Confrontation And Liberation In Southern Africa Ibrahim S. R. Msabaha, 2019-03-13 The 1984 Nkomati Accord a bilateral security agreement between South Africa and Mozambique to eliminate guerrilla threats on both sides of a common border was a milestone in regional confrontation and cooperation Yet the real challenge to the white South African regime is not external it is internal opposition to apartheid This volume written by leading African scholars begins by exploring the origins of racism and nationalism in Southern Africa The contributors discuss the spread of nationalist movements throughout the region arguing that South Africa has attempted to resist divert or undermine the domino effect by capitalizing on the Nkomati Accord The authors focus on the legal aspects of the Accord its impact on the foreign and defense policies of the Front Line States prospects for regional development and economic integration and potential outcomes of the national liberation struggles in Southern Africa

The Geopolitics Of Southern Africa Kent H Butts, Paul R Thomas, 2019-07-09 South Africa is the dominant force in an area that is of increasing strategic importance to the West yet few studies address the geopolitical pressures that dictate the course of events there Analyzing South Africa s base of power the authors argue that because South Africa s relationships with other states in Southern Africa are asymmetrical in nature the country has substantial economic and political leverage in the region Control of Southern Africa s transport infrastructure and the ability to project a conventional or surrogate military presence throughout the region for example gives South Africa the power to affect the economic and political stability of virtually all regional states Asymmetry also characterizes relationships at the global level Because the West depends upon South Africa for access to the region s strategic minerals for the security of the Cape oil route and for the country s ability to counterbalance the Soviet presence in Southern Africa South Africa exercises considerable influence over the African foreign policies of the superpowers Focusing on the major geopolitical variables affecting South Africa s ability to sustain power the authors analyze the economic and geographic factors that contribute to asymmetrical relationships and examine the pluralism that divides South African society Pretoria s successful foreign policy which has created a security corridor of new buffer states is given particular emphasis In addition the authors provide a detailed analysis of South Africa s minerals based economy and discuss the implications for regional stability of economic sanctions against South Africa Finally they outline a policy framework that takes regional economic political and geographic realities into account

A Post-Apartheid Southern Africa? Pierre Beaudet, Nancy Thede, 1993-12-13 The book takes a hard look at internal developments and class formation in the region and explores the complex dynamics underlying the failure of socialist transformation demystifying the highly simplified destabilisation thesis and pointing to some of the problems that forces for change in South Africa itself may have to face in the 1990s The chapters make significant reference to changing present and future relations with South Africa and to the impact of internal changes on the development of

neighbouring countries *Southern Africa* Stephen Chan, 2014-05-14 In this timely and essential book Stephen Chan explores the political landscape of southern Africa examining how it is poised to change over the next years and what the repercussions are likely to be across the continent He focuses on three countries in particular South Africa Zimbabwe and Zambia all of which have remained interconnected since the end of colonial rule and the overthrow of apartheid One of the key themes in the book is the relationship between South Africa and Zimbabwe and Chan sheds new light on the shared intellectual capacities and interests of the two countries respective presidents Jacob Zuma and Robert Mugabe Along the way the personalities and abilities of key players such as Morgan Tsvangirai the prime minister of Zimbabwe and former South African president Thabo Mbeki emerge in honest and sometimes surprising detail In *Southern Africa* Chan draws on three decades of experience to provide the definitive inside guide to this complex region and offer insight on how the near future is likely to be a litmus test not just for this trio of countries but for all of Africa *South Africa after Apartheid* , 2016-08-15 As South Africa has entered the third decade after the end of apartheid this book aims at taking stock of the post apartheid dynamics in the so far often less comprehensively analysed but crucial fields of APRM relevant politics social development land and regional relations In the first part of the book an analysis of some structuring domestic features of post apartheid South Africa is provided with a focus on political processes and debates around gender HIV AIDS and religion The second part of the volume focuses on the land question and part three is looking at South Africa's role in the Southern African region Contributors are Nancy Andrew Nicholas Dietrich Ulf Engel Harvey M Feinberg Anna Maria Gentili Preben Kaarsholm Mandisa Mbali David Moore Arrigo Pallotti Roberta Pellizzoli Chris Saunders Timothy Scarnecchia Cherryl Walker Lorenzo Zambernardi and Mario Zamponi *South Africa's Destabilisation of Zimbabwe, 1980-89* J. Dzimba, 1998-01-01 South Africa's Apartheid regime saw Zimbabwean independence and black majority rule in 1980 as a major threat to its interests security and regional hegemony John Dzimba explains how and why Pretoria sought to destabilise Zimbabwe and other front line states examining the successes and failures of destabilisation against Zimbabwe's economic and political vulnerabilities and attempted responses He shows why P W Botha's crisis ridden regime had to drop the policy in 1989 Development Centre Studies Conflict and Growth in Africa Southern Africa Volume 3 Goudie Andrew, Neyapti Bilin, 1999-12-14 This book is about conflict It approaches the problem in five Southern African countries from the standpoint of economic analysis Urban and Regional Change in Southern Africa David W. as it uses the idea of a borderscape to argue that nations are made at the border and in the contestations that take place in the borderlands Understanding borders and bordering in the SADC region is crucial to understanding how policies made in oft distant national capitals have played out among borderlands residents over time The contributors present why national citizens in SADC so often end up in countries distant from where they were born and reside and why leaders need to be cognizant of this Exploring gender history policy and the ways that people have moved across borders despite a myriad of restrictions stretching from the early twentieth century to the present this collection centers the voices and experiences of the most marginal to make the plea for a more humane border regime in Southern Africa and globally **A - Airports**

