**Environmental Change in South-East Asia**

Raymond Bryant,Michael Parnwell,2005-08-03 Environmental Change in South East Asia brings together scholars journalists consultants and NGO activists to explore the interaction of people politics and ecology Ostensibly green activities plantation forestry eco tourism hydro electricity are revealed as guises used by elites to promote their own political and economic interests Highlighting fatal flaws in presently exclusive economic and ecological approaches the authors stress that neither the quest for sustainable development nor the process of environmental change itself can be understood without reference to political processes Historical Dictionary of Thailand May Kyi Win,Harold E. Smith,Gayla S. Nieminen,2005-10-04

Thailand has experienced extremely rapid economic growth and with that growth the increased social mobility and political democracy that comes with it As the only Southeast Asian country to have avoided colonization it still boasts a functioning monarchy remains close to its religious roots and clings to its cultural heritage The second edition of the Historical Dictionary of Thailand first provides an overview of the country in the introduction traces the long and complicated history in the chronology and goes into much greater detail in the dictionary Offering 64 new entries as well as updates and revisions to older ones the dictionary presents important persons places institutions and more in an easily accessible resource Significant recent events are discussed including the 1997 98 Thai economic crisis and its effects reforms of the national government and the growth in political roles of both businessman and other middle class members In addition the book updates basic information relative to population growth urbanization and industrialization of the economy All this is topped off by nearly 20 Appendixes and a solid bibliography making this an essential reference tool **Historical Dictionary of**

**Thailand** Gerald W. Fry,Gayla S. Nieminen,Harold E. Smith,2013-08-08 Throughout its history Thailand has shown remarkable resiliency adaptability and creativity in responding to serious threats and crises and this since much earlier times when it was known as Siam This book while focusing on the modern period does reach back to ancient kingdoms but also shows the impressive rise to a modern democracy although still endowed with a king and even more impressively an economic tiger Moreover it has become a prime tourist destination and is thus known to vast numbers of foreigners as a sort of instant Asia The Historical Dictionary of Thailand now in its third edition covers this amazing story in various ways First the chronology traces the most significant events from year to year The introduction then provides a good overview of the land and people the history and traditions and where it now seems to be heading The dictionary which by now has hundreds of detailed and cross referenced entries looks more closely at important persons places institutions and events as well as more generally its politics economy society culture and religion So this is an excellent reference work not only for scholars but many others who have visited the country and were fascinated by it The Sierra Club Green Guide Andrew J.

Feldman,1996 The Sierra Club Green Guide sets a new standard for environmental reference works It provides all the

guidance needed to skillfully locate authoritative information on any environmental topic This environmental desk reference features A wide range of sources including government clearinghouses trade and non profit organizations directories handbooks abstracts and indices periodicals and more 250 online sources of information including Internet sites electronic bulletin boards and commercial online services For those not yet online The Sierra Club Green Guide supplies an introduction to the information superhighway and a glossary of online terms In depth review of each information source as well as complete contact information including address phone number e mail and contact person Cross references comprehensive index and three appendices which provide contact information for federal information centers database vendors and publishers found throughout the book The Sierra Club Green Guide makes finding reliable up to date information easy Whether you re interested in wetlands preservation or a greener lifestyle it will help you answer any environmental question

**Loggers and Degradation in the Asia-Pacific** Peter Dauvergne,2001-10-15 Corporate loggers have damaged much of the tropical forest throughout the Asia Pacific over the last four decades Despite a steady rise in global and local concern few firms have changed their practices Loggers and Degradation in the Asia Pacific examines why and how loggers have resisted and ignored calls for environmental reforms Concentrating on the period after 1990 the book explains what is happening on the ground and highlights the structures within which firms and governments operate Within this broader context the author considers a range of factors including the science of tropical forest management the capacity of states to regulate and enforce rules the relative power of environmental reformers and the 1997 9 Asian financial crisis This is a constructive insightful approach to a depressing yet urgent problem It will be accessible to academic and student readers as well as those in corporations government and NGOs

**Third World Resource Directory, 1994-1995** Thomas P. Fenton,Mary J. Heffron,1994 Topics covered include children and youth drugs education environment foreign policy health hunger indigenous people migration and immigration population rainforests tourism and women

Conservation and Environmentalism Robert C. Paehlke,2013-04-03 Focusing on both problems and solutions this authoritative reference work maintains a healthy balance between science and the social sciences in its coverage of all aspects of the environment The book is arranged alphabetically and is divided into three major sections Ecology Pollution and Sustainability The list of 240 contributors reads like a who s who of the world s leading conservation and environmental professionals Best Reference Source Outstanding Reference Source

**NGOs and Environmental Policies** David Potter,2005-06-28 Covering the work of non governmental organizations in trying to change the environmental policies of governments and business organizations this study looks at field research in Asia and Africa and relates it to theoretical issues in the academic field

