The Handbook of Adolescence Marvin J. Gersh, Iris F. Litt, 1971 *National Library of Medicine Current Catalog*
National Library of Medicine (U.S.), 1973 First multi year cumulation covers six years 1965-70 Handbook of Adolescent Health Psychology William T. O'Donohue, Lorraine T. Benuto, Lauren Woodward Tolle, 2014-07-08 Adolescence is a pivotal period of development with respect to health and illness. It is during adolescence that many positive health behaviors are consolidated and important health risk behaviors are first evident; thus, adolescence is a logical time period for primary prevention. In addition, the predominant causes of morbidity and mortality in adolescence are quite different from those of adults, indicating that early identification and treatment of adolescent health problems must be directed to a unique set of targets in this age group. Moreover, because of the particular developmental issues that characterize adolescence, intervention efforts designed for adults are often inappropriate or ineffective in an adolescent population. Even when chronic illnesses are congenital or begin in childhood, the manner in which the transition from childhood to adolescence to young adulthood is negotiated has important implications for disease outcomes throughout the remainder of the person's life span. Organized in five major sections: General Issues, Developmental Issues, Treatment and Training, Mental Health, and Physical Health, and 44 chapters, Handbook of Adolescent Health Psychology addresses the common and not so common health issues that tend to affect adolescents. Coverage includes: Context and perspectives in adolescent health psychology; Health literacy, health maintenance, and disease prevention in adolescence; Physical disorders such as asthma, obesity, physical injury, and chronic pain; Psychological disorders such as substance abuse, attention deficit hyperactivity disorder, depression, and eating disorders; Congenital chronic diseases such as type 1 diabetes and spina bifida. Handbook of Adolescent Health Psychology is the definitive reference for pediatricians, family physicians, health psychologists, clinical social workers, rehabilitation specialists, and all practitioners and researchers working with adolescents.

The MassGeneral Hospital for Children Handbook of Pediatric Global Health Nupur Gupta, Brett D. Nelson, Jennifer Kasper, Patricia L. Hibberd, 2013-10-18 The MassGeneral Hospital for Children Handbook of Pediatric Global Health is a concise resource for the ever-increasing number of health professionals involved in global health, many of whom spend a few weeks to months or even years providing medical care in resource-poor countries. This Handbook provides practical, evidence-based, hands-on guidance for managing and preventing childhood illnesses when resources are limited in low and middle-income countries. It also offers a setting-specific understanding and management approaches to the major causes of childhood mortality, including pneumonia, diarrhea, birth asphyxia, complications of preterm birth, and neonatal sepsis. The Handbook provides an overview of childhood mortality, health systems, and the various stakeholders that play a role in the global health arena, and also contains chapters focusing on adolescents who are increasingly recognized as a unique population in whom interventions can go a long way in both consolidating the gains made in childhood and preventing adult disease. Finally, key topics in non-communicable diseases

are covered including trauma and injuries pediatric mental health child and adolescent rights and oral health Not meant solely for pediatricians the Handbook is designed for generalists specialists doctors nurses other health care workers and those in training An indispensable reference for health professionals overseas the Handbook will also be a useful addition and resource for academic centers and universities in industrialized nations that are creating courses for trainees who will do clinical electives abroad during their training *Medical Care of the Adolescent* James Roswell Gallagher, Felix P.
