Policy Toward South Africa Kevin Danaher,2019-07-11 By tracing U S involvement in South African political and economic development since the late 1800s this book analyzes U S corporate and government motives for maintaining the political status quo in South Africa In recent decades according to the author U S policy toward South Africa has grown more contradictory Endeavoring to protect the United States s reputation on the question of race government officials denounce apartheid yet Washington remains the main force blocking an international response to South African policies As the situation in South Africa continues to polarize the U S is increasingly isolated in its position of verbally condemning yet materially supporting South Africa s white minority regime a regime confronting the distinct possibility of civil war

To Bring the Good News to All Nations Lauren Frances Turek,2020-05-15 When American evangelicals flocked to Latin America Africa Asia and Eastern Europe in the late twentieth century to fulfill their Biblical mandate for global evangelism their experiences abroad led them to engage more deeply in foreign policy activism at home Lauren Frances Turek tracks these trends and illuminates the complex and significant ways in which religion shaped America s role in the late Cold War world In *To Bring the Good News to All Nations* she examines the growth and influence of Christian foreign policy lobbying groups in the United States beginning in the 1970s assesses the effectiveness of Christian efforts to attain foreign aid for favored regimes and considers how those same groups promoted the imposition of economic and diplomatic sanctions on

those nations that stifled evangelism Using archival materials from both religious and government sources To Bring the Good News to All Nations links the development of evangelical foreign policy lobbying to the overseas missionary agenda Turek s case studies Guatemala South Africa and the Soviet Union reveal the extent of Christian influence on American foreign policy from the late 1970s through the 1990s Evangelical policy work also reshaped the lives of Christians overseas and contributed to a reorientation of U S human rights policy Efforts to promote global evangelism and support foreign brethren led activists to push Congress to grant aid to favored yet repressive regimes in countries such as Guatemala while imposing economic and diplomatic sanctions on nations that persecuted Christians such as the Soviet Union This advocacy shifted the definitions and priorities of U S human rights policies with lasting repercussions that can be traced into the twenty first century

Olympism: The Global Vision Boria Majumdar, Sandra Collins, 2013-09-13 The collection starts from the premise that Olympism and the Olympic Games make sense only when they are placed within the broader national colonial and post colonial contexts and argues that sport not only influences politics and vice versa but that the two are inseparable Sport is not only political it is politics It is also culture and art This collaboration is a first in global publishing a mine of information for scholars students and analysts It demonstrates that Olympism and the Olympic movement in the modern context has been and continues to be socially relevant and politically important Studies focus on national encounters with Olympism and the Olympic movement with equal attention paid to document the growing nexus between sports and the media sports reportage as well as women and sports Olympism asserts that the Olympic movement was and is of central importance to twentieth and twenty first century societies Finally the collection demonstrates that the essence of Olympism and the Olympic movement is important only in so far as it affects societies surrounding it This book was published as a special issue of the International Journal of the History of Sport **American Foreign Policy Current Documents** ,1986 Interest Groups, Water Politics and Governance Richard Meissner, 2015-07-08 The book investigates the role interest groups have played over the years to influence the governments of Lesotho and South Africa the World Bank and project implementation authorities in changing some policy aspects of the Lesotho Highlands Water Project LHWP Some of the issues being agitated by the interest groups are the resettlement of villagers where some of the dams for the projects are being constructed The author argues that interest groups and individuals have the ability to influence the above mentioned institutions and to such an extent that water politics and governance is not the domain of state institutions only **Regional Hegemons** David J Myers, 2019-06-04 The bitter U S experience in Vietnam and the pain inflicted on the Soviet Union by its Afghanistan adventure have caused Washington and Moscow to rethink the costs and benefits of unilateral military intervention on behalf of threatened clients especially in the third world Also as the Cold War winds down the crusading spirit that has driven superpower competition since the end of World War II appears increasingly anachronistic Expenditures by the superpowers in pursuit of military superiority or even to ensure parity are now criticized for the security they do not provide or for detracting

from economic growth The latter criticism has grown in importance as the U S economy has confronted new challenges from Japan and Germany and as the Soviet economy struggles to avoid collapse Thus when Saddam Hussein s August 1990 invasion of Kuwait challenged the political and economic status quo in the oil rich Middle East neither the United States nor the Soviet Union responded unilaterally Cooperatively they crafted an international consensus to confront the challenge **Africa**
