The Philosophy of Human Nature Howard P. Kainz, 2015-11-05 What exactly is human nature What makes humans different from animals if there is any difference In this book Howard Kainz presents a philosophical analysis of the various concepts of human nature and the many controversies that have surrounded them for centuries He explores issues such as whether human beings are truly free whether human instincts differ from animal instincts and the realities of human maturity **Religion and Science: The Basics** Philip Clayton, 2013-03 Intelligent Design vs the New Atheists *Integral Ecology and the Fullness of Life* Anthony J. Kelly, 2018 Explores the horizon in which a new sense of conscious connections with the biosphere of this earth the encompassing cosmic reality and the singularity of Christian revelation might come to expression **The Character of Human Institutions** Michael Egan, 2014-06-30 This volume celebrates the life and work of Robin Fox and the idea of a biosocial science From his early studies of kinship primates the brain evolution the incest taboo and aggression to his later work on literature politics civilization law the Bible Shakespeare and the history of ideas Robin Fox inspired many with an evolutionary vision of humanity that goes beyond narrow disciplinary boundaries and embraces the universal history of mankind Fox's work represents an independent biosocial science stream of thinking that accepts the Darwinian mandate while avoiding reductionism by recognizing culture as a natural phenomenon The essays cover Fox's life and his contributions and address topics as diverse as the meaning and function of laughter the unforgiving discipline of writing popular anthropology extreme drinking rituals among young men training for the British army Darwin and close cousin marriage the universal essence of the epic form as a super attractor anthropologists autobiographies the conflict between science and anti science and the decline of British imperial education This engaging collection on a

mainstream maverick has been edited by Michael Egan It includes essays by Sir Antony Jay Lionel Tiger Howard Bloom Michael McGuire Kate Fox Melvin Konner Alan Macfarlane Adam Kuper Dieter Steklis Alexandra Maryanski Bernard Chapais Jonathan Turner Linda Stone Charles Macdonald Anne Fox David Jenkins Frederick Turner Robert Trivers and an essay by Robin Fox himself

Stone Age Present William Allman,1995-11-07 Have you ever wandered why men don't ask for directions Why we react with anger to infidelity Why we love music and art Why war and racism still thrive in our most sophisticated cultures In this fascinating synthesis of the disciplines of anthropology psychology linguistics philosophy and biology William Allman shows us how our minds have evolved in response to challenges faced by our prehistoric ancestors and reveals how our brains continue to harbor that legacy in the present day Scientists speculate that many of the problems of modern life from obesity to war arise because our Stone Age mind hasn't caught up with our technologically sophisticated world But Allman also reveals how morality rather than being the result of arbitrary convention is deeply rooted in our need to cooperate which has been essential to the survival of our species through its evolution

Ego Defenses Hope R. Conte,Robert Plutchik,1995 Explores the nature and manifestations of defense mechanisms repression displacement denial etc Traces ego defense theory and research from Freud's initial conceptualization through recent work in object relations theory and other psychoanalytically oriented approaches Renowned contributors provide the rationale for their measurement techniques describe them in detail offer reliability and validity data along with illustrations of usefulness

The Evolution of Childhood Melvin Konner,2011-11-30 This book is an intellectual tour de force a comprehensive Darwinian interpretation of human development Looking at the entire range of human evolutionary history Melvin Konner tells the compelling and complex story of how cross cultural and universal characteristics of our growth from infancy to adolescence became rooted in genetically inherited characteristics of the human brain All study of our evolution starts with one simple truth human beings take an extraordinarily long time to grow up What does this extended period of dependency have to do with human brain growth and social interactions And why is play a sign of cognitive complexity and a spur for cultural evolution As Konner explores these questions and topics ranging from bipedal walking to incest taboos he firmly lays the foundations of psychology in biology As his book eloquently explains human learning and the greatest human intellectual accomplishments are rooted in our inherited capacity for attachments to each other In our love of those we learn from we find our way as individuals and as a species Never before has this intersection of the biology and psychology of childhood been so brilliantly described Nothing in biology makes sense except in the light of evolution wrote Dobzhansky In this remarkable book Melvin Konner shows that nothing in childhood makes sense except in the light of evolution

Biopolitics and Gender Meredith W Watts Jr,2012-12-06 Here is an important book for social scientists interested in the influence of gender on certain types of behavior Several perspectives are presented on the general topic of biopolitics and gender including the points of view of brain science endocrinology ethology psychophysiology and such conventional interests as political attitudes socialization

participation social structure and political hierarchy The varied and provocative ideas explored in this volume will broaden discussions of gender beyond an exclusive focus on sex links to oppression and discrimination
