The 2014 European Parliament Elections in Southern Europe Hermann Schmitt, Eftichia Teperoglou, 2018-02-02 Southern Europe has been the EU region most exposed to the Eurozone sovereign debt crisis with consequences for national party systems and political stability The 2014 European Parliament elections took place at a crucial time for Europe and Southern European societies more generally This book analyses the Euroelections in Southern Europe asking whether these followed the usual pattern of low stimulus contests or whether the crisis context raised the bar Country chapters on Italy Greece Spain Portugal Cyprus and Malta investigate the background of the elections the electoral campaign and the rise of Euroscepticism The linkage

between governments economic performance the Europhile or Eurosceptic stances of political parties and their electoral performance are at the core of the analysis in each chapter The findings reveal that the political and electoral consequences of the economic crisis have not fundamentally challenged the second order character of the 2014 European Parliament elections in Southern Europe However electoral behaviour exhibits some indications of a more critical contest in which the EU divide becomes more significant and polarising in determining voting choices This book was previously published as a special issue of South European Society and Politics

Democratic Governance and European Integration Ronald Holzhaacker,Erik Albæk,2007-01-01 As the power and scope of the European Union moves further beyond traditional forms of international cooperation between sovereign states it is important to analyse how these developments are impacting upon national institutions and processes of democratic representation and legitimacy in the member countries The authors in this book identify four core processes of democratic governance present in any democratic political system that link societal and state processes of decision making opinion formation interest intermediation national executive decision making and national parliamentary scrutiny From a normative perspective they discuss what impacts this process of Europeanization has on democracy in the evolving system They conclude that more changes are seen within the state centric than in the societal centred processes of democracy thus the public seems to have been left behind in the process of constructing Europe The empirical research and normative discussion presented in this book are designed to further our knowledge concerning the Europeanization of social and state processes of democracy and to contribute to the continuing dialogue on democracy in the European Union This book will be of great interest to academics and researchers of political science public policy and international relations as well as those interested in European studies and comparative politics

Post-Communist and Post-Soviet Parliaments Philip Norton, David M. Olson, 2013-09-13 The sudden collapse of communism stimulated both the rapid emergence of fledgling democracies and scholarly attention to the post communist transition These newly democratized parliaments have been described as parliaments in adolescence This book identifies six parliaments which exemplify the wide range of developments in the new post communist political systems from the stable consolidated democracies to the less stable and more authoritarian states within which their respective parliaments function Finally the post communist parliaments are compared with the presumptively more established west European parliaments This book bridges the usual gap in research between the post communist parliaments and more normal democratic parliaments to develop a common legislative research perspective on both new and established parliaments This book was previously published as a special issue of the Journal of Legislative Studies
