Southern Cultures Volume 3 Number 4:

All According to God's Plan Alan Scot Willis, 2005-12-01 Southern Baptists had long considered themselves a missionary people but when after World War II they embarked on a dramatic expansion of missionary efforts they confronted headlong the problem of racism Believing that racism hindered their evangelical efforts the Convention's full time missionaries and mission board leaders attacked racism as unchristian thus finding themselves at odds with the pervasive racist and segregationist ideologies that dominated the South This progressive view of race stressed the biblical unity of humanity encompassing all races and transcending specific ethnic divisions In *All According to God's Plan* Alan Scot Willis explores these beliefs and the chasm they created within the Convention He shows how in the post World War II era the most respected members of the Southern Baptists Convention publicly challenged the most dearly held ideologies of the white South

Age of Betrayal Jack Beatty, 2008-04-08 *Age of Betrayal* is a brilliant reconsideration of America's first Gilded Age when war born dreams of freedom and democracy died of their impossibility Focusing on the alliance between government and railroads forged by bribes and campaign contributions Jack Beatty details the corruption of American political culture that in the words of Rutherford B Hayes transformed a government of the people by the people and for the people into a government by the corporations of the corporations and for the corporations A passionate gripping scandalous and sorrowing history of the triumph of wealth over commonwealth

E Pluribus Unum William E. Nelson, 2019-06-04 In *E Pluribus Unum* eminent legal historian William E Nelson shows that the colonies gradual embrace of the common law was instrumental to the establishment of the United States He traces how the diverse legal orders of Britain's thirteen colonies gradually evolved into one system adding to our understanding of how law impacted governance in the colonial era and beyond

Petroleum and Public Safety James B. McSwain, 2018-07-06 Throughout the twentieth century cities such as Houston Galveston New Orleans and Mobile grappled with the safety hazards created by oil and gas industries as well as the role municipal governments should play in protecting the public from these threats James B McSwain's *Petroleum and Public Safety* reveals how officials in these cities created standards based on technical scientific and engineering knowledge to devise politically workable ordinances related to the storage and handling of fuel Each of the cities studied in this volume struggled through protracted debates regarding the regulation of crude petroleum and fuel oil sparked by the famous Spindletop strike of 1901 and the regional oil boom in the decades that followed Municipal governments sought to ensure the safety of their citizens while still reaping lucrative economic benefits from local petroleum industry activities Drawing on historical antecedents such as fire protection engineering the cities of the Gulf South came to adopt voluntary consensual fire codes issued by insurance associations and standards organizations such as the National Board of Fire Underwriters the National Fire Protection Association and the Southern Standard Building Code Conference The culmination

