South Africa In Southern Africa Domestic Change And International Conflict:

The South African State Transformed? Louis A. Picard, Thomas M. Mogale, Caitlin C. Corrigan, 2024-09-10 This book examines the nature of the 1994 political transition in South Africa and its impact on post apartheid South Africa Specifically it examines the failures of liberalism within the context of the transitional process that led to the institution if not the practice of a non racial state in 1994 The term liberal is an eclectic term defining a several of views political and economic We use the term here within context but essentially define it as a commitment to open views the willingness to consider change and to value basic human rights The nature of institutional change in South Africa as it moved towards a democratic state would influence whether South Africa would succeed as a newly industrializing pluralist democratic country or collapse into yet another African failed state As South Africa moves toward its fourth decade of majority rule the view towards the future is much less promising than it was in 1994

South Africa in Southern Africa Edmond J. Keller, Louis A. Picard, 2023 Critically examines the political economy of change in South Africa considering prospects for the development of majority rule government the social and cultural dynamics of black South Africa and the interaction of external and domestic factors in structuring the processes of change

Disarmament and Defence Industrial Adjustment in South Africa Peter G. Batchelor, Susan Willett, 1998 Peter Batchelor and Susan Willett analyse the response of the South African defence industry to drastic cuts in military expenditure and the demilitarization of society since the end of the cold war and apartheid and the stabilization of the regional security situation The new ANC led government is seeking to use the resources released the peace dividend to restructure and revitalize the country s industrial base and to support reconstruction development and redistribution A lively debate on the country s security needs and strategic doctrine is under way As in other countries strategies of industrial diversification and conversion have met with limited success In the absence hitherto of any coherent government policy on defence industrial adjustment significant skills and technologies have been lost or wasted This book provides a historical analysis of South Africa s unique opportunity to develop new and innovative policies on defence and security matters the arms industry and arms exports and makes a valuable contribution to the international debate on the relationship between disarmament and development

Power-Sharing in the Global South Eduardo Wassim Aboultaif, Soeren Keil, Allison McCulloch, 2024-02-22 Power sharing serves as a popular conflict resolution device at war s end Yet the performance record of such arrangements is highly variable sometimes leading to peace and stability and at other times to immobilism and institutional collapse This book explores the adoption function and dissolution of power sharing arrangements across the Global South including case studies of Colombia Ethiopia Malaysia and Iraq and others to make sense of this mixed record Authors identify a range of contextual factors as well as significant variations in the institutional rules and their meaning across the cases that help to explain divergent power sharing outcomes Emphasis throughout the chapters is placed on system adaptability for power sharing success

Regional Hegemons David J Myers, 2019-06-04 The

bitter U S experience in Vietnam and the pain inflicted on the Soviet Union by its Afghanistan adventure have caused Washington and Moscow to rethink the costs and benefits of unilateral military intervention on behalf of threatened clients especially in the third world Also as the Cold War winds down the crusading spirit that has driven superpower competition since the end of World War II appears increasingly anachronistic Expenditures by the superpowers in pursuit of military superiority or even to ensure parity are now criticized for the security they do not provide or for detracting from economic growth The latter criticism has grown in importance as the U S economy has confronted new challenges from Japan and Germany and as the Soviet economy struggles to avoid collapse Thus when Saddam Hussein's August 1990 invasion of Kuwait challenged the political and economic status quo in the oil rich Middle East neither the United States nor the Soviet Union responded unilaterally Cooperatively they crafted an international consensus to confront the challenge

Security and Politics in South Africa Peter C. J. Vale, 2003 Exploring how the region is changing today as transnational solidarity and a single regional economy remove the distinctions between national and international politics he asks whether South African domination can finally be overcome and considers what sort of cosmopolitan political arrangement will be appropriate for southern Africa in the new century BOOK JACKET
