South Africa In Crisis:

The Crisis in South Africa John S. Saul, Stephen Gelb, 1986 **South Africa in Crisis** Jesmond Blumenfeld, 2022-10-05
Originally published in 1987 South Africa in Crisis documents the perceptions and policies of all the major interest groups in South Africa during the 1980s when the long running struggle for ultimate political power in South Africa entered a new phase It analyses their responses to the state of ferment and vicious circle of political and economic decline which ensued in the anti apartheid struggle and examines the developing pressures both from within and outside the country Of particular importance for the process was the relationship between internal reactions to the crisis and the diverse and unprecedented set of political military and economic pressures which were interjected from abroad **Afrikaners in the New South Africa** Rebecca Davies, 2009-02-28 How has the position of Afrikaners changed since the end of the Apartheid regime in South Africa While the links between Afrikaner nationalist identity and the apartheid regime have been irrevocably altered it is evident that this newly disempowered minority still commands a vast material and cultural capital Certain Afrikaans speakers have become important players in the new South Africa and on the world stage Davies argues that the global political economy and the closely associated ideology of globalization are major catalysts for change in Afrikaner identifications and positions She identifies multiple Afrikaner constituencies and identities and shows how they play out in the complex social economic and political landscape of South Africa Accessible informative and well written Afrikaners in the New South Africa is a vital contribution to our understanding of post apartheid South Africa It will be indispensable for those interested in South Africa identity politics globalization international political economy and geography The Pitfalls of Liberal Democracy and Late Nationalism in South Africa M. Muiu, 2008-12-08 This book compares African and Afrikaner nationalisms to demonstrate that the transition from apartheid to liberal democracy in South Africa was a neo colonial settlement that left the economy and the military and security sectors under the control of the white minority while increasing wide socioeconomic disparities between rich and poor **Studies in the Economic History of Southern Africa** Z.A. Konczacki, Jane L. Parpart, Timothy M. Shaw, 2014-01-14 First Published in 1990 Volume Two of Studies of Economic History of South Africa looks at the Lesotho and Swaziland regions The unfolding history and historiography of Southern Africa pose profound challenges for both analysis and praxis in the last decade of the twentieth century These challenges are reflected in the range of investigations and contradictions some of which are treated here which together constitute an intellectual and political conjuncture This collection of studies deals with the countries which were not included in the companion book on the economic history of the Front Line States Most of the space in the present volume is devoted to South Africa primarily because of its importance to the region but also because contributions to the economic history of that country in English are very extensive as compared to the other states of Southern Africa **South Africa's Economic Crisis** Stephen Gelb, 1991 **The Roots of Crisis in Southern Africa** Ann Willcox Seidman, 1985 **South Africa's**

Water Predicament Anja du Plessis, 2023-01-13 The book provides a critical evaluation of South Africa's freshwater resources to illustrate the way in which its freshwater resources, water access services and infrastructure have continued to decline over the past three decades. The continued decline of water governance, management, water service delivery, dilapidated water infrastructure, dysfunctional local governments and overall excessive water degradation is illustrated and emphasized using real-life examples and case studies from various contexts within the country. The main argument of the book is that South Africa's freshwater resources have declined to such an extent that it can be described as a predicament. Questionable water governance decisions and reactive water management practices have led to no improvement and/or increased degradation of freshwater resources. An overall lack of service delivery exists across the country in various contexts, leading to further water and social decline. An interdisciplinary evaluation of South Africa's current water predicament is provided; major water crises are prioritized and suitable recommendations are given to transform its predicament into problems which can be addressed. Suitable background information is given to emphasize the necessity of good water governance, management and service delivery. South Africa's freshwater resources are evaluated with specific focus on the decline of informed water governance, management, service delivery and water quality. Factors requiring urgent attention are determined and suitable recommendations and/or actions are provided. An evaluation and overall synthesis focused on the transformation of the predicament into problems is provided. Primary water problems are prioritized according to urgency and suitable recommendations are given to assist in transforming the country's current complex water predicament into simpler water problems. Political will, collaboration with researchers, stakeholders, non-governmental organizations and cooperation of civil society is required. South Africa's already scarce freshwater resources and decaying infrastructure will persist and possibly collapse if no major actions or interventions are implemented. *Zimbabwe's Migrants and South Africa's Border Farms* Maxim Bolt, 2015-09-25 During the Zimbabwean crisis, millions crossed through the apartheid-era border fence searching for ways to make ends meet. Maxim Bolt explores the lives of Zimbabwean migrant labourers, settled black farm workers and their dependants, and of white farmers and managers as they intersect on the border between Zimbabwe and South Africa. Focusing on one farm, this book investigates the role of a hub of wage labour in a place of crisis. A close ethnographic study, it addresses the complex shifting labour and life conditions in northern South Africa's agricultural borderlands. Underlying these challenges are the Zimbabwean political and economic crisis of the 2000s and the intensified pressures on commercial agriculture in South Africa following market liberalization and post-apartheid land reform. But amidst uncertainty, farmers and farm workers strive for stability. The farms on South Africa's margins are centers of gravity, islands of residential labour in a sea of informal arrangements. *A History of South Africa* Leonard Thompson, 2014-04-29 A magisterial history of South Africa from the earliest known human inhabitation of the region to the present. Lynn Berat updates this classic text with a new chapter chronicling the first presidential term of Mbeki and ending

with the celebrations of the centenary of South Africa's ruling African National Congress in January 2012. A history that is both accurate and authentic, written in a delightful literary style. Archbishop Desmond Tutu. Should become the standard general text for South African history. Recommended for college classes and anyone interested in obtaining a historical framework in which to place events occurring in South Africa today. Roger B Beck. History Reviews of New Books

