Lines Joshua Brown,2023-04-28 In this wonderfully illustrated book Joshua Brown shows that the wood engravings in the  
illustrated newspapers of Gilded Age America were more than a quaint predecessor to our own sophisticated media As he  
tells the history and traces the influence of Frank Leslie s Illustrated Newspaper with relevant asides to Harper s Weekly the

images to be significant barometers for gauging how the general public perceived pivotal events and crises the Civil War  
Reconstruction important labor battles and more This book is the best available source on the pictorial riches of Frank Leslie  
s newspaper and the only study to situate these images fully within the social context of Gilded Age America Beyond the

paintings and prints of the Steidle Collection capture the power and beauty of industry The images potent reminders of  
earlier vigorous industrial development in America are a visual record connecting fine arts industry and education before  
World War II Established and expanded by Edward Steidle during his tenure at The Pennsylvania State University the  
collection with its unique focus on the mineral industries is one of the most comprehensive assemblages of American  
industrial art The Steidle Collection is preserved and exhibited by the Earth and Mineral Sciences Museum and Art Gallery  
The Steidle Collection remains today a remarkable artifact at the intersection of art industry and education As a time capsule

of the period between the stock market crash of 1929 and World War II the collection sheds light on Pennsylvania's most important industries. The unique beauties of steel and coal that inspired the artists in this collection remind us of the power these industries held in the culture and economy of Pennsylvania. At the time he assembled his industrial art collection Dean Steidle could hardly have imagined the collapse of the nation's formidable steel industry and the disappearance of the blast furnaces that inspired such powerful paintings and prints. Edward Steidle was singular; one writer characterized him as a spark plug and his remarkable vision of art embedded in the School of Earth and Mineral Sciences remains a legacy for the citizens of the Commonwealth and for The Pennsylvania State University. *Annual Report - National Gallery of Art* National Gallery of Art (U.S.), 1983

**Portraits of Industry** Lorie A. Annarella, 2004 The fourteen paintings reviewed in this study chronicle industrial artist Howard L. Worner's interpretation of the steel industry. By employing ethnographic techniques to his art, Worner contributed much to the understanding of the culture of work. This book will provide students of art education a better understanding of the genre through artistic ethnography and interpretation as well as an excellent overview of industrial art.
