The Upsurge of Popular Protest***

**By: Martin Murray. Verso. 1987. 496 pp.**

**Reviewed by: Charles McKelvey  
Clemson University**

The African nationalist struggle against European colonial rule is one of the significant developments of the twentieth century, for it has reshaped political structures of the modern world system, and it has challenged the ethnocentrism of Western social science. This African nationalist movement is reaching its final and dramatic chapter in the popular struggle against apartheid in South Africa, the last remnant of formal European colonialism in Africa. Martin Murray's book offers a thoroughly researched and detailed account of this important and painful chapter. The book is especially valuable for those with some knowledge of the history of the struggle in South Africa and who seek a detailed account of the upsurge of popular protest during 1984-86.

The book offers new insights in regard to a number of issues. First, it discusses the divergent ideological trends within the anti-apartheid movement. These trends are represented by the United Democratic Front, the National Forum, and the black trade unions. The United Democratic Front is a federation of community organizations which seeks to form a multi-class and multi-racial coalition of anti-apartheid forces. The National Forum is a federation of community organizations which has ideological roots in black consciousness and which is suspicious of strategies which involve coalition with whites. The black trade unions, especially the most organized, have historically focused on workplace issues and are suspicious of coalition with bourgeois and petty bourgeois elements, regardless of race. Murray shows how all three elements of the anti-apartheid movement have become increasingly anti-capitalist as the struggle has escalated. Secondly, the book discusses regional differences in the struggle, showing the different manifestations of the conflict in the Vaal Triangle, the Eastern Cape, and the Western Cape. Thirdly, the book documents the emergence of vigilantes, which are groups formed by African and European supporters of apartheid. These groups use violence, often with unofficial police sanction, against leaders and activists in the anti-apartheid movement. Fourthly, the book discusses the "people's courts" which have