Thomas Duri,Ngonidzashe Marongwe,2019-10-22 Arguably one of the long waited political handover of power globally happened in November 2017 in Zimbabwe when the former and now late 37 year long serving and divisive President Robert Gabriel Mugabe was forced out of power by a combination of forces that were spearheaded by the militarys Operation Restore Legacy Mugabes departure ushered in President Emmerson Dambudzo Mnangagwas reign This transition has variously been characterised as marking the inauguration of the Second Republic or New Dispensation or as heralding a new Zimbabwe that is Open for Business From the moment of the investiture of President Mnangagwas government anticipations of seismic changes to the order of doing business by both the incoming government and the larger Zimbabwean society in general were extremely high There was an expectation that international cooperation with global partners especially in the West would be restored alongside the reinvigoration of a near comatose domestic economy But did this ever happen This volume interrogates the impact of the introduction of the Mnangagwa administration from November 2017 The book seeks to broadly dissect and troubleshoot issues of continuity and change from Mugabes reign into Mnangagwas Second Republic In doing so the book attempts to respond to the grand question To what extent has Mugabeism that was the hallmark of Mugabes reign continued or discontinued into the Second Republic The volume which comes as a sequel to The end of an era Robert Mugabe and a conflicting legacy is sure to generate interest and responses from students and academics in the fields of History International Studies Political Science Sociology and Social anthropology as well as from practitioners in the human rights transitional justice conflict resolution security studies and diplomatic fields Demilitarisation and

Peace-Building in Southern Africa Peter Batchelor,2018-12-17 First published in 2004 this work is based on a collaborative research project this trilogy considers the dynamics of demilitarisation and peace building in southern Africa in the aftermath of major violent conflicts The overall aim of the research is to support and facilitate the achievement of sustainable peace and

human development in southern Africa by analysing demilitarisation and peace building processes in the region and identifying policy options and interventions for peace building The central focus of the research is the extent to which demilitarisation following the termination of wars has contributed to broad processes of peace building in the affected region Has the military in southern Africa downsized and refocused towards new roles Has there been a peace dividend allowing more investment in economic and human development thereby dealing with some of the root causes of conflict Volume I provides a conceptual framework for the analysis of demilitarisation and peace building processes applicable particularly in the southern Africa context This volume argues that a broad concept of peace building has to take into account economic political social and cultural factors at the local national and regional level Cold War in Southern Africa Sue Onslow, 2009-09-10 This edited volume examines the complexities of the Cold War in Southern Africa and uses a range of archives to develop a more detailed understanding of the impact of the Cold War environment upon the processes of political change In the aftermath of European decolonization the struggle between white minority governments and black liberation movements encouraged both sides to appeal for external support from the two superpower blocs Cold War in Southern Africa highlights the importance of the global ideological environment on the perceptions and consequent behaviour of the white minority regimes the Black Nationalist movements and the newly independent African nationalist governments Together they underline the variety of archival sources on the history of Southern Africa in the Cold War and its growing importance in Cold War Studies This volume brings together a series of essays by leading scholars based on a wide range of sources in the United States Russia Cuba Britain Zambia and South Africa By focussing on a range of independent actors these essays highlight the complexity of the conflict in Southern Africa a battle of power blocs of systems and ideas which intersected with notions and practices of race and class This book will appeal to students of cold war studies US foreign policy African politics and International History Sue Onslow has taught at the London School of Economics since 1994 She is currently a Cold War Studies Fellow in the Cold War Studies Centre IDEAS **Region-Building in Southern Africa** Chris Saunders, Gwinyayi Albert Dzinesa, Dawn Nagar, 2013-07-04 How successful have Southern African states been in dealing with the major issues that have faced the region in recent years What could be done to produce more cohesive and effective region building in Southern Africa In this original and wide ranging volume which draws on an interdisciplinary team of mainly African and African based specialists the key political socio economic and security challenges facing Southern Africa today are addressed These include the various issues confronting the Southern African Development Community SADC and its institutions such as HIV AIDS migration and xenophobia land grabbing and climate change and the role of the main external actors involved with the region including the United Nations the European Union the United States and China The book also looks at the Southern African Customs Union and Southern African Development Finance Institutions including the Development Bank of Southern Africa and Industrial Development Corporation and issues of gender and peacebuilding In doing so the book goes to the heart

of analyzing the effectiveness of SADC and other regional organisation suggesting how region building in Southern Africa may be compared with similar attempts elsewhere in Africa and other parts of the world **South Africa** Shaun Johnson,1989 This study of contemporary South Africa focuses thematically on the major political contestants interest groups and power brokers in that country The book attempts to provide an introduction to aspects of contemporary South African politics and an insight into its many forms of resistance **Southern Africa Since The Portuguese Coup** John Seiler,2019-09-05 First published in 1980 Toward the end of 1975 the author decided to edit a collection of essays on political developments in Southern Africa Regional events since the Portuguese coup in April 1974 had already made an enormous impact first suggesting the possibilities of peaceful accommodation between South Africa and its neighbors but then demonstrating the destructive impact in Angola of widespread international intervention in the latter half of 1975 From 1975 to the present events in Southern Africa have neared center stage in international attention but as these essays will show outstanding regional differences are no closer to peaceful resolution in late 1979 than they were in early 1976
