## **South African Truth Commission:**

**The South African Truth Commission** Dorothy C. Shea, 2000 In the latter half of the 1990s South Africa's Truth and Reconciliation Commission TRC offered the country the chance to build a better future by facing up to its past Amid saturation media coverage victims of human rights abuses told their harrowing stories and perpetrators confessed to horrendous acts Meanwhile the commissioners grappled with decisions that would not only apportion responsibility and grant or deny amnesty but also have a profound political and social impact To this highly charged controversial subject Dorothy Shea brings a rare combination of objectivity thoroughness and a firm grasp of both the principles and the political interests at stake She begins by investigating the origins of the TRC in South Africa's transition from apartheid to democracy and she examines the extent to which it learned from the experiences of earlier Latin American commissions Then she focuses on how the politics of the TRC were played out in issues such as amnesty reparations and prosecutions Her report on the TRC offers a generally positive assessment and explains not only how South Africa measured up but also why Finally Shea draws lessons from the TRC experience that may help to inform future efforts to shape and establish truth commissions in other transitional societies

**The South African Truth Commission** Kenneth Christie, 2000-01-01 The South African Truth Commission assesses different versions of the South African past the complex negotiations leading to the establishment of the Commission and the complex politics of amnesty justice and nation building *The Limits of Transition: The South African Truth and Reconciliation Commission 20 Years on* Mia Swart, Karin van Marle, 2017-08-28 The South African Truth and Reconciliation Commission was a noble attempt to begin to address the continuing traumatic legacy of Apartheid This interdisciplinary collection critiques the work of the TRC 20 years since its establishment Taking the paralysing political and social crises of the mid 1990s in South Africa as starting point the book contains a collection of responses to the TRC that considers the notions of crisis judgment and social justice It asks whether the current political and social crises in South Africa are linked to the country's post apartheid transitional mechanisms specifically the TRC The fact that the material conditions of the lives of many Apartheid victims have not improved forms a major theme of the book Collectively the book considers the unfinished business of the TRC

*Truth and Reconciliation in South Africa* Hugo van der Merwe, Audrey R. Chapman, 2008-02 Of the truth commissions to date the South African Truth and Reconciliation Commission TRC has most effectively captured public attention throughout the world and provided the model for succeeding bodies Although other truth commissions had preceded its establishment the TRC had a far more expansive mandate to go beyond truth finding to promote national unity and reconciliation to facilitate the granting of amnesty to those who made full factual disclosure to restore the human and civil dignity of victims by providing them an opportunity to tell their own stories and to make recommendations to the president on measures to prevent future human rights violations

**Performing South Africa's Truth Commission** Catherine M. Cole, 2010 Spectacles of legality performance transitional justice and the law Justice in

Eyes and ears of the nation television and the implicated witness Dragons in the living room truth and reconciliation in

### **South African Literature After the Truth**

**Commission** Shane Graham, 2009-04-15 In the wake of apartheid South African culture conveys the sense of being lost in  
time and space The Truth Commission provided an opportunity for South Africans to find their bearings in a nation changing  
at a bewildering pace the TRC also marked the beginning of a long process of remapping space place and memory In this  
groundbreaking book Shane Graham investigates how post apartheid theatre makers and writers of fiction poetry and  
memoir have taken this project forward using their art to come to terms with South Africa's violent past and rapidly changing  
present

**The South African Truth Commission** Kenneth Christie, 2000 Over the last 30 years many political transitions  
from authoritarian regimes and dictatorial political systems have been accompanied by Truth Commissions Since 1974 there  
have been over 20 of these Commissions established in countries as diverse as Argentina Chile Uruguay Bolivia El Salvador  
Ethiopia the Philippines and Germany among others Perhaps the most important Truth Commission of our time is the South  
African one which also seeks to act as a mechanism for reconciliation in a divided society The South African conflict was  
extremely long and violent its victims suffered traumatic experiences and in part one of the Commission functions is to allow  
their story to be told This book tries to examine the Truth Commission in South Africa and the issues that surround it  
assessing different versions of the South African past and the complex negotiations leading to the establishment of the  
Commission and the complex politics of amnesty justice and nation building

