South Africa Reasons To Believe:

The Age of Responsibility Wayne Visser, 2011-03-08 This landmark book shows how the old model of corporate sustainability and responsibility is being replaced by a second generation movement that goes beyond the outmoded approach of CSR as philanthropy or public relations concern to a more authentic stakeholder driven model The author describes the new concept and mission of the new movement and explains its agenda in a succinct guide that will be useful for CSR professionals including managers consultants academics and non governmental organizations **Moral Issues and Multinational Corporations** Gerard Elfstrom, 1991-05-13 **South Africa** Guy Lundy, Wayne Visser, 2003 All South Africans at home and abroad face a critical choice Either we choose to embrace our country with a positive constructive and engaging spirit or we choose pessimism fear and misery *Race and Regionalism in the Politics of Taxation in Brazil and South Africa* Evan S. Lieberman, 2003-09 Table of contents **Reason Without Freedom** David Owens, 2002-11 Arguing that the major problems in epistemology have their roots in concerns about our control over our beliefs David Owen presents a critical discussion of the current trends in contemporary epistemology **The Moral Ecology of South Africa's Township Youth** S. Swartz, 2009-11-23 This book provides an engaging account of the moral lives of young black South Africans once the struggle against apartheid ended and took away their object of political resistance It shows how partial parenting partial schooling and pervasive poverty contributes to how a group of young people construct right and wrong and what rules govern their behavior Congressional Record United States. Congress, 1994 From Apartheid to Zaanheid Neville John Melville, 2004 After a decade of democracy the widening of the wealth poverty divide primarily along racial lines threatens the stability and sustainability of our young democracy **Zero Hour: A Countdown to the Collapse of South Africa's Apartheid System** Geoffrey Hebdon, 2022-07-15 This enlightening book focuses on the history of how the ethnic groups of Africa eventually joined by white colonizers from Europe created the seedbed for the hateful apartheid system in Southern Africa The reader learns how apartheid began the dehumanizing effects it had on the black population and how it was finally abolished in its zero hour in 1994 Written by historian writer and researcher Geoffrey Hebdon this is the second in a series that covers the experience of a British citizen who emigrated to South Africa during that era and records in vivid detail his responses to the apartheid system and how South Africa and neighbouring countries evolved after apartheid was abolished As well as the first European settlers and the white Afrikaners attempted enslavement of the black population the book also covers the Zulu wars the Anglo Boer wars and individuals who supported apartheid such as Cecil Rhodes and the whites only National Party of South Africa Also covered are prominent leaders of the African National Congress ANC and the black revolutionaries who fought against apartheid many of whom gave their lives or served life sentences for their struggle including Nelson Mandela who became South Africa's first black president after serving years in prison Federal Register, 1999-03 BRICS and Resistance in Africa Justin van der Merwe, Patrick Bond, Nicole Dodd, 2019-10-15 Though initially

considered a welcome counterweight to Western interest across Africa the BRICS are increasingly being viewed as another example of foreign interference and exploitation BRICS and Resistance in Africa explores the varied forms of African resistance being developed in response to the growing influence of the BRICS Its case studies cover such instances as the opposition to China's One Belt One Road initiative in East Africa resistance to the BRICS oil activities in the Niger Delta and the role of the BRICS in Zimbabwe's political transition The contributors expose the contradictions between the group's rhetoric and its real impact as well as the complicity of local elites in serving as proxies for the BRICS nations By challenging and expanding the debates surrounding BRICS involvement in Africa this collection offers new insight into resistance to globalization in the global South