Southern Africa in Crisis: Regional and International Responses International Peace Academy, 2024-12-09 **The crisis in South Africa**, 1978 **Foreign Policy in Post-Apartheid South Africa** Adekeye Adebajo, Kudrat Virk, 2017-12-18

South Africa is the most industrialized power in Africa. It was rated the continent's largest economy in 2016 and is the only African member of the G20. It is also the only strategic partner of the EU in Africa. Yet despite being so strategically and economically significant, there is little scholarship that focuses on South Africa as a regional hegemon. This book provides the first comprehensive assessment of South Africa's post-Apartheid foreign policy. Over its 23 chapters and with contributions from established Africa, Western, Asian, and American scholars, as well as diplomats and analysts, the book examines the current pattern of the country's foreign relations in impressive detail. The geographic and thematic coverage is extensive, including chapters on the domestic imperatives of South Africa's foreign policy, peace making, defence and security, bilateral relations in Southern, Central, West, Eastern, and North Africa, bilateral relations with the US, China, Britain, France, and Japan, the country's key external multilateral relations with the UN, the BRICS, economic grouping, the African Caribbean and Pacific Group, ACP, as well as the EU and the World Trade Organization, WTO. An essential resource for researchers, the book will be relevant to the fields of area studies, foreign policy, history, international relations, international law, security studies, political economy, and development studies.

The Crisis, 2007-01. *The Crisis*, founded by W. E. B. Du Bois, as the official publication of the NAACP, is a journal of civil rights, history, politics, and culture and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color. For nearly 100 years, *The Crisis* has been the magazine of opinion and thought, leaders, decision makers, peacemakers, and justice seekers. It has chronicled informed, educated, entertained, and in many instances set the economic, political, and social agenda for our nation and its multi-ethnic citizens.

A Country At War With Itself Antony Altbeker, 2010-09-13. Crime is tearing South Africa apart. Whether it is hijacking or rape, a home robbery or a husband's explosion of rage, violence is so common that few lives have been left untouched by it. The result is a society deformed by its fears, closeted behind locked doors and high walls, panic buttons at the ready. Members of the middle class live lives haunted by fear. The poor, who are both more likely to be victimised and less able to secure themselves, are just as traumatised. *A Country at War with Itself* is a penetrating exploration of South Africa's crime problem. Getting behind the statistics to offer a sober and sobering account of the scale of the problem and its evolution, it describes how government has sometimes sought to deal with the crisis and sometimes sought to deny its existence. The book ends with some suggestions of what needs to be done to deal with this scourge.

Nigeria's Stumbling Democracy and Its Implications for Africa's Democratic Movement Victor Oguejiofor Okafor, 2008-07-30 Nigeria's Stumbling Democracy and its Implications for Africa's Democratic Movement is the first book to recount and analyze Nigeria's controversial general elections of April 2007. Because Nigeria's immense and diverse population of 140 million people and its wealth of natural resources make it a microcosm of Africa, Nigerian politics are an ideal case study and bellwether by which to view and understand African politics and the ongoing democratic experiments on the continent. Ten leading scholars of Nigerian and African politics, variously based in Nigeria, the US, and Europe, contribute original chapters commissioned by Professor Okafor to provide an account at once deep and comprehensive of what went wrong with these disputed presidential, federal, and state elections, together with their implications for the future of the democratic movement both in Nigeria and in Africa as a whole. Although the 2007 general elections resulted in the first ever handover of political power from one civilian government to another in the history of Nigeria, by which the two-term Christian president Olusegun Obasanjo was succeeded by a Muslim Alhaji Musa Yar Adua, they were condemned by internal and international watchdogs for pervasive vote rigging, violence, intimidation, and fraud, which were, as this book documents, perpetrated by and with the connivance of the nation's security forces. The disappointment of continental hopes that these elections might finally break with Nigeria's history of tainted elections has grave repercussions for the democracy movement, not only in Nigeria but throughout Africa, as seen in the knock-on effect upon the disastrous general elections in Kenya later the same year.

The War in Southern Africa MIGUEL JUNIOR, 2021-01-13 This book on the national strategy of Angola targets several objectives. First, to attest that the newly independent Angolan state also formulated a national strategy in the light of its political and philosophical vision. The Angolan state during the period under consideration had its own structured vision which prevented it from going adrift and playing second fiddle within the context of political and military confrontation in Southern Africa. Second, to demonstrate that the Angolan state structured its own strategic thought to tackle the regional armed confrontation and the different internal and external challenges.
