Vampires and the Making of the United States in the Twenty-First Century
Simon Bacon, 2025-05-30 *Vampires and the Making of the United States in the Twenty-First Century* offers a unique and multifaceted study of how vampires on screen have shaped America and how specific environments here have shaped their vampires. Examining the figure of the vampire within the framework of uniquely American environments both physical and immaterial, the book delves into the questions relating to American geography, identity, racial and ethnic tensions, American colonial past, and its urban and environmental history. With contributions from a diverse and international team of authors, the collection follows the vampire across the geographical and ideological landscape of the US to consider what cultural and historical environments have gone towards creating the contemporary undead and why the post-Trump America of the twenty-first century is a truly vampiric one. This timely and truly innovative volume will resonate firmly with scholars and students of popular culture, film and media studies, horror, American studies, and urban and environmental studies.

The American Southern Gothic on Screen
Karen Horsley, 2025-10-01 *The Southern Gothic on Screen* explores a body of screen texts that conform to certain generic conventions and aesthetics that since the early twentieth century have led to the construction of the American South as a space of ruin, decay, melancholy, loss, and haunting. The book considers the cultural significance of the Southern Gothic on screen by examining southern otherness as the primary mechanism through which the South is rendered a space of darkness and danger. This opens up a critical space for the Southern Gothic to be discussed as a screen genre with its own complex visual thematic and narrative codes. The book establishes a perspective that synthesizes a broad understanding of Southern Gothic genericity with pre-existing cultural and political discourses on the South, resulting in an analysis that is specific to film and television while remaining heedful of the intersecting discourses that inform both the Gothic and the South as historic and mediated constructs.
