**Andrea Mitchell**

## **Talking Back To Presidents Dictators And Assorted Scoundrels:**

**Talking Back --to Presidents, Dictators, and Assorted Scoundrels** Andrea Mitchell, 2007      **Talking Back** Andrea Mitchell, 2006-12-26 No TV reporter today is more respected than NBC's Andrea Mitchell. She's covered stories from Jonestown to the fall of the Berlin Wall, gotten unexpected answers from such interviewees as Fidel Castro and Hillary Clinton, and balanced her high wire career with a very public marriage to former Federal Reserve Board Chairman Dr. Alan Greenspan. Mitchell's candid, funny, and riveting memoir is filled with unprecedented behind-the-scenes views of the television news industry and official Washington. A classic of contemporary journalism by a woman who has taken on her profession's entire old boy network, *Talking Back* deserves a place on the shelf alongside the memoirs of Hillary Clinton and Katherine Graham.

**The Man Who Knew** Sebastian Mallaby, 2017-12-05 Exceptional. Deeply researched and elegantly written. As a description of the politics and pressures under which modern independent central banking has to operate, the book is incomparable. *Financial Times*. The definitive biography of the most important economic statesman of our time from the bestselling author of *The Power Law* and *More Money Than God*. Sebastian Mallaby's magisterial biography of Alan Greenspan, the product of over five years of research based on untrammelled access to his subject and his closest professional and personal intimates, brings into vivid focus the mysterious point where the government and the economy meet. To understand Greenspan's story is to see the economic and political landscape of our time and the presidency from Reagan to George W. Bush in a whole new light. As the most influential economic statesman of his age, Greenspan spent a lifetime grappling with a momentous shift: the transformation of finance from the fixed and regulated system of the post-war era to the free-for-all of the past quarter century. The story of Greenspan is also the story of the making of modern finance for good and for ill. Greenspan's life is a quintessential American success story: raised by a single mother in the Jewish migr community of Washington Heights, he was a math prodigy who found a niche as a stats-crunching consultant. A master at explaining the economic weather to captains of industry, he translated that skill into advising Richard Nixon in his 1968 campaign. This led to a perch on the White House Council of Economic Advisers and then to a dazzling array of business and government roles from which the path to the Fed was relatively clear. A fire-breathing libertarian and disciple of Ayn Rand in his youth, who once called the Fed's creation a historic mistake, Mallaby shows how Greenspan reinvented himself as a pragmatist once in power. In his analysis and in his core mission of keeping inflation in check, he was a maestro indeed and hailed as such. At his retirement in 2006, he was lauded as the age's necessary man, the veritable God in the machine, the global economy's avatar. His memoirs sold for record sums to publishers around the world. But then came 2008. Mallaby's story lands with both feet on the great crash, which did so much to damage Alan Greenspan's reputation. Mallaby argues that the conventional wisdom is off-base: Greenspan wasn't a naïve ideologue who believed greater regulation was unnecessary. He had pressed for greater regulation of some key areas of finance over the years and had gotten nowhere. To argue that he didn't know the risks in

irrational markets is to miss the point He knew more than almost anyone the question is why he didn't act and whether anyone else could or would have A close reading of Greenspan's life provides fascinating answers to these questions answers whose lessons we would do well to heed Because perhaps Mallaby's greatest lesson is that economic statesmanship like political statesmanship is the art of the possible The Man Who Knew is a searching reckoning with what exactly comprised the art and the possible in the career of Alan Greenspan

**TV News Anchors and Journalistic Tradition** Kimberly Meltzer, 2010 Through the lens of TV news anchors this book examines the impact that television news has had on traditional journalistic standards and practices It provides a historical overview of the impact they have had on American journalism uncovering the changing values codes of behavior and boundaries of the journalistic community book cover [The Rulebreaker](#) Susan Page, 2024-04-23 Drawing on 150 interviews and extensive archival research this definitive biography of the most successful female broadcaster of all time who gave women a permanent place on the air reveals the woman behind the legacy one who broke all the rules to tell viewers what they deserved to know

*What Jefferson Read, Ike Watched, and Obama Tweeted* Tevi Troy, 2013-09-02 Explores how U.S. presidents' cultural pursuits shaped their leadership while examining how the reading habits of early presidents have been sidelined by such technological advances as the radio the television and the Internet

