Crisis, Identity and Migration in Post-Colonial Southern Africa Hangwelani Hope Magidimisha, Nene Ernest Khalema, Lovemore Chipungu, Tamuka C. Chirimambowa, Tinashe Lukas Chimedza, 2017-07-24 This book offers a socio historical analysis of migration and the possibilities of regional integration in Southern Africa It examines both the historical roots of and contemporary challenges regarding the social economic and geo political causes of migration and its consequences i e xenophobia to illustrate how diaspora migrations have shaped a sense of identity citizenry and belonging in the region By discussing immigration policies and processes and highlighting how the struggle for belonging is mediated by new pressures concerning economic security social inequality and globalist challenges the book develops policy responses to the challenge of social and economic exclusion as well as xenophobic violence in Southern Africa This timely and highly informative book will appeal to all scholars activists and policy makers looking to revisit migration policies and realign them with current globalization and regional integration trends South Africa at War Richard Leonard, 1985 **Zimbabwe's Migrants and South Africa's Border Farms** Maxim Bolt, 2015-09-25 During the Zimbabwean crisis millions crossed through the apartheid era border fence searching for ways to make ends meet Maxim Bolt explores the lives of Zimbabwean migrant labourers of settled black farm workers and their dependants and of white farmers and managers as they intersect on the border between Zimbabwe and South Africa Focusing on one farm this book investigates the role of a hub of wage labour in a place of crisis A close ethnographic study it addresses the complex shifting labour and life conditions in northern South Africa s agricultural borderlands Underlying these challenges are the Zimbabwean political and economic crisis of the 2000s and the intensified pressures on commercial agriculture in South Africa following market liberalization and post apartheid land reform But amidst uncertainty farmers and farm workers strive for stability The farms on South Africa s margins are centers of gravity islands of residential labour in a sea of informal arrangements *South Africa's Water Predicament* Anja du Plessis, 2023-01-13 The book provides a critical evaluation of South Africa s freshwater resources to illustrate the way in which its freshwater resources water access services and infrastructure have continued to decline over the past three decades The continued decline of water governance management water service delivery dilapidated water infrastructure dysfunctional local governments and overall excessive water degradation is illustrated and emphasized using real life examples and case studies from various contexts within the country The main argument of the book is that South

Africa's freshwater resources have declined to such an extent that it can be described as a predicament. Questionable water governance decisions and reactive water management practices have led to no improvement and/or increased degradation of freshwater resources. An overall lack of service delivery exists across the country in various contexts leading to further water and social decline. An interdisciplinary evaluation of South Africa's current water predicament is provided. Major water crises are prioritized and suitable recommendations are given to transform its predicament into problems which can be addressed. Suitable background information is given to emphasize the necessity of good water governance management and service delivery. South Africa's freshwater resources are evaluated with specific focus on the decline of informed water governance management service delivery and water quality. Factors requiring urgent attention are determined and suitable recommendations and/or actions are provided. An evaluation and overall synthesis focused on the transformation of the predicament into problems is provided. Primary water problems are prioritized according to urgency and suitable recommendations are given to assist in transforming the country's current complex water predicament into simpler water problems. Political will, collaboration with researchers, stakeholders, non-governmental organizations and cooperation of civil society is required. South Africa's already scarce freshwater resources and decaying infrastructure will persist and possibly collapse if no major actions or interventions are implemented.

South Africa's Resistance Press Les Switzer, Mohamed Adhikari, 2000. South Africa's Resistance Press is a collection of essays celebrating the contributions of scores of newspapers, newsletters and magazines that confronted the state in the generation after 1960. These publications contributed in no small measure to reviving a mass movement inside South Africa that would finally bring an end to apartheid. This marginalized press had an impact on its audience that cannot be measured in terms of the small number of issues sold, the limited amount of advertising revenue raised or the relative absence of effective marketing and distribution strategies. These journalists rendered communities visible that were too often invisible and provided a voice for those too often voiceless. They contributed immeasurably to broadening the concept of a free press in South Africa. The guardians of the new South Africa owe these publications a debt of gratitude that cannot be repaid.

