Southern Prohibition Lee Willis, 2011 *Southern Prohibition* examines political culture and reform through the evolving temperance and prohibition movements in Middle Florida Scholars have long held that liquor reform was largely a northern and mid-Atlantic phenomenon before the Civil War Lee L. Willis takes a close look at the Florida plantation belt to reveal that the campaign against alcohol had a dramatic impact on public life in this portion of the South as early as the 1840s Race class and gender mores shaped and were shaped by the temperance movement White racial fears inspired prohibition for slaves and free blacks Stringent licensing shut down grog shops that were the haunts of common and poor whites which accelerated gentrification and stratified public drinking along class lines Restricting blacks' access to alcohol was a theme that ran through temperance and prohibition campaigns in Florida but more affluent African Americans also supported prohibition indicating that the issue was not driven solely by white desires for social control Women in the plantation belt played a marginal role in comparison to other locales and were denied greater political influence as a result Beyond alcohol Willis also takes a broader look at psychoactive substances to show the veritable pharmacopeia available to Floridians in the nineteenth century Unlike the campaign against alcohol however the tightening regulations on narcotics and cocaine in the early twentieth century elicited little public discussion or concern a quiet beginning to the state's war on drugs

Clio's Southern Sisters Constance B. Schulz, Elizabeth Hayes Turner, 2004 It is no accident that the Southern Association for Women Historians enjoys the founding date of 1970 After extended and often bitter engagement with entrenched sexism in the decades following World War II women historians found their voices and crafted a means by which to be heard The years between 1970 and 1980 represented a decade of optimism for women

who sought equality in the workplace Professional women professors of history most especially found hope in organizations such as the SAWH created to address issues of visibility legitimacy and equality in historical associations and in employment In *Clio's Southern Sisters* Constance B Schulz and Elizabeth Hayes Turner collect the stories of the women who helped to found and lead the organization during its first twenty years These women give evidence in strong and effective language of the experiences that shaped their entree into the profession They describe the point at which they experienced the shift in their lives and in the lives of those around them that led toward a new day for women in the history profession Book Jacket

Southern Civil Religions Arthur Remillard,2011 In the aftermath of the Civil War the Lost Cause gave white southerners a new collective identity anchored in the stories symbols and rituals of the defeated Confederacy Historians have used the idea of civil religion to explain how this powerful memory gave the white South a unique sense of national meaning purpose and destiny The civil religious perspectives of everyone else meanwhile have gone unnoticed Arthur Remillard fills this void by investigating the civil religious discourses of a wide array of people and groups blacks and whites men and women northerners and southerners Democrats and Republicans as well as Catholics Protestants and Jews Focusing on the Wiregrass Gulf South region an area covering north Florida southwest Georgia and southeast Alabama Remillard argues that the Lost Cause was but one civil religious topic among many Even within the white majority civil religious language influenced a range of issues such as progress race gender and religious tolerance Moreover minority groups developed sacred values and beliefs that competed for space in the civil religious landscape

The Long Southern Strategy Angie Maxwell,Todd G. Shields,2019 In *The Long Southern Strategy* Angie Maxwell and Todd Shields trace the consequences of the GOP's decision to court white voters in the South Over time Republicans adopted racially coded anti feminist and evangelical Christian rhetoric and policies making its platform more southern and more partisan and the remodel paid off This strategy has helped the party reach new voters and secure electoral victories up to and including the 2016 election Now in any Republican primary the most southern presenting candidate wins regardless of whether that identity is real or performed Using an original and wide ranging data set of voter opinions Maxwell and Shields examine what southerners believe and show how Republicans such as Donald Trump stoke support in the South and among southern identified voters across the nation
