Federal Statistics, Multiple Data Sources, and Privacy Protection National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Committee on National Statistics, Panel on Improving Federal Statistics for Policy and Social Science Research Using Multiple Data Sources and State-of-the-Art Estimation Methods, 2018-01-27 The environment for obtaining information and providing statistical data for policy makers and the public has changed significantly in the past decade raising questions about the fundamental survey paradigm that underlies federal statistics New data sources provide opportunities to develop a new paradigm that can improve timeliness geographic or subpopulation detail and statistical efficiency It also has the potential to reduce the costs of producing federal statistics The panel's first report described federal statistical agencies current paradigm which relies heavily on sample surveys for producing national statistics and challenges agencies are facing the legal frameworks and mechanisms for protecting the privacy and confidentiality of statistical data and for providing researchers access to data and challenges to those frameworks and mechanisms and statistical agencies access to alternative sources of data The panel recommended a new approach for federal statistical programs that would combine diverse data sources from government and private sector sources and the creation of a new entity that would provide the foundational elements needed for this new approach including legal authority to access data and protect privacy This second of the panel's two reports builds on the analysis conclusions and recommendations in the first one This report assesses alternative methods for implementing a new approach that would combine diverse data sources from government and private sector sources including describing statistical models for combining data from multiple sources examining statistical and computer science approaches that foster privacy protections evaluating frameworks for assessing the quality and utility of alternative data sources and various models for implementing the recommended new entity Together the two reports offer ideas and recommendations to help federal statistical agencies examine and evaluate data from alternative sources and then combine them as appropriate to provide the country with more timely actionable and useful information for policy makers businesses and individuals Main Economic Indicators - Sources and Methods Domestic Finance Statistics OECD, 1998-02-03 This publication provides a detailed description of the sources and methods used by OECD member countries in calculating the monetary aggregates credit and other measures of domestic finance presented in Main Economic Indicators *Main Economic Indicators - Sources and Methods Labour and Wage Statistics* OECD, 2005-02-04 This publication provides a detailed description of the sources and methods used by OECD countries to compile labour and wage indicators published in the monthly Main Economic Indicators publication *Statistics Sources* Paul Wasserman, Joanne Paskar, 1974-01-01 **Elements of Statistics** Frederick Charles Kent, 1924 **Sources of Statistics** Joan M. Harvey, 1971 **Statistics Sources** Gale Research Inc, 2024-12-13 *Official Statistics 4.0* Walter J. Radermacher, 2019-12-28 This book explores official statistics and their social function in modern

societies Digitisation and globalisation are creating completely new opportunities and risks a context in which facts can play an enormously important part if they are produced with a quality that makes them credible and purpose specific In order for this to actually happen official statistics must continue to actively pursue the modernisation of their working methods This book is not about the technical and methodological challenges associated with digitisation and globalisation rather it focuses on statistical sociology which scientifically deals with the peculiarities and pitfalls of governing by numbers and assigns statistics a suitable position in the future informational ecosystem Further the book provides a comprehensive overview of modern issues in official statistics embodied in a historical and conceptual framework that endows it with different and innovative perspectives Central to this work is the quality of statistical information provided by official statistics The implementation of the UN Sustainable Development Goals in the form of indicators is another driving force in the search for answers and is addressed here This book will be of interest to a broad readership The topics of sociology epistemology statistical history and the management of production processes which are important for official statistics and their role in social decision making processes are generally not dealt with in statistics books The book is primarily intended for official statisticians but researchers and advanced students in statistics economics sociology and the political sciences will find the book equally stimulating Last but not least it offers a valuable source of reflection for policymakers and stakeholders
