## **Sovereignty An Inquiry Into The Politica:**

Sovereignty Bertrand de Jouvenel,1957    Sovereignty Bertrand de Jouvenel,1957    The Credibility of Sovereignty – The Political Fiction of a Concept Elia R.G. Pusterla,2015-12-19 The book deeply analyses the bilateral relations between Switzerland and the European Union and their effect on the former's sovereignty in the context of Europeanisation. This touches on philosophical debates on the complexity of sovereignty. What sovereignty is at stake when talking about Swiss EU relations. This issue not only faces the elusiveness of sovereignty as a concept but also the proliferation of hypocrisy on its presence within states. The book encounters the deconstructionist hypothesis stating that there is nothing to worry about but the belief there is something to worry about. Derrida's deconstruction of sovereignty allows indeed one to grasp the fictional essence of sovereignty based on the metaphysics of presence. The presence of self-positing sovereign ipseity is fictional since absent in the present but spectrally present in the belief of its presence to come. Sovereignty is a matter of credibility or the credible promise of a normative statement to come. Hence the book challenges the realist neorealist argument stating that states are credibly sovereign until proven otherwise and explains that the debate on state sovereignty calls for the unveiling of this hypocritical epistemology cunningly disguised as an objective presence. Swiss EU relations thus become the cornerstone to not only theorise but also test sovereignty and deconstruct the two ontological and epistemological sides of the same coin or the modern hypocrisy of sovereignty. This deconstruction constitutes the very problematic of any attempt to understand whether and how a state can be sovereign and solve the problem as to how to neutralise the difference and identify the difference between credible and incredible claims of sovereignty. This problematic connects the theory and practice of sovereignty innovatively providing positivist evidence on the arguable credibility of the Swiss claim of sovereignty and confirming the presence of a theological dimension within politics.    Political Sovereignty: The Supreme Authority in the United States ,    **The Oxford Handbook of the History of Political Philosophy** George Klosko,2011-05-26 Fifty distinguished contributors survey the entire history of political philosophy. They consider questions about how the subject should best be studied they examine historical periods and great theorists in their intellectual contexts and they discuss aspects of the subject that transcend periods such as democracy the state and imperialism

**Sovereignty and the Law** Richard Rawlings,Peter Leyland,Alison Young,2013-11 Grounded firmly in the disciplines of law this collection explores the twin elements of continuity and change in conceptions of sovereignty in recent times. The collection as a whole illuminates the enduring strength of sovereignty as a foundational concept and the continuing widespread appeal of sovereignty as an idea.    **POLITICAL THEORY** RAMASWAMY, SUSHILA,2010-10-01 Political theory and political philosophy are generally used interchangeably though sometimes a distinction is made between the two. This book on political theory deals with the study of political institutions alongwith the theories of State Law Liberty and Equality. In its second edition the book continues to analyse the key concepts like Authority Power Sovereignty Political obligation Civil disobedience Citizenship

Rights Democracy and Justice The non western ideas including Indian and Chinese are incorporated to underline cultural plurality and shared values in an enterprise that tries to set universal standards The book is designed for the undergraduate and postgraduate students of Political Science The book will be equally beneficial for the students appearing for the civil services examinations    [The Political Machine](#) Adam T. Smith,2020-08-04 The Political Machine investigates the essential role that material culture plays in the practices and maintenance of political sovereignty Through an archaeological exploration of the Bronze Age Caucasus Adam Smith demonstrates that beyond assemblies of people polities are just as importantly assemblages of things from ballots and bullets to crowns regalia and licenses Smith looks at the ways that these assemblages help to forge cohesive publics separate sovereigns from a wider social mass and formalize governance and he considers how these developments continue to shape politics today Smith shows that the formation of polities is as much about the process of manufacturing assemblages as it is about disciplining subjects and that these material objects or machines sustain communities orders and institutions The sensibilities senses and sentiments connecting people to things enabled political authority during the Bronze Age and fortify political power even in the contemporary world Smith provides a detailed account of the transformation of communities in the Caucasus from small scale early Bronze Age villages committed to egalitarianism to Late Bronze Age polities predicated on radical inequality organized violence and a centralized apparatus of rule From Bronze Age traditions of mortuary ritual and divination to current controversies over flag pins and Predator drones The Political Machine sheds new light on how material goods authorize and defend political order