### **South Africa's Truth and Reconciliation**

**Commission** Muhammed Haron, 2009 The South African Truth and Reconciliation Commission An Annotated Bibliography is  
a much needed reference work for those who are studying and pursuing the outcomes of Truth Commissions around the  
world However it is also a valuable tool for all researchers from diverse disciplines For example those specialising in the  
fields of sociology political science and literature will find material that appeals and is relevant to their areas of research  
There is little doubt that students and researchers pursuing courses such as Conflict Resolution Good Governance and  
International Relations would find this compilation more than beneficial since it covers not only an assortment of themes but  
it also includes ingenious cartoons by the famous Zapiro and memorable photographs by George Hallet In addition the  
compiler also inserted a select number of poems that dealt with the issues and themes related to the TRC process

*The Brazilian Truth Commission* Nina Schneider, 2019-05-10 Bringing together some of the world's leading scholars practitioners  
and human rights activists this groundbreaking volume provides the first systematic analysis of the 2012 2014 Brazilian  
National Truth Commission While attentive to the inquiry's local and national dimensions it offers an illuminating  
transnational perspective that considers the Commission's Latin American regional context and relates it to global efforts for  
human rights accountability contributing to a more general and critical reassessment of truth commissions from a variety of

viewpoints      *African Truth Commissions and Transitional Justice* John Perry, T. Debey Sayndee, 2015-04-22 African Truth Commissions and Transitional Justice examines the functioning of truth commissions in Africa outlining the lessons learned the best practices and the successes and failures of seven African truth commissions Its introduction and conclusion then work further to place truth commissions within the growing academic field of transitional justice The first African truth commission was convened by the despot Idi Amin for reasons unrelated to the defense of human rights but despite this ambiguous beginning other African truth commissions have done important work The South African Truth and Reconciliation Commission of 1996 has become the gold standard for future truth commissions not only in Africa but throughout the world it unearthed much truth about the Apartheid era abuse of human rights and took vital first steps towards restorative justice in the Republic Each truth commission is distinctive However although much has been written about South Africa's truth commissions much less is known about the other six studied in this book and an attentive reader will notice the suggestive patterns which emerge      **Reconciliation Discourse** Annelies Verdoelaege, 2008-02-06 This volume is a research monograph analysing the South African Truth and Reconciliation Commission TRC from an ethnographic linguistic point of view The central proposition of this book is that the TRC can be regarded as a mechanism that leads to the hegemony of specific discourses thus exercising power The analysis illustrates how through a certain type of reconciliation discourse constructed at the TRC hearings a reconciliation oriented reality took shape in post TRC South Africa Basically the study points to the long term implications a truth commission can exert on a traumatised post conflict society The book is unique on several levels TRC discourse is explored in depth on the basis of personal stories from TRC testifiers a combination of Poststructuralist and Critical Discourse Analysis approaches form the theoretical foundations and an extensive bibliography provides an impressive database of TRC publications      Corporations, Accountability and International Criminal Law Kyriakakis, Joanna, 2021-12-09 This timely book explores the prospect of prosecuting corporations or individuals within the business world for conduct amounting to international crime The major debates and ensuing challenges are examined arguing that corporate accountability under international criminal law is crucial in achieving the objectives of international criminal justice      *Liberalism and War* Andrew Williams, 2013-04-03 Military power is now the main vehicle for regime change The US army has been used on more than 30 different occasions in the post Cold War world compared with just 10 during the whole of the Cold War era Leading scholar Andrew Williams tackles contemporary thinking on war with a detailed study on liberal thinking over the last century about how wars should be ended using a vast range of historical archival material from diplomatic other official and personal papers which this study situates within the debates that have emerged in political theory He examines the main strategies used at the end and in the aftermath of wars by liberal states to consolidate their liberal gains and to prevent the re occurrence of wars with those states they have fought This new study also explores how various strategies revenge restitution reparation restraint retribution reconciliation and reconstruction have been used

by liberal states not only to defeat their enemies but also transform them This is a major new contribution to contemporary thinking and action This book will be of great interest to all students and scholars of politics international relations and security studies

