Wolfe, 1997 *Folk Songs of Middle Tennessee* is superior to most collections because Boswell cast a wide net in his collecting recording many items from people not usually thought of as folksingers and because unlike most collectors of his day he was equally skilled at music and lyric transcription W K McNeil The Ozark Folk Center This volume brings together for the first time more than one hundred traditional songs from Middle Tennessee a region that is synonymous in the popular mind with music but one that has been curiously neglected in folksong scholarship The songs presented here were originally collected in the late 1940s and early 1950s by George Boswell a distinguished scholar and field researcher who died in 1995 While living in Nashville Boswell scoured the city and surrounding counties for old ballads and folk songs Sometimes using a wire or tape recorder at other times employing a stenographer he visited numerous singers and transcribed the words and tunes to hundreds of songs Even after moving from Tennessee to assume a teaching position at the University of Mississippi Boswell continued to work on his collection annotating and comparing texts and publishing occasional samples In 1950 he noted that Tennessee virtually alone among southern states had no published collection of its folk songs That has remained the case until now The songs chosen for this book are presented with musical notation and extensive background notes including biographical data on the original informants many of whom were business and professional people and fascinating histories of each song A number of the songs are rare and previously uncollected others are local variants of long popular ballads The publication of this volume the first major collection of southern folk songs in many years is not only a testament to Boswell's scholarship but a marvelous contribution to our understanding of southern folk culture and **American**

A Folklorist's Progress Stith Thompson,1996 The Life of Stith Thompson as revealed in these

pages was in some ways ordinary in others extraordinary Reading through A Folklorist's Progress one sees clearly the contours of an academic life in the midcentury United States In an efficient manner Professor Thompson portrays the rounds of an academic of the period planning for courses establishing and revising programs attending international meetings and conferences working ideas into publications He also describes the social domain with its cycle of parties receptions visits and social clubs These autobiographical pages paint an engaging portrait of community organized around the life of the intellect But not every scholar has the opportunity to found an academic field and in this light the career of Stith Thompson veers toward the extraordinary Obituaries described Thompson as the father of folklore a journalistic label that with some qualifications epitomizes his scholarly career While folklore studies existed in Europe well before Thompson's lifetime it was Stith Thompson who in 1949 conceived of a doctoral degree program in folklore the first in the U S Stith Thompson's success in securing support for the unknown discipline of folklore was due to his stature in the academic community his skill in dealing with the administrative structure of an American university and his ties to funding agencies the state department and scholarly societies all over the world
