South Africa's Destabilisation of Zimbabwe:

South Africa's Destabilisation of Zimbabwe, 1980-89 J. Dzimba, 1998-01-01 South Africa's Apartheid regime saw Zimbabwean independence and black majority rule in 1980 as a major threat to its interests security and regional hegemony John Dzimba explains how and why Pretoria sought to destabilise Zimbabwe and other front line states examining the successes and failures of destabilisation against Zimbabwe's economic and political vulnerabilities and attempted responses He shows why P W Botha's crisis ridden regime had to drop the policy in 1989 The Road to Democracy in South Africa South African Democracy Education Trust, 2024-12-02 This book examines the contributions made by the governments organisations and African people on the ground throughout the continent towards the realisation of the South African dream in 1994 The chapters provide detailed insight into the roots of the continent's liberation from colonialism The subject matter in this book also discusses The anti apartheid struggle Caribbean solidarity with the South African struggle Botswana's role in South African liberation Black internationalism The involvement of the ANC Print editions not for sale in Sub Saharan Africa This book is part of Routledge's co published series 30 Years of Democracy in South Africa in collaboration with UNISA Press which reflects on the past years of a democratic South Africa and assesses the future opportunities and challenges A History of Zimbabwe A. S. Mlambo, 2014-04-07 Examines Zimbabwe's pre colonial colonial and postcolonial social economic and political history and relates historical factors and trends to more recent developments in the country

Namibia's Independence Struggle Cleophas Johannes Tsokodayi, 2011-01-01 **Zimbabwean Literature in African Languages** Emmanuel Chiwome, Zifikile Mguni, 2012 The scope of this book is Ndebele and Shona literature with emphasis on post independence publications African literature in English has received more critical attention than literature in indigenous languages The former has occupied centre stage as representing national literature while modern literature in indigenous languages occupies the intermediate lower stratum that is accorded to national languages in the colonial and post independence eras The objective of the study is to combine some of the different genres of literature in indigenous languages in an attempt to understand them on the basis of their common history and culture While colonialism has promoted and interpreted differences among Zimbabwean ethnic communities as evidence of polarisation the authors here view African language literatures as parts of one great whole Urban Informality in South Africa and Zimbabwe Innocent Moyo, Trynos Gumbo, 2021-01-09 This book adds to the research of urban informality in the Global South with a specific focus on South Africa and Zimbabwe It addresses the agency and the potential transformative capacity of the phenomenon of urban informality in connection with Southern African cities and towns It adopts a political economy approach to analyse the evolution of informality in cities and its implications for urban planning It brings to bear how the South African and Zimbabwean historical and or ideological and contemporary political and economic trajectories have impacted on the ever changing nature of urban informality both spatially and structurally and or compositionally thus resulting in unique urban

materialities which are aspects that have scarcely been studied or discussed in the extant literature This book therefore seeks to close the academic gap by dealing with the dearth of literature on spatial re locational discourses of urban informality The work positions urban informality as a resilient force with potency in terms of political mobilisation and re shaping urban spaces Though these are fundamental issues they have received comparatively little attention especially in literature that focuses on the Southern African region Accordingly undergraduate and post graduate students as well as academics in the fields of Urban Geography Political Science Development Studies Sociology Town and Regional Planning among others will find the range of topics and depth of coverage in this book particularly valuable Similarly practitioners and activists on issues of urban informality and urban governance will find the book very useful

Structural Adjustment in Africa Bonnie Campbell, John Loxley, 1989-11-24 Providing overviews of states and sectors classes and companies in the new international division of labour this series treats polity economy dialectics at global regional and national levels This volume in the series looks at the complexities of structural adjustment in Africa

The Struggle over State Power in Zimbabwe George Hamandishe Karekwaivanane, 2017-11-09 The establishment of legal institutions was a key part of the process of state construction in Africa and these institutions have played a crucial role in the projection of state authority across space This is especially the case in colonial and postcolonial Zimbabwe George Karekwaivanane offers a unique long term study of law and politics in Zimbabwe which examines how the law was used in the constitution and contestation of state power across the late colonial and postcolonial periods Through this he offers insight on recent debates about judicial independence adherence to human rights and the observation of the rule of law in contemporary Zimbabwean politics The book sheds light on the prominent place that law has assumed in Zimbabwe s recent political struggles for those researching the history of the state and power in Southern Africa It also carries forward important debates on the role of law in state making and will also appeal to those interested in African legal history