**Listening to the Silences: Women and War** Helen Durham, Tracey Gurd, 2005-06-01 Challenging the perception that women are exclusively the victims the caregivers or the passive supporters of men in times of armed conflict *Listening to the Silences Women and War* exposes the reader to a diversity of women's voices These voices both personal and academic demonstrate that women are increasingly taking on less traditional roles during war and that these roles are multifaceted complicated and sometimes contradictory The experiences of a judge forensic anthropologist survivor of sexual slavery soldier activist journalist humanitarian worker and others provide the reader with the opportunity to consider the depth of women's involvement in armed conflict Their voices highlight the fact that the international community at large has historically failed to listen to women even as they have tried to tell their own individual tales of horror heroism courage devastation betrayal violence and integrity during armed conflict Concurrently the book examines in detail the legal infrastructure in this area including debates on the adequacy of international law developments in jurisprudence and the implementation of international resolutions This book reveals that responses to women's requirements during times of war will continue to be inadequate so long as we persist in silencing these differing perspectives and fail to take account of women's dynamic and changing needs during war *Listening to the Silences Women and War* is a collection of women's voices each of which makes a unique contribution to a topic that is gathering international momentum and interest The perspectives of these women greatly enhance our understanding of the gendered dimensions of armed conflict they help to move the discourse beyond silence and towards inclusion greater understanding and peace

**Truth Commissions** Onur Bakiner, 2016-01-15 Onur Bakiner evaluates the success of truth commissions in promoting political judicial and social change He argues that even when commissions produce modest change as a result of political constraints they open new avenues for human rights activism and transform public discourses on memory truth justice and reconciliation

*Truth and Reconciliation in South Africa* Lyn S. Graybill, 2002 Graybill mind and human interaction U of Virginia provides students not only the facts about the South African Truth and Reconciliation Commission but also the broader context in which it operated She asks whether it led to reconciliation and healing what criteria were used to decide whether to pardon or punish whether politics necessitated the compromise and other questions Annotation copyrighted by Book News Inc Portland OR

*Ubu and the Truth Commission* Jane Taylor, William Kentridge, Handspring Puppet Company, 1998 *Ubu* and the Truth Commission is the full play text of a multi dimensional theatre piece that tries to make sense of the madness that overtook South Africa during apartheid

**Justice Unbound** Patrizia Longo, 2018-12-17 This important anthology provides students and teachers with voices of social and global justice that have been marginalized or forgotten by history It gives thought leaders from the Global South a platform and engages the voices of oppressed communities including Charles Mills and Franz Fanon and Ella

Baker This text is a comprehensive analysis of modern and contemporary theories of justice Since the publication in 1971 of John Rawls s A Theory of Justice there has been much debate on his views from both the right and the left of the political spectrum But there is a lack of textbooks that provide not only a compilation of substantial selections on challenges to Rawls s theory from feminist and postcolonial scholars but that also include writings by non white and non Western authors on different aspects of justice This book fills this huge gap and brings together many influential writings on the topic of justice that are often omitted in philosophy and political theory collections This work addresses complex issues in an increasingly diverse society      *Truth Commissions and Criminal Courts* Alison Bisset,2012-04-16 A multi level analysis of truth commissions and courts in the ICC era      **Guilty Pleas in International Criminal Law** Nancy Amoury Combs,2007 International crimes such as genocide and crimes against humanity are complex and difficult to prove so their prosecutions are costly and time consuming As a consequence international tribunals and domestic bodies have recently made greater use of guilty pleas many of which have been secured through plea bargaining This book examines those guilty pleas and the methods used to obtain them presenting analyses of practices in Sierra Leone East Timor Cambodia Argentina Bosnia and Rwanda Although current plea bargaining practices may be theoretically unsupportable and can give rise to severe victim dissatisfaction the author argues that the practice is justified as a means of increasing the proportion of international offenders who can be prosecuted She then incorporates principles drawn from the domestic practice of restorative justice to construct a model guilty plea system to be used for international crimes
