Office, 1967      The Song of Songs Ian Assersohn, 2009-10-30 The Song of Songs is a new setting of one of the Old Testament's most glittering treasures and the world's most beautiful and mysterious love poem Set as a dialogue between a young woman and her elusive lover the work is scored for soprano and tenor soli SATB chorus and a small instrumental ensemble It may also be performed in a reduced scoring for piano or keyboard and percussion The music is accessible and appealing and the chorus parts although challenging enough to engage the interest of experienced singers are well within the reach of any enthusiastic choir There are 20 short movements and the work lasts approximately 40 minutes in performance      *The Poetics of Sovereignty* Jack W. Chen, 2020-10-26 Emperor Taizong r 626-49 of the Tang is remembered as an exemplary ruler This study addresses that aura of virtuous sovereignty and Taizong's construction of a reputation for moral rulership through his own literary writings with particular attention to his poetry The author highlights the relationship between historiography and the literary and rhetorical strategies of sovereignty contending that for Taizong and for the concept of sovereignty in general politics is inextricable from cultural production The work focuses on Taizong's literary writings that speak directly to the relationship between cultural form and sovereign power as well as on the question of how the Tang negotiated dynastic identity through literary stylistics The author maintains that Taizong's writings may have been self-serving at times representing strategic attempts to control his self image in the eyes of his court and empire but that they also become the ideal image to which his self was normatively bound This is the paradox at the heart of imperial authorship Taizong was simultaneously the author of his representation and was authored by his representation he was both subject and object of his writings      **The Folk Music Sourcebook** Larry Sandberg, Dick Weissman, 1989-08-21 This revised and updated book is a guide for the listener collector singer player and devotee of folk music It covers music from string band to bluegrass Canadian Creole Zydeco jug bands ragtime and the many kinds of blues The book evaluates reviews and recommends on such subjects as where to buy records and instruments and places where folk music flourishes      *The Journal of American Folklore*, 1926      *Focus: Irish Traditional Music* Sean Williams, 2020-03-24 Focus Irish Traditional Music Second Edition introduces the instrumental and vocal musics of Ireland its diaspora in North America and its Celtic neighbors while exploring the essential values underlying these rich musical cultures and placing them in broader historical and social context With both the undergraduate and graduate student in mind the text weaves together past and present bringing together important ideas about Irish music from a variety of sources and presenting them in three parts within interdisciplinary lenses of history film politics poetry and art I Irish Music in Place and Time provides an overview of the island's musical history and its relationship to current performance practice II Music Traditions Abroad and at Home contrasts the instrumental and vocal musics of the Celtic Nations Scotland Wales Brittany etc and the United States with those of Ireland III Focusing In Vocal Music in Irish Gaelic and English identifies the great songs of Ireland's two main languages and explores the globalization of Irish music New to this edition are discussions of those contemporary issues