of such efforts was the creation of the International Fire Code an overarching fire protection guide that is widely used in the United States Mexico the Caribbean and Central America In devising ordinances Gulf South officials pursued the politics of risk management as they hammered out strategies to eliminate or mitigate the dangers associated with petroleum industries and to reduce the possible consequences of catastrophic oil explosions and fires Using an array of original sources including newspapers municipal records fire insurance documents and risk management literature McSwain demonstrates that Gulf South cities played a vital role in twentieth century modernization Kalambo Falls Prehistoric Site John Desmond Clark,1969 The local basin in the Kalambo River valley above the famous Falls on the boundary between Zambia and Tanzania provides one of the longest and richest records of human activity so far recovered from a single site in the African continent Successive human occupation levels and horizons cover the past 60 000 years from the close of the Acheulian Industrial Complex to the present day This third and final volume of this major site report deals with the Middle and Earlier Stone Age period **The Southern Frontier** Rohan Howitt,2025-05-14 Antarctica looms large in the Australian psyche as a place of science adventure and peril Our romantic entanglement with this unique environment is deep and enduring The Southern Frontier traces Australia s Antarctic obsession from its origins in the nineteenth century to the creation of the Australian Antarctic Territory and a permanent national Antarctic program in the 1930s and 1940s It reconstructs Australian ideas beliefs and anxieties about the Antarctic and shows how Australians came to imagine their nation as having a natural right perhaps even a destiny to explore exploit and control the world to their south By examining how and why Australia relentlessly pursued the acquisition of its Antarctic Territory Rohan Howitt recovers a forgotten way of thinking about this region as one frontier of an Australian empire stretching from the equator to the South Pole At a time when the Australian Government is ramping up its investment in Antarctica and geopolitical tensions are on the rise The Southern Frontier provides the historical explanation for how Australians came to see the world to their south as a natural extension of the nation s territory **The Power to Die** Terri L. Snyder,2015-08-28 Acts of suicide by enslaved people carried significant cultural legal and political implications in the emerging slave societies of British America and later the United States This study features a wide range of evidence from ship logs and surgeon s journals legal and legislative records newspapers periodicals novels and plays abolitionist print and slave narratives in order to consider the intimate circumstances cultural meanings and political consequences of enslaved peoples acts of self destruction in the context of early American slavery The Shaping of Southern Culture Bertram Wyatt-Brown,2001 Extending his investigation into the ethical life of the white American South beyond what he wrote in Southern Honor 1982 Bertram Wyatt Brown explores three major themes in southern history the political aspects of the South s code of honor th **The Good Rich and What They Cost Us** Robert F. Manners and Southern History Ted Ownby,2007 The concept of southern manners may evoke images of debutantes being introduced to provincial society or it might conjure thoughts of the humiliating behavior white supremacists expected of African Americans under Jim Crow The essays in *Manners and Southern History* analyze these topics and more Scholars here investigate the myriad ways in which southerners from the Civil War through the civil rights movement understood manners Contributors write about race gender power and change Essays analyze the ways southern white women worried about how to manage anger during the Civil War the complexities of trying to enforce certain codes of behavior under segregation and the controversy of college women s dating lives in the raucous 1920s Writers study the background and meaning of Mardi Gras parades and debutante balls the selective enforcement of antimiscegenation laws and arguments over the form that opposition to desegregation should take Concluding essays by Jane Dailey and John F Kasson summarize and critique the other articles and offer a broader picture of the role that manners played in the social history of the South Essays by Catherine Clinton Joseph Crespino Jane Dailey Lisa Lindquist Dorr Anya Jabour John F Kasson Jennifer Ritterhouse and Charles F Robinson II Ted Ownby teaches history and southern studies at the University of Mississippi *Disseminating Darwinism* Ronald L. Numbers,John Stenhouse,1999-12-28 This innovative collection of original essays focuses on the ways in which geography gender race and religion influenced the reception of Darwinism in the English speaking world of the late nineteenth and early twentieth centuries The contributions to this volume collectively illustrate the importance of local social physical and religious arrangements while revealing that neither distance from Darwin s home at Down nor size of community greatly influenced how various regions responded to Darwinism Essays spanning the world from Great Britain and North America to Australia and New Zealand explore the various meanings for Darwinism in these widely separated locales while other chapters focus on the difference it made in the debates over evolution Material Culture from Prehistoric Virginia William Jack Hranicky,Wm Jack Hranicky Rpa,2011 *Material Culture from Prehistoric Virginia* Volume 1 is one volume of a two volume set This two volume set is available in black and white and in color Volume 1 contains artifact listings from A through L Volume 2 contains the remainder of the alphabetical listings These publications contain over 10 000 prehistoric artifacts mainly from Virginia but the publication covers the eastern U S The set starts with Pre Clovis and goes through Woodland times with some Indian ethnography and rockart Each volume is indexed contains references has charts and graphs drawings photographs artifact dates and artifact descriptions These volumes contain artifacts that have never

appeared in the archaeological literature From beginners to experienced archaeologists they offer a complete library for the American Indian culture and experience If the prehistoric Indian made it an example is probably shown Social Medicine and the Coming Transformation Howard Waitzkin, Alina Pérez, Matt Anderson, 2020-12-20 Social medicine starting two centuries ago has shown that social conditions affect health and illness more than biology does and social change affects the outcomes of health and illness more than health services do Understanding and exposing sickness generating structures in society helps us change them This first book providing a critical introduction to social medicine sheds light on an increasingly important field The authors draw on examples worldwide to show how principles based on solidarity and mutual aid have enabled people to participate collaboratively to construct health promoting social conditions The book offers vital information and analysis to enhance our understanding regarding the promotion of health through social and individual means the micro politics of medical encounters the social determination of illness the influences of racism class gender and ethnicity on health health and empire and health praxis reform and sociomedical activism Illustrations are included throughout the book to convey these key themes and important issues as well as on Routledge's webpage for the book under the Support Materials tab The authors offer compelling ways to understand and to change the social dimensions of health and health care Students teachers practitioners activists policy makers and people concerned about health and health care will value this book which goes beyond the usual approaches of texts in public health medical sociology health economics and health policy Towards a Four-Tiered Model of Mediation Hugo Luz dos Santos, 2023-02-13 Underpinned by a hybrid methodology ranging from social sciences to human sciences this book parses mediation in four perspectives which stands as an unparalleled methodological approach so far Mediation has long been tethered to piecemeal and haphazard approaches which have flatly failed to capture the gist of the uniqueness of this often poorly latched on and poorly understood dispute resolution mechanism This book argues that in order to fully grasp the richness of such dispute resolution mechanism mediation must be parsed in four tiers The first tier is the social dynamics of mediation The second tier is the cultural dynamics of mediation The third tier is the legal dynamics of mediation The fourth tier is the cross border and cross cultural dynamics of mediation Taken together the four tiers that premise the four tiered model of mediation seek to unlock the finding in view of which law and social reality are tightly interlocked In this vein it is the underlying social reality of a given jurisdiction that should dictate the design of a pre suit court connected mandatory mediation with an easy opt out a central claim of both social dynamics of mediation the first tier of the four tiered model of mediation and legal dynamics of mediation the third tier of the four tiered model of mediation **Resources in Education** ,1994 *The North Carolina Historical Review* ,2007