*Sovereignty in Transition* Neil Walker,2003-11-28 Sovereignty in Transition brings together a group of leading scholars from law and cognate disciplines to assess contemporary developments in the framework of ideas and the variety of institutional forms associated with the concept of sovereignty Sovereignty has been described as the main organising concept of the international society of states one which is traditionally central to the discipline and practice of both constitutional law and of international law The volume asks to what extent and with what implications this centrality is challenged by contemporary developments that shift authority away from the state to new sub state supra state and non state forms A particular focus of attention is the European Union and the relationship between the sovereignty traditions of various member states on the one hand and the new claims to authority made on behalf of the European Union itself on the other are examined The collection also includes contributions from international law legal philosophy legal history political theory political science international relations and theology that seek to examine the state of the sovereignty debate in these disciplines in ways that throw light on the focal constitutional debate in the European Union    [Encyclopedia of Identity](#) Ronald L. Jackson II,2010-06-29 The two volumes of this encyclopedia seek to explore myriad ways in which we define ourselves in our daily lives Comprising 300 entries the Encyclopedia of Identity offers readers an opportunity to understand identity as a socially constructed phenomenon a dynamic process both public and private shaped by past experiences and

present circumstances and evolving over time Offering a broad comprehensive overview of the definitions politics manifestations concepts and ideas related to identity the entries include short biographies of major thinkers and leaders as well as discussions of events personalities and concepts The Encyclopedia of Identity is designed for readers to grasp the nature and breadth of identity as a psychological social anthropological and popular idea Key ThemesArtClassDeveloping IdentitiesGender Sex and SexualityIdentities in ConflictLanguage and DiscourseLiving EthicallyMedia and Popular CultureNationality Protecting IdentityRace Culture and EthnicityRelating Across CulturesReligionRepresentations of IdentityTheories of Identity

**Sovereignty and the Limits of the Liberal Imagination** Scott G Nelson,2009-09-11 This is a study of the concept of sovereignty in the modern epoch For too long modern political theory has assumed the subject it has also assumed the state This book asks how each are effected in history through liberal Enlightenment ethical and political affirmations which anchor themselves in a unique metaphysics of statecraft **Sovereignty in Post-Sovereign Society** Jiří Přibáň,2016-03-09 Sovereignty marks the boundary between politics and law Highlighting the legal context of politics and the political context of law it thus contributes to the internal dynamics of both political and legal systems This book comprehends the persistence of sovereignty as a political and juridical concept in the post sovereign social condition The tension and paradoxical relationship between the semantics and structures of sovereignty and post sovereignty are addressed by using the conceptual framework of the autopoietic social systems theory Using a number of contemporary European examples developments and paradoxes the author examines topics of immense interest and importance relating to the concept of sovereignty in a globalising world The study argues that the modern question of sovereignty permanently oscillating between de iure authority and de facto power cannot be discarded by theories of supranational and transnational globalized law and politics Criticising quasi theological conceptualizations of political sovereignty and its juridical form the study reformulates the concept of sovereignty and its persistence as part of the self referential communication of the systems of positive law and politics The book will be of considerable interest to academics and researchers in political legal and social theory and philosophy

**Sovereignties** R. Prokhorovnik,2007-11-12 Raia Prokhorovnik develops a strong argument for sovereignty as a robust concept with many conceptualizations and capable of further fruitful reconceptualization The book explores contemporary theoretical developments and current political issues around sovereignty that have crucial practical and institutional implications

**The Responsibility to Protect** International Commission on Intervention and State Sovereignty,International Development Research Centre (Canada),2001 Responsibility to Protect Research bibliography background Supplementary volume to the Report of the International Commission on Intervention and State Sovereignty

**Medieval Sovereignty** Francesco Maiolo,2007 Medieval Sovereignty examines the idea of sovereignty in the Middle Ages and asks if it can be considered a fundamental element of medieval constitutional order Francesco Maiolo analyzes the writings of Marsilius of Padua 1275 80 1342 43 and Bartolous of Saxoferrato 1314 57 and assesses their relative

