000 reforms were undertaken so that the European Union could deal more efficiently with the tasks the new political system had acquired since the early 1990s With respect to its international role reorganization of the EU's external relations department was high on the list The New World Architecture explores the contribution that the European Union is making to the emerging global governance system It discusses the theoretical and historical aspects of European integration within the framework of the emerging regional EU and global governance systems It explores three regimes of governance that are contributing to holding together the new emerging EU multilevel governance system None of these is complete all are partial They include the political regime of governance the socioeconomic regime of governance and the territorial regime of governance The author assesses the impact of the European Union on global politics The Mediterranean and Latin America represent regions in which the European Union is investing considerable effort in order to create new forms of cooperation Magone argues that within the next twenty five years global governance may and should emerge as the new and reconfigured stable system of international relations In this system the European Union is and will remain the most advanced

regional system This volume will be of interest to specialists scholars and students of European Politics and the European Union
