Worldview Theory, Whiteness, and the Future of Evangelical Faith

Jacob Alan Cook,2021-09-28 The twenty first century has seen energy passing between religious and political worldviews kicking up dust around the identity and conviction based fault lines in American society While many evangelical Christians have developed and deployed a worldview theory to describe and locate themselves within the world's ideological strife Jacob Cook argues this approach has in effect compelled those listening to adopt the world's divisive modes of dealing with difference rather than living out a compelling alternative As a popular framework for theology in recent history world viewing has driven its white evangelical adherents to narrate human lives in this world including their own in ways that warp Christian identity as a personal social and theological reality Through close studies of key white evangelical leaders who utilized the worldview concept for political engagement and cultural transformation over the last century Cook reveals why worldview theory is inept for grasping real human complexity and moreover how it forms a barrier to genuine life together as creatures in a world only the living God can really view In between these studies he draws from current conversations in psychology sociology critical race studies and other fields to deliver a vigorous critique of the worldview concept and its use as well as its underlying impulse and to unmask what world viewing shares with the history and spirit of whiteness This book is for those wrestling with the relationship between Christianity and whiteness in America how the dynamics of whiteness have become transparent and thus contentions and where to go from here if one is to follow Jesus
