[Adapa and the South Wind](#) Shlomo Izre'el, 2001-06-30 The scholarly world first became aware of the myth of Adapa and the South Wind when it was discovered on a tablet from the El Amarna archive in 1887 We now have at our disposal six fragments of the myth The largest and most important fragment from Amarna is dated to the 14th century B C E This fragment of the Adapa myth has red tinted points applied on the tablet at specific intervals Izre'el draws attention to a few of these points that were missed in previous publications by Knudtzon and Schroeder Five other fragments were part of the Assurbanipal library and are representative of this myth as it was known in Assyria about seven centuries later The discovery of the myth of Adapa and the South Wind immediately attracted wide attention Its ideology and its correspondence to the intellectual heritage of Western religions precipitated flourishing studies of this myth both philological and substantive Many translations have appeared during the past century shedding light on various aspects of the myth and its characters Izre'el unveils the myth of Adapa and the South Wind as mythos as story To do this he analyzes the underlying concepts through extensive treatment of form He offers an edition of the extant fragments of the myth including the transliterated Akkadian text a translation and a philological commentary The analysis of poetic form that follows leads to understanding the myth as a piece of literature and to uncovering its meanings This study therefore marks a new phase in the long extensive research into this Mesopotamian myth

George Merrick, Son of the South Wind Arva Moore Parks, 2015-11-03 The story of developers selling off the Sunshine State is as old as the first railroad tracks laid across the peninsula But seldom do we hear about the men who actually built a better Florida In *George Merrick Son of*

the South Wind South Florida historian Arva Moore Parks recounts George Merrick's quest to distinguish himself from the legions of developers who sought only profit. Helping to create the land boom of the 1920s, Merrick transformed his family's citrus grove just outside of Miami into one of the finest planned communities, the master suburb of Coral Gables. With a team of architects and city planners, he built homes for the growing middle class in the Mediterranean Style using local stone, and he invested in public infrastructure by designing and building parks and pools, trolley lines and waterways. He pledged land for a library and the university that would become the University of Miami. Hailed in national publications as a visionary, Merrick was green before green, a New Urbanist before the movement even had a name. As Coral Gables and Merrick prospered, he reinvested in education, affordable housing and other progressive causes. But the Great Depression ravaged Miami, and Merrick's idealism cost him his fortune. He died with an estate worth less than \$400. With unprecedented access to the Merrick family and mining a treasure trove of Merrick's personal letters, documents, speeches and manuscripts, Parks presents the remarkable story of George Merrick and the development of one of the nation's most iconic planned cities.

The stories and legends of the Lushootseed-speaking people of Puget Sound represent an important part of the oral tradition by which one generation hands down beliefs, values, and customs to another. Vi Hilbert grew up when many of the old social patterns survived, and everyone spoke the ancestral language. Haboo Hilbert's collection of thirty-three stories features tales mostly set in the Myth Age, before the world transformed. Animals, plants, trees, and even rocks had human attributes. Prominent characters like Wolf, Salmon, and Changer, and tricksters like Mink, Raven, and Coyote populate humorous, earthy stories that reflect foibles of human nature, convey serious moral instruction, and comically detail the unfortunate, even disastrous consequences of breaking taboos. Beautifully redesigned and with a new foreword by Jill La Pointe, Haboo offers a vivid and invaluable resource for linguists, anthropologists, folklorists, future generations of Lushootseed-speaking people, and others interested in Native languages and cultures. **Journal of the Franklin Institute**, 1856.