[The Education of Ronald Reagan](#) Thomas W. Evans, 2006-12-05 In October 1964 Ronald Reagan gave a televised speech in support of Republican presidential nominee Barry Goldwater The Speech as it has come to be known helped launch Ronald Reagan as a leading force in the American conservative movement However less than twenty years earlier Reagan was a prominent Hollywood liberal the president of the Screen Actors Guild and a fervent supporter of FDR and Harry Truman While many agree that Reagan's anticommunism grew out of his experiences with the Hollywood communists of the late 1940s the origins of his conservative ideology have remained obscure Based on a newly discovered collection of private papers as well as interviews and corporate documents The Education of Ronald Reagan offers new insights into Reagan's ideological development and his political ascendancy Thomas W. Evans links the eight years 1954-1962 in which Reagan worked for General Electric acting as host of its television program GE Theater and traveling the country as the company's public relations envoy to his conversion to conservatism In particular Evans reveals the profound influence of GE executive Lemuel Boulware who would become Reagan's political and ideological mentor Boulware known for his tough stance against union officials and his innovative corporate strategies to win over workers championed the core tenets of modern American conservatism free market fundamentalism anticommunism lower taxes and limited government Building on the ideas and influence of Boulware Reagan would soon begin his rise as a national political figure and an icon of the American conservative movement

**What We Won** Bruce Riedel, 2014-07-28 In February 1989 the CIA's chief in Islamabad famously cabled headquarters a simple message We Won It was an understated coda to the most successful covert intelligence operation in American history In What We Won CIA and National Security Council veteran Bruce Riedel tells the

story of America's secret war in Afghanistan and the defeat of the Soviet 40th Red Army in the war that proved to be the final battle of the cold war He seeks to answer one simple question why did this intelligence operation succeed so brilliantly Riedel has the vantage point few others can offer He was ensconced in the CIA's Operations Center when the Soviet Union invaded Afghanistan on Christmas Eve 1979 The invasion took the intelligence community by surprise But the response initiated by Jimmy Carter and accelerated by Ronald Reagan was a masterful intelligence enterprise Many books have been written about intelligence failures from Pearl Harbor to 9 11 Much less has been written about how and why intelligence operations succeed The answer is complex It involves both the weaknesses and mistakes of America's enemies as well as good judgment and strengths of the United States Riedel introduces and explores the complex personalities pitted in the war the Afghan communists the Russians the Afghan mujahedin the Saudis and the Pakistanis And then there are the Americans in this war no Americans fought on the battlefield The CIA did not send officers into Afghanistan to fight or even to train In 1989 victory for the American side of the cold war seemed complete Now we can see that a new era was also beginning in the Afghan war in the 1980s the era of the global jihad This book examines the lessons we can learn from this intelligence operation for the future and makes some observations on what came next in Afghanistan and what is likely yet to come

Life Stories Maureen O'Connor, 2011-08-23 Memoirs autobiographies and diaries represent the most personal and most intimate of genres as well as one of the most abundant and popular Gain new understanding and better serve your readers with this detailed genre guide to nearly 700 titles that also includes notes on more than 2 800 read alike and other related titles The popularity of this body of literature has grown in recent years and it has also diversified in terms of the types of stories being told and persons telling them In the past readers advisors have depended on access by names or Dewey classifications and subjects to help readers find autobiographies they will enjoy This guide offers an alternative organizing the literature according to popular genres subgenres and themes that reflect common reading interests Describing titles that range from travel and adventure classics and celebrity autobiographies to foodie memoirs and environmental reads *Life Stories A Guide to Reading Interests in Memoirs Autobiographies and Diaries* presents a unique overview of the genre that specifically addresses the needs of readers advisors and others who work with readers in finding books *Seen and Heard* Nichola D. Gutgold, 2008-01-01 This book chronicles the careers communication styles and lives of twelve prominent women in television broadcasting and discusses the obstacles and opportunities in the television broadcasting field as they relate to women The importance of the role of television anchor seems insignificant when compared to the career milestones of women in more academic fields yet the role of messenger\_ the person who delivers news\_ is one of the most visible and prestigious in America