Class, Race and Sport in South Africa's Political Economy (RLE Sports Studies) Grant Jarvie, 2014-04-24. In recent years the interest in the patterns and policies of South African sport has grown. This book examines the increasingly complex issue of race, class and sport in the context of South African social relations. The author disputes evaluations made purely on the question of race, maintaining that it is important to examine the complex interaction between racial and class dynamics as a background for understanding the South African way of life. The book demonstrates that sport must be understood in the context of the ensemble of social relations characterizing the South African social formation.

The Evolving Structure of South Africa's Economy Seeraj Mohamed, Amuzweni Ngoma, 2024-01-23. South Africa still faces low economic growth and high unemployment coupled with the persistent challenges of poverty and inequality. These exert pressure on South Africa to foster structural transformation that will

facilitate a more inclusive and resilient economy Authors apply multiple theoretical and empirical perspectives to take stock of the historical and contemporary structure of the South African economy its evolving nature and possible future pathways The explore how South Africa s structural transformation agenda is affected by the global context and discuss debates on the extreme social impacts of globalised and financialised economic structures Contributors offer technical and analytical discussions of the overlapping structural faultlines that produce uneven economic performance They explain the changes and continuities of South Africa s economic structure bound by an analytical thread that centres power relations and political settlements Varied chapters explain how poor governance and corruption have slowed down structural reform This has been further exacerbated by the inconsistent availability of energy and the deterioration of logistics The book details the structural reforms and policy regimes necessary for increasing productive capacity in South Africa s agriculture manufacturing agro processing retail and services energy and mining industries It also reflects on the role that micro and informal enterprises can play if afforded the necessary support The technical details and analyses in the book highlight the need for a radical review of macroeconomic policy to reduce the country s chronic vulnerability to poverty and inequality

Zimbabwe's Military: Examining its Veto Power in the Transition to Democracy, 2008-2013 Rupiya, Martin R.,2013-10-14 Political transition and democratisation challenges have been noted in African countries including Angola Burkina Faso Kenya Mali and the Democratic Republic of the Congo resulting in the African Union AU intervening on behalf of citizens using tried and tested mechanisms of imposing a power sharing agreement to preside over a transitional period during which there are key changes to the constitution and the political conduct of the incumbency and partisan institutions are weaned from seeking to perpetuate the status quo This book focuses on Zimbabwe s military and its perceived veto power in the transition to democratisation from 2008 until 2013 The objective was to analyse monitor and comment on the unique democratic transformational challenges faced by Zimbabwe s Government of National Unity One of the book s key findings is that every time partisan forces carry out an operation in the name of a political party there is a direct correlation in which the same loses its national character This is the context of the challenge facing Zimbabwean forces when used for partisan gain and why the Southern African Development Community SADC in its last communique in Maputo on 15 June 2013 sought to compel a written undertaking from the generals that they would desist from playing a direct role in the politics of the country The AU had earlier expressed its deep regret when faced with the results of serious human rights abuses that were committed with impunity

South Africa's Foreign Policy James Barber,John Barratt,1990-04-19 An exceptionally thorough study of South African foreign policy and the factors influencing its formation

South Africa's Energy Transition Andrew Lawrence,2019-08-30 This book provides a succinct overview of the evolution of policies addressing energy and climate justice in South Africa Drawing on a range of analytical perspectives including socio technical studies just transitions and critical political economy it explains why South Africa s energy transition from a coal dependent centralised power

generation and distribution system has been so slow and reveals the types of socio political inequalities that persist across regimes and energy sources Topics explored include critical approaches to the South African state and its state owned energy provider Eskom the political ecologies of coal and water the politics of non renewable energy alternatives as well as the trajectory and fate of the Renewable Energy Independent Power Producers Procurement Programme REIPPPP the country s major renewable energy policy The book concludes with reflections on alternative neglected energy and development paths suggesting how the political economy of South Africa s energy system could be further transformed for the better
