Zayn R. Kassam, 2017-06-22 Covering eclectic topics ranging from South Asian religion to motherhood to world dance to ethnomusicology this book focuses on contemporary selected experiences of women and how their lives interface with religion Religion has often been perceived as the source of constriction for women s roles in society This volume explores how modern women across Asia are mobilizing their faith traditions to address existential issues encountered in both the public and private realms relating to economics public participation politics and culture As such it is revealed that religion can be a powerful force for social change and ameliorating women s lives despite use of religious doctrine in the past to limit women Editor Zayn R Kassam PhD and the contributors cover not only the

commonly considered Asian traditions of Hinduism Islam and Buddhism but also Christianity Judaism Bahai and indigenous traditions The book reveals that the challenges and opportunities Asian women face arise both from within and outside whether in terms of developments within their countries or in relation to international political and economic regimes The chapters explore how the issues Asian women face have as much to do with cultural and religious codes as they do with politics economics education and the law consider the varying ways in which family and motherhood are affected by the state s construction of the gendered citizen by social constructs of motherhood and by policies regarding women and children s access to health care and identify the roles played by religion and spirituality in these circumstances The British Library General Catalogue of Printed Books, 1986 to 1987 British Library,1988 **Women's Football in the UK** Jayne Caudwell,2013-10-18 This book examines the complex ways in which girls and women experience football cultures in Britain It extends current debate surrounding women and football namely how gender has functioned to shape women s experiences of playing the game by focusing on organisational administrative and coaching practices alongside the particular issues surrounding sexuality ethnicity and disability not only gender The book analyses football and gender to reveal the subtle forms of discrimination that persist It is important to highlight the many challenges and transformations made by girls and women but more importantly to consider the ways power continues to operate to devalue and undermine girls and women involved in the game The UK based authors make use of their recent research findings to offer critical debate on girls and women s current experiences of British football cultures Overall the book reveals the present day complexities of marginalisation and exclusion This book was published as a special issue of Sport and Society Index of Conference Proceedings Received British Library.
