Stone Butch Blues A Novel:

Stone Butch Blues Leslie Feinberg, 1993 Jess a working class woman living as a man survives a period of homelessness tries to unionize fellow workers worries about being found out and searches for community while undergoing a secret transsexual operation

The Search for Identity in Leslie Feinberg's Stone Butch Blues Ester Schoefberger, 2010-12 Seminar paper from the year 2009 in the subject English Language and Literature Studies Literature grade 1.0 Dresden Technical University Institut Anglistik course HS The Cultural Study of Masculinity language English abstract Before writing this paper I didn't know what the term butch meant I tried to find out through texts and on the Internet what it meant and I soon found out that there were many different definitions I lost myself in blogs of people who defined themselves as butch and the conclusion was that the definition has to do both with femininity and masculinity After reading Leslie Feinberg's novel Stone Butch Blues 1993 the meaning of the term was at least a little more clear I decided to write the paper on this concept mainly driven by curiosity It was like looking into a room full of books and feeling the desire to read them all with the conviction that every book had to tell a different story I decided to call the paper The Search for Identity in Leslie Feinberg's Stone Butch Blues because I think that Jess's search goes beyond her self definition as a butch The story narrates the search for identity of an individual who has to choose between given categories At the end Jess chooses to refuse a stable definition because no one fits properly I chose to follow the main character through the search annotating every stage and trying to find confirmation in the critique

Second Skins Jay Prosser, 1998-04-07 Do we need bodies for sex Is gender in the head or in the body In Second Skins Jay Prosser reveals the powerful drive that leads men and women literally to shed their skins and in flesh and head to cross the boundary of sex Telling their story is not merely an act that comes after the fact it s a force of its own that makes it impossible to forget that stories of identity inhabit autobiographical bodies In this stunning first extensive study of transsexual autobiography Jay Prosser examines the exchanges between body and narrative that constitute the phenomenon of transsexuality Showing how transsexuality s somatic transitions are spurred and enabled by the formal transitions of narrative Prosser uncovers a narrative tradition for transsexual bodies Sex change is a plot and thus appropriately transsexuals make for adept and absorbing authors In reading the transsexual plot through transsexuals own recounting Prosser not only gives us a new and more accurate rendition of transsexuality His book suggests transsexuality with its extraordinary conjunctions of body and narrative as an identity story that transitions across the body language divide that currently stalls poststructuralist thought The form and approach of Second Skins works to cross other important and parallel divides In addition to analyzing transsexual textual accounts the book includes some 30 photographic portraits of transsexuals poignant attempts by transsexuals to present themselves unmediated to the world except by the camera And the author does not shy from exposure himself Interjecting the personal into his theoretical discussion and close textual work throughout the book Prosser reads and writes his own body his purpose in that stylistic crossing to stake out transsexuality and hence this very book as his own body s narrative

Masculinity in Lesbian "Pulp" Fiction Paul Thompson, 2024-06-28 This book looks specifically and in depth for the first time at masculinity in cheap lesbian themed paperbacks of the two decades after WW2 It challenges established critical assumptions about the readership and sets the masculinity imagined in these novels against the masculinity crisis of the era in which they were written The key issue of these novels is couplehood as much as sexuality and the instability of masculinity leads to the instability of the couple Thompson coins the term

heteroemulative to describe the struggle that both heterosexual and homosexual couples have in conforming to heteronormativity As several of these novels have been republished and remain in print they have taken on a new relevance to issues of sexuality and gender in the twentyfirst century and this study will attract readers within that area of interest A valuable read for sociologists studying gender roles and social historians of the cold war period in the United States It is suitable for readers of all academic levels from undergraduate through postgraduate to scholars and researchers but also for a general readership

Self-made Men Henry Rubin, 2003 In *Self Made Men* Henry Rubin explores the production of male identities in the lives of twenty two FTM transsexuals people who have changed their sex from female to male The author relates the compelling personal narratives of his subjects to the historical emergence of FTM as an identity category In the interviews that form the heart of the book the FTMs speak about their struggles to define themselves and their diverse experiences from the pressures of gender conformity in adolescence to being mistaken for butch lesbians from hormone treatments and surgeries to relationships with families partners and acquaintances Their stories of feeling betrayed by their bodies and of undergoing a second puberty are vivid and thought provoking Throughout the interviews the subjects claims to having core male identities are remarkably consistent and thus challenge anti essentialist assumptions in current theories of gender embodiment and identity Rubin uses two key methods to analyze and interpret his findings Adapting Foucault s notions of genealogy he highlights the social construction of gender categories and identities His account of the history of endocrinology and medical technologies for transforming bodies demonstrates that the family resemblance between transsexuals and intersexuals was a necessary postulate for medical intervention into the lives of the emerging FTMs The book also explores the historical emergence of the category of FTM transsexual as distinguished from the category of lesbian woman and the resultant border disputes over identity between the two groups Rubin complements this approach with phenomenological concepts that stress the importance of lived experience and the individual s capacity for knowledge and

action An important contribution to several fields including sociology of the body gender and masculinity human development and the history of science *Self Made Me* will be of interest to anyone who has seriously pondered what it means to be a man and how men become men **American Novel Explication, 1991-1995** Catherine Glitsch,1998 Covers criticism of American novels found in journals and books published between the years 1991 and 1995 **The On-line Database of Literature & Medicine** ,1995 An annotated bibliography *English Journal* ,1999 **Fuse Magazine** ,1993 *Quill & Quire* ,2006