Thede, 1993-12-13 The book takes a hard look at internal developments and class formation in the region and explores the complex dynamics underlying the failure of socialist transformation demystifying the highly simplified destabilisation thesis and pointing to some of the problems that forces for change in South Africa itself may have to face in the 1990s The chapters make significant reference to changing present and future relations with South Africa and to the impact of internal changes on the development of neighbouring countries

Msabaha, 2019-03-13 The 1984 Nkomati Accord a bilateral security agreement between South Africa and Mozambique to eliminate guerrilla threats on both sides of a common border was a milestone in regional confrontation and cooperation Yet

the real challenge to the white South African regime is not external it is internal opposition to apartheid This volume written by leading African scholars begins by exploring the origins of racism and nationalism in Southern Africa The contributors discuss the spread of nationalist movements throughout the region arguing that South Africa has attempted to resist divert or undermine the domino effect by capitalizing on the Nkomati Accord The authors focus on the legal aspects of the Accord its impact on the foreign and defense policies of the Front Line States prospects for regional development and economic integration and potential outcomes of the national liberation struggles in Southern Africa

Beggar Your Neighbours Joseph Hanlon, 1986 comprehensive in its coverage exacting in its standards of description and interpretation and almost faultless in its use of source material and existing literature Anti Apartheid News an excellent compendium of information on the military and economic power that South Africa applies in dealing with its neighbors Foreign Service Journal important for the shaping of Western policy toward South Africa The Book Exchange impressive indispensable Third World Book Review This is a very important book Social Dynamics Hanlon pieces together the details of South Africa's military attacks on its neighbors and relates them to the control the South African state exercises through its economic power

From Dutch South Africa to Republic of South Africa 1652-1994 (The Story of Three and a Half Centuries of Imperialism) Daleep Singh, 2010-11-01 Colonisation of South Africa began on April 8 1652 when a force of 90 men under the command of Von Riebeeck of the Dutch East India Company occupied the Cape The Dutch rule lasted for a little less than 150 years The British army took over when it defeated the Dutch forces in Europe in 1795 and remained till 1993 This book is a modest attempt to capture the economic and social history of this region spanning this period of White domination The book is divided in five parts Part I discusses in detail the Dutch and the early rule in South Africa The main socio economic event of the Dutch Colonisation was the introduction of slavery in March 1658 Interestingly the slaves outnumbered white colonists for nearly 100 years resulting in a dominant and overwhelmingly large proportion of the colony's output being contributed by the slaves Part II and III cover the early British rule of 1806 1902 It also covers the Great Boer Trek of 1834 1850 and four Imperialist wars two each against the Zulus and the Boers including the second Boer War of 1899 1902 This part also covers the evolution and growth of capitalism in South Africa in agriculture mining and manufacturing industry Part IV describes the destabilisation of Southern African states by Apartheid South Africa Part V finally discusses the dependence syndrome in Southern Africa There has been considerable worldwide interest on the subject of independence of South Africa and the role of its architect Mr Nelson Mandela There is unanimity that he has empowered the local people and there is a democratic government in place giving due recognition to the majority of population South Africa has over the last two decades emerged as a regional Power and has the potential to help neighbouring states in their economic and political development

The Geopolitics of Regional Power Sören Scholvin, 2016-03-09 In the last two decades various states from the Global South have emerged as important players in international relations Most popular among them is China Brazil India and South

Africa have also taken essential roles in global and regional politics Compared to traditional great powers they can be labelled regional great powers or regional powers because their influence is with the exception of China concentrated on their neighbourhood The impact of regions meaning the impact of geography on the economics and politics of regional powers is surprisingly understudied This book analyses how geographical conditions influence the regional economics and politics of South Africa allowing the author to delineate its region of influence *African International Relations* Mark W.