contributions as early proponents of popular sovereignty Both are credited with having provided the legal justification for medieval popular government Maiolo's cogent reconsideration of this primacy is an important addition to current medieval studies    *Marine Hydrothermal Systems and the Origin of Life* SCOR Working Group 91,1992-11-30 Research of the origins of life in connection with a marine environment started at the end of the seventies when the black smokers in the Pacific were discovered and the Red Sea deep hydrothermal brines were found to be a fruitful environment for abiotic synthesis of life precursors For a while this research was categorised under the heading chemistry but in less than a decade the topic became fully integrated into the science of oceanography The Scientific Committee on Oceanographic Research SCOR initiated Working Group 91 Chemical Evolution and Origin of Life in Marine Hydrothermal Systems This volume contains the final report of this working group    **The Nature of Politics** Bertrand De Jouvenel,Dennis Hale,Marc Landy,1992-01-01 In *The Nature of Politics* de Jouvenel's refreshing freedom from ideological blinders makes him worthy of comparison to Orwell but his ambition stretches beyond the novelistic in that he attempts to develop a theory of the good state resting upon a clear sighted understanding of the true nature of political behavior Graced with a brilliant introduction by Dennis Hale and Marc Landy this volume serves as an ideal introduction to de Jouvenel's thought    *The Oxford Companion to Comparative Politics* Joel Krieger,2013 The two volume Oxford Companion to Comparative Politics fills a gap in scholarship on an increasingly important field within Political Science Comparative Politics the discipline devoted to the politics of other countries or peoples has been steadily gaining prominence as a field of study allowing politics to be viewed from a wider foundation than a concentration on domestic affairs would permit Comparativists apply various theories and concepts to analyze the similarities and differences between political units using the results of their research to develop causalities and generalizations Each of these theories and outcomes are thoroughly defined in the Companion as are major resultant conclusions those comparativists who have influenced the field in significant ways and politicians whose administrations have shaped the evaluation of contrasting governments Approximately 200 revised and updated articles from the Oxford Companion to Politics of the World would serve as a foundation for the set while over 100 new entries would thoroughly examine the field in a lasting more theoretical than current event based way New entries cover such topics as failed states Grand Strategies and Soft Power important updates include such countries as China and Afghanistan and issues like Capital Punishment Gender and Politics and Totalitarianism Country entries include the most significant nations to permit a focus on non time sensitive analysis In addition 25 1 000 word interpretive essays by notable figures analyze the discipline its issues and accomplishments Collectively entries promote deeper understanding of a field that is often elusive to non specialists

*Lectures on the Principles of Political Obligation and Other Writings* Thomas Hill Green,1986-02-06 The political writings of T H Green with notes and an introductory essay    **Sovereign Evolution** Ezrah Aharone,2008-12-31 Rated 24th Best Black Book of 2009 Inside Black Hollywood Magazine From emancipation to segregation to integration African Americans

exist today by virtue of a continuum of political evolutions each of which is built upon prior legacies and achievements In advancing our political progression Sovereign Evolution re declares freedom and equality in 21st century terms using sovereign principles and standards Whether the issue concerns Katrina and Jena or being underrepresented in Congress and overrepresented in penitentiaries the common thread as Ezrah Aharone demonstrates is that African Americans are an Un Sovereign People who pay varying degrees of Un Sovereign Consequences Thus in a very methodical manner he circumscribes sovereignty in a universal and historical context that confers African Americans with just as much integrity and authority as any other people to espouse and employ sovereign aspirations The ideological framework herein self applies and legitimizes the concept of sovereignty in ways that no other work has succinctly captured in politically relatable terms specific for African Americans Realizing that not all African Americans will embrace sovereign values Aharone uniquely specifies how a Sovereign Evolution can mutually advance the best interests of us all without conflict or compromise to core beliefs of anyone Accordingly the book sets a platform to infuse sovereign discourse into mainstream domains that reach from street corners of the hoods to Black universities to church congregations to the halls of Congress The advent of President Barack Obama indicates a necessary and long awaited political shift in time and history which also conveys veiled implications of our sovereign potentials as a people What once seemed politically improbable has proven to be politically achievable Our only political limitations exist within the limits of our vision and courage To this end Ezrah Aharone factually sculpts the sociopolitical substance of our historical experience into a sovereign consciousness and political language to initiate a Manifest Destiny from Civil Rights to Sovereign Rights

## Enjoying the Track of Expression: An Psychological Symphony within **Sovereignty An Inquiry Into The Politica**

In some sort of taken by screens and the ceaseless chatter of instant interaction, the melodic elegance and psychological symphony produced by the published term frequently diminish into the backdrop, eclipsed by the relentless noise and disruptions that permeate our lives. Nevertheless, nestled within the pages of **Sovereignty An Inquiry Into The Politica** a stunning literary value full of organic thoughts, lies an immersive symphony waiting to be embraced. Constructed by an elegant composer of language, that charming masterpiece conducts visitors on a psychological trip, well unraveling the concealed melodies and profound influence resonating within each cautiously crafted phrase. Within the depths of this poignant evaluation, we can investigate the book's key harmonies, analyze its enthralling writing fashion, and surrender ourselves to the profound resonance that echoes in the depths of readers' souls.
