Targets And Goals:

Eco Targets, Goal Functions, and Orientors Felix Müller, Maren Leupelt, 2012-12-06 This volume comprises the proceedings of the International Workshop on Ecological Goal Functions held at the Schleswig Holstein Cultural Center of Salza August 30 September 4 1996 The conference first in a series intended to be convened at Salza at 1 2 year intervals to address various aspects of theoretical and application oriented ecology was initiated organized and carried out under the auspices of the Ecology Center of the Kiel University It featured key note addresses invited lectures submitted papers and posters 32 contributions written by authors from eight countries were selected to be presented in this book From the very rich discussions of the workshop some general characteristics emerged which might become important for a deeper understanding of the nature of evolving systems or in other words systems with a history described by variables with a high degree of interdependence These characteristics include the following Speaking of goal functions is a convenient fallback since a logical analysis of the formal structure of teleological and causal explanations shows that both are analogous with regard to the inherent structural typology and the basic mode of explanation Teleological interpretations introduce motives or objectives of actors into the set of antecedent conditions relevant for system evolution and are consequently a subset of causal interpretations *Guide to Monitoring Target 11*, 2003 **Water-Energy-Food Nexus** P. Abdul Salam, Sangam Shrestha, Vishnu Prasad Pandey, Anil Kumar Anal, 2017-07-12 Water energy and food are key resources to sustain life and are fundamental to national regional and global economies These three resources are interlinked in multiple ways and the term nexus captures the interconnections The nexus has been discussed debated researched and advocated widely but the focus is often on the pairings of water energy or water food or energy food To really benefit from the nexus approach in terms of resource use efficiency it is essential to understand operationalize and practice the nexus of all three resources As demand for these resources increases worldwide using them sustainably is a critical concern for scientists and citizens governments and policy makers Volume highlights include Contributions to the global debate on water energy food nexus Examples of the nexus approach in practice from different regions of the world Perspectives on the future of the nexus agenda Water Energy Food Nexus Theories and Practices is a valuable resource for students research scholars and professionals in academic institutions with strong interests in interdisciplinary research involving geography earth science environmental science environmental management sustainability science international development and ecological economics The volume will also be useful for professionals practitioners and consultants in NGOs government and international agencies Read an interview with the editors to find out more <https://eos.org/editors-vox-working-towards-a-sustainable-future> Target-setting Methods and Data Management to Support Performance-based Resource Allocation by Transportation Agencies National Cooperative Highway Research Program, 2010 TRB's National Cooperative Highway Research Program NCHRP Report 666 Target Setting Methods and Data Management to Support Performance Based

Resource Allocation by Transportation Agencies Volume I Research Report and Volume II Guide for Target Setting and Data Management provides a framework and specific guidance for setting performance targets and for ensuring that appropriate data are available to support performance based decision making Volume III to this report was published separately in an electronic only format as NCHRP Web Only Document 154 Volume III includes case studies of organizations investigated in the research used to develop NCHRP Report 666 Handbook for Developing Watershed Plans to Restore and Protect Our Waters, 2005

Enterprise IT Governance, Business Value and Performance Measurement Shi, Nan Si, Silvius, Gilbert, 2010-10-31 This book provides evidence based insights into the management and contribution of IT in organizations to offer practical advice solutions models and tools that are instrumental in getting business value from IT Provided by publisher

Language Disorders from Infancy Through Adolescence Rhea Paul, 2007-01-01 This text provides students with the information needed to properly assess childhood language disorders and decide appropriate treatments The book covers language development from birth to adolescence

The Palgrave Encyclopedia of Urban and Regional Futures Robert C. Brears, 2023-01-13 While urban settlements are the drivers of the global economy and centres of learning culture and innovation and nations rely on competitive dynamic regions for their economic social and environmental objectives urban centres and regions face a myriad of challenges that impact the ways in which people live and work create wealth and interact and connect with places Rapid urbanisation is resulting in urban sprawl rising emissions urban poverty and high unemployment rates housing affordability issues lack of urban investment low urban financial and governance capacities rising inequality and urban crimes environmental degradation increasing vulnerability to natural disasters and so forth At the regional level low employment low wage growth scarce financial resources climate change waste and pollution and rising urban peri urban competition etc are impacting the ability of regions to meet socio economic development goals while protecting biodiversity The response to these challenges has typically been the application of inadequate or piecemeal solutions often as a result of fragmented decision making and competing priorities with numerous economic environmental and social consequences In response there is a growing movement towards viewing cities and regions as complex and sociotechnical in nature with people and communities interacting with one another and with objects such as roads buildings transport links etc within a range of urban and regional settings or contexts This comprehensive MRW will provide readers with expert interdisciplinary knowledge on how urban centres and regions in locations of varying climates lifestyles income levels and stages development are creating synergies and reducing trade offs in the development of resilient resource efficient environmentally friendly liveable socially equitable integrated and technology enabled centres and regions
