Sourcebook in Shinto Stuart Picken, 2004-10-30 Shinto is a remarkably complex and elusive phenomenon to which Western categories of religion do not readily apply A knowledge of Shinto can only proceed from a basic understanding of Japanese shrines and civilization for it is closely intermingled with the Japanese way of life and continues to be a vital natural religion This companion to Picken s first volume Essentials of Shinto An Analytical Guide to Principal Teachings provides a selection of important and pivotal documents in the history of the Shinto tradition This volume contains a collection of texts and materials related to the Shinto tradition from the classical age of Japan to modern times Selections from the Japanese classics are followed by liturgical texts and relevant historical documents from the Nara and Heian periods Next documents relating to the period of State Shinto are followed by laws regulating Imperial Household Shinto both pre and post World War II This is followed by a brief selection of writings related to Shinto and the New Religions The remainder of the book is occupied by selections of texts firstly on Shinto Thought from the 13th century to the Meiji Restoration of 1868 The four closing chapters document early and recent western views of Shinto and a selection of Japanese writings covering the same period Finally the appendixes include the official list of Emperors and the nation s oldest shrines **Shinto** Helen

Japan Studies Review, 2009

Essentials of Contemporary Neo-Confucian Philosophy Shu-hsien Liu, 2003-12-30 This volume is the follow up to Understanding Confucian Philosophy Classical and Sung Ming which presented the first two Epochs of Confucian philosophy The third Epoch presented in this book is that of Contemporary Neo Confucian philosophy It notes a

paradigm shift from the late Ming to the early Ch'ing which shows us how the line of Sung Ming Neo Confucian philosophy was broken. Then background information is given to answer the question of how the phoenix was reborn from the ashes at the height of the iconoclast May Fourth Movement in 1919. Liang Shou-ming the forerunner of the movement developed his ideas about East West cultures and their philosophies. During the darkest moments of Chinese history three generations of New Confucian scholars developed their ideas and achieved great scholarship. Shu Hsien Liu presents a framework of four groups to portray the movement. And the philosophies of Fung Yu-lan, Hsuing Shih-li, Thome H. Fang, Tang Chun-i and Mou tsung-san are reviewed and analyzed. The international dimension of the third generation of New Confucians is also introduced. In the conclusion Shu Hsien Liu comments on the relevance of this trend of thought today with a view toward the future.

The Kyoto School Robert E. Carter, 2013-01-21

An accessible discussion of the thought of key figures of the Kyoto School of Japanese philosophy. This book provides a much needed introduction to the Kyoto School of Japanese philosophy. Robert E. Carter focuses on four influential Japanese philosophers: the three most important members of the Kyoto School, Nishida Kitaro, Tanabe Hajime and Nishitani Keiji, and a fourth, Watsuji Tetsuro who was at most an associate member of the school. Each of these thinkers wrestled systematically with the Eastern idea of nothingness albeit from very different perspectives. Many Western scholars, students and serious general readers are intrigued by this school of thought which reflects Japan's engagement with the West. A number of works by various thinkers associated with the Kyoto School are now available in English but these works are often difficult to grasp for those not already well versed in the philosophical and historical context. Carter's book provides an accessible yet substantive introduction to the school and offers an East-West dialogue that enriches our understanding of Japanese thought while also shedding light on our own assumptions, habits of thought and prejudices.