*Borneo Log* William W. Bevis,1995 There the rainforest is being cut rapidly local corruption and greed siphon off most of the profit native rights and land uses are being obliterated and much of the fine timber is shipped to Japan to become plywood forms for concrete that are thrown away after two uses

**Divided Planet** Tom Athanasiou,1998 Global warming Soil loss Freshwater

scarcity Extinction Overconsumption Toxic waste production Habitat and biodiversity erosion These are only a few of our most urgent ecological crises There are others as well and despite the popularity of good news environmentalism few of them are going away In this wide ranging grimly entertaining commentary on the environmental debate Tom Athanasiou finds that these problems are exacerbated if not caused by the planet's division into warring camps of rich and poor Writing with passionate intelligence Athanasiou proposes a simple yet radical solution stop indulging easy calming fantasies in which everything seems to change but nothing important changes at all Instead do what needs to be done now while there is still time and goodwill The bottom line he concludes is that there will be no sustainability without a large measure of justice Without profound political and economic change he argues there can be no effective global environmental action no real effort to save the planet

*Global Civil Society and Global Environmental Governance* Ronnie D. Lipschutz, 1996-11-01 What will it take to protect the global environment In this book Ronnie D Lipschutz argues that neither world government nor green economics can do the job Governmental regulations often are resisted by those whose behavior they are intended to change and markets even green ones look to profits more than to protection What will be needed Lipschutz believes is not global management but political action through community and place based organizations and projects People acting together locally can have a cumulative impact on environmental quality that is significant long lasting and widespread The comparative case studies of environmental activism in Northern California Hungary and Indonesia the latter written by Judith Mayer illustrate one of the central premises of this book that local action is linked increasingly to globe spanning networks of knowledge and practice in what Lipschutz calls global civil society The result is a system of governance that is both local and global to which states and international organizations are turning increasingly for help and advice

*Friction* Anna Lowenhaupt Tsing, 2024-08-06 Co Winner of the Senior Book Prize American Ethnological Society What the struggle over the Indonesian rainforests can teach us about the social frictions that shape the world around us Rubbing two sticks together produces heat and light while one stick alone is just a stick It is the friction that produces movement action and effect Anthropologist Anna Lowenhaupt Tsing challenges the widespread view that globalization invariably signifies a clash of cultures developing friction as a metaphor for the diverse and conflicting social interactions that make up our contemporary world Focusing on the social drama of the Indonesian rainforests in the 1980s and 1990s she shows how a host of competing interests from environmentalists and North American investors to advocates for Brazilian rubber tappers international funding agencies and village elders are drawn into unpredictable messy misunderstandings but misunderstandings that sometimes work out Now with a new preface by the author *Friction* provides an invaluable portfolio of methods for the study of global interconnections

*Shadows in the Forest* Peter Dauvergne, 1997 This book is the first to analyze the environmental impact of Japanese trade corporations and aid on timber management in the context of Southeast Asian political economies It is also one of the first comprehensive studies of why Southeast Asian states are unable to enforce forest

policies and regulations      **The Earth on Trial** Paul Stanton Kibel,2002-06-01 The Earth on Trial examines the degree to which the law has accommodated an increased understanding of the natural environment Paul Stanton Kibel provides a clear assessment of what conceptual and practical changes are needed to reconcile law to the limits of ecology By moving the debate between law and the environment beyond specialists and towards a public forum The Earth on Trial acknowledges that a healthy environmental future depends not so much on our ability to alter nature to accommodate society as our ability to alter society to accommodate nature      *Bibliography of Southeast Asia* Kim See Ch'ng,2003 TheBibliography of Southeast Asia A Decade of Selected Social Science Publications in the English Language 1990 2000 comprises 6 521 entries of published works The selection broadly represents the documentation of the political economic and social and cultural processes of one of the most interesting eras of the previous millennium      **Studies in the Economic History of the Pacific Rim** Dennis O. Flynn,A.J.H. Latham,Sally M. Miller,2002-09-11 Trade across the Pacific will be one of the dominant forces in the economy of the next century This collection reflects the birth of Pacific Rim history until recently largely neglected It addresses the development of the Pacific Rim over four centuries combining broad historical syntheses with a range of essays on specific topics from trade with Hong Kong to British overseas banking It will form a major contribution to this rapidly expanding new field      **Conservation and Environmentalism** Robert Paehlke,1995 Focusing on problems and solutions this authoritative reference work covers all aspects of the environment from the Everglades to the Himalayas from legislation in Australia to pollution problems in Eastern Europe from tropical rain forests to the Porcupine Caribou herd of the Alaskan and Canadian Arctic Some of the best known environmental professionals from 14 countries around the world have written original articles for this multidisciplinary Encyclopedia including Norman Myers Eugene C Hargrove Reed F Noss Max Oelschlaeger J Baird Callicott George Sessions M S Swaminathan Gilbert F White Michael E Kraft Michael P Cohen Paul Ekins and many others BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
