Southern Pacific Review 195282:

Streamliners Brian Solomon,2015-10-05 See the streamlined trains of the 1930s in all of their sleek glory In the 1930s streamlined styling was applied to everything from kitchen appliances to farm tractors as it captured the American imagination Keen to regain passenger traffic lost to automobiles and expanding roadways railroads hired industrial design giants like Raymond Loewy Otto Kuhler Henry Dreyfuss and Brooks Stevens to produce sleek futuristic shrouds for locomotives These streamlined locomotives and trains became the most iconic in American history Even today classic designs like stainless steel Zephyrs shrouded Hudsons and EMD E units remain the popular conception of what a locomotive looks like Streamliners Locomotives and Trains in the Age of Speed and Style explores the historical and scientific context for the development of streamlined locomotives and trains the designs that became standard bearers of North American speed and luxury and the contemporary popularity of the streamlined look in popular culture Illustrated with rare historical photographs in both black and white and color as well as period advertising route maps and patent design drawings Streamliners elucidates the story of this fascinating design trend by following the various technologies and styling trends and how they changed the look of American railroading Profiles of prominent designers and preserved streamliners in use today round out and complete this picture every railfan will want Streamlining was the product of the last great era of American passenger trains when elegantly styled named trains connected cities across the continent on fast schedules Streamliners thoroughly explores the connections between style speed and the rails Southern Pacific Review, 1952-82 Joseph A. Ambasht,2012-12-06 Organisms and environment have evolved through modifying each other over millions of years Humans appeared very late in this evolutionary time scale With their superior brain attributes humans emerged as the most dominating influence on the earth Over the millennia from simple hunter food gatherers humans developed the art of agriculture domestication of animals identification of medicinal plants devising hunting and fishing techniques house building and making clothes All these have been for better adjustment growth

and survival in otherwise harsh and hostile surroundings and climate cycles of winter and summer and dry and wet seasons So humankind started experimenting and acting on ecological lines much before the art of reading writing or arithmetic had developed Application of ecological knowledge led to development of agriculture animal husbandry medicines fisheries and so on Modern ecology is a relatively young science and unfortunately there are so few books on applied ecology The purpose of ecology is to discover the principles that govern relationships among plants animals microbes and their total living and nonliving environmental components Ecology however had remained mainly rooted in botany and zoology It did not permeate hard sciences engineering or industrial technologies leading to widespread environmental degradation pollution and frequent episodes leading to mass deaths and diseases

Landscape and Vegetation Ecology of the Kakadu Region, Northern Australia C.M. Finlayson, Isabell von Oertzen, 2012-12-06 The Kakadu region of northern Australia is swarming over the landscape with their meters steeped in cultural history and natural grandeur and notebooks and a vast store of information Over the past few decades the rich cultural and was gathered This book is a summary of the natural heritage of this fascinating region has immense amount of information collected on the become increasingly known to more and more geobotanic features of the region The cultural people At the same time as the natural heritage of heritage of the traditional Aboriginal inhabitants the region was being recognised by conservation of the region and the diverse and populous fauna vationists and tourists alike the mineral wealth were also investigated but both these subjects was being recognised by mining enterprises warrant their own separate volumes and are not Almost inevitably the mix of conservation and treated here Throughout this period of intense scientific mining interests led to conflict that is still not completely resolved However much has happened interest the very nature of the region has changed opened over the years and we now have a major Besides changes in human habitation the physical and biological environment has come under national park that is largely leased from the Aboriginal traditional owners under a management challenge and even threat We now have more weed species We no longer have the large management agreement
