South Africa In Transition New Theoretical Perspectives:

South Africa in Transition Aletta J. Norval, David Howarth, 2016-07-27 South Africa in Transition utilises new theoretical perspectives to describe and explain central dimensions of the democratic transition in South Africa during the late 1980s and early 1990s covering changes in the politics of gender and education the political discourses of the ANC NP and the white right constructions of identity in South Africa's black townships and rural areas the role of political violence in the transition and accounts of the democratization process itself *South Africa in Transition* David R. Howarth, Aletta J. Norval, 2003

The Legacies of Law Jens Meierhenrich, 2008-10-13 Focusing on South Africa during the period 1650-2000 this book examines the role of law in making democracy work in changing societies The Legacies of Law sheds light on the neglected relationship between path dependence and the law Meierhenrich argues that legal norms and institutions even illiberal ones have an important and hitherto undertheorized structuring effect on democratic outcomes Under certain conditions law appears to reduce uncertainty in democratization by invoking common cultural backgrounds and experiences In instances where interacting adversaries share qua law reasonably convergent mental models transitions from authoritarian rule are shown to be less intractable Meierhenrich's historical analysis of the evolution of law and its effects in South Africa during the period 1650-2000 compared with a short study of Chile from 1830-1990 shows how and when legal norms and institutions serve as historical causes to both liberal and illiberal rule

Disabling Globalization Gillian Patricia Hart, 2002 An unequivocally excellent work of scholarship that makes significant theoretical and empirical contributions to the understanding of globalization and the working of contemporary neo liberal capitalism Hart is especially innovative in placing the study of Taiwanese industrialists in South Africa in relation to both the agrarian history of Taiwan and China and the way that Taiwanese overseas firms have operated in places other than South Africa It is a very rare combination of talents and knowledge that makes such a study possible

James Ferguson author of *Expectations of Modernity* **Political Memory and the Aesthetics of Care** Mihaela Mihai, 2022-01-11 With this nuanced and interdisciplinary work political theorist Mihaela Mihai tackles several interrelated questions How do societies remember histories of systemic violence Who is excluded from such histories cast of characters And what are the political costs of selective remembering in the present Building on insights from political theory social epistemology and feminist and critical race theory Mihai argues that a double erasure often structures hegemonic narratives of complex violence of widespread heterogeneous complicity and of impure resistances not easily subsumed to exceptionalist heroic models In dialogue with care ethicists and philosophers of art she then suggests that such narrative reductionism can be disrupted aesthetically through practices of mnemonic care that is through the hermeneutical labor that critical artists deliver thematically and formally within communities space of meaning Empirically the book examines both consecrated and marginalized artists who tackled the memory of Vichy France communist Romania and apartheid South Africa Despite their specificities these contexts present us with an opportunity to analyze similar mnemonic dynamics and to recognize the political impact of dissenting artistic production Crossing disciplinary boundaries the book intervenes in debates over collective responsibility historical injustice and the aesthetics of violence within political theory memory studies social epistemology and transitional justice **Ethnicity and Nationalism in Africa** P. at who arranges hits where to find a hitman and even what it is like to operate as a hitman or woman Since 1994 South Africa has seen a worrying increase in the commercialisation of murder and has been rocked by several high profile contract killings Drawing on his research of over a thousand incidents of hired assassinations from 2000 to 2016 Shaw reveals how these murders are used to exert a mafia type control over the country s legal and illegal economic activity Contracted assassinations and the organised criminal activity behind them contain sinister linkages with the underworld most visibly in relation to disputes over tenders and access to government resources State security actors increasingly mediate relations between the under and upper worlds with serious implications for the long term success of the post apartheid democratic project
