Schweber, 2011-10-31 In Democracy and Authenticity Professor Howard

Schweber examines a basic problem for liberal democracies: When a political entity is characterized by a multitude of identities and values, certain constraints apply to reasons for citizens and public officials to justify coercive political actions. The author argues that justifications based on particular religious doctrines are not a proper basis for government actions that affect everyone. He then develops a concept of public justification intended to guide citizens in a liberal democracy through the work of creating policies that satisfy their responsibilities to one another.

Sovereignty Across Generations Alessandro Ferrara,2023-02-16 Every cohort of voters may dream of being the people under the sway of serial visions of sovereignty or understand itself more modestly as co author of a constitutional project in a cross generational sequence rooted in the past and extending into the future Sovereignty Across Generations offers a theory of democratic sovereignty and constituent power grounded in John Rawls s political liberalism Neither exegetic nor abstractly analytic this book assumes that political liberalism is broader than Political Liberalism In answering the question How is it possible for there to exist over time a just and stable society of free and equal citizens who remain profoundly divided by reasonable religious philosophical and moral doctrines the paradigm implicit in Political Liberalism enables us to address facets of that question that Rawls sidelined in the context of his time Following populist threats to democracy which were still latent in 1993 this book responds to the urgency of clarifying the proper relation of the people as transgenerational author of the constitution to its pro tempore living segment in its capacity as electorate and as co author of the constitution An explanation of that relation brings constituent power into the picture and unfolds in seven steps that form the conceptual backbone of this book By taking new

steps in updating and revisiting political liberalism this book reconstructs Rawls's implicit view of constituent power beyond the pages dedicated to it in *Political Liberalism* and brings that view into conversation with major constitutional theories of the twentieth century This book is a must read for all those interested in the fields of politics philosophy and constitutional law

**Precarity and Loss** Tadeusz Rachwał, 2016-11-07 The book is devoted to social and political interdependencies of life and work the interdependencies in which the ideas of loss and deprivation are the founding incentives of the precariousness of the position and the status of the human subject Loss of property in the economic sense along with the loss of properties in epistemological terms have become a crucial measure of precarity through its dissociation from what Judith Butler calls the organization and protection of bodily needs The book offers a proposition of multidisciplinary reading of origins and constructions of anxiety of loss as a constitutive trait of what may be called the economization or after Jean Pierre Dupuy

economystification of human condition through various discursive practices tying loss with lack and in this way making the uncertainty of possessing certain properties into a sphere of politically controlled semi ontological anxieties The book also reads loss in terms of topographical disorientation and the idea of placelessness THE AUTHENTIC HOLY HADITHS (AL-AHADIT AL-QUDSIYYAH AL-SAHIHAH)[English-Arabic] CHEIKH ZAKARIA 'OMAIRAT,2010-01-01 *Beyond Sovereign Territory* Thom Kuehls,1996 How should we think about politics in a world where ecological problems from the deforestation of the Amazon to acid rain transcend national boundaries This is the timely and important question addressed by Thom Kuehls in *Beyond Sovereign Territory* Contending that the sovereign territorial state is not adequate to contain or describe the boundaries of ecopolitics the author reorients our thinking about government nature and politics Kuehls argues that changes in technology and the scope of governmental aims have rendered conventional ecological and internationalist aims anachronistic and ultimately ineffective in the face of impending environmental collapse He questions the process by which land is transformed into an object of sovereignty into territory demonstrating how representations of political space that are premised on territorial sovereignty fail to come to terms with much of what is involved in ecopolitics Ultimately Kuehls critiques an orientation that privileges a certain utilitarian relationship between humans and nonhuman nature one in which the earth is largely interpreted as given to humans Deeply humanistic and challenging conventional wisdom *Beyond Sovereign Territory* will be of interest to readers of environmental politics geography international politics and political theory China, India and Alternative Asian Modernities Sanjay Kumar,Satya P. Mohanty,Archana Kumar,Raj Kumar,2019-03-29 The conception of modernity as a radical rupture from the past runs parallel to the conception of Europe as the primary locus of global history The essays in this volume contest the temporal and spatial divisions between past and present modernity and tradition and Europe s progress and Asia s stasis which the conventional narrative of modernity creates Drawing on early modern Chinese and Indian history and culture instead the authors of the book explore the provenance of modernity beyond the west to see it in a transcultural and pluralistic light The central argument of this volume is that modernity does not have a singular core or essence a causal centre Its key features need to be disaggregated and new configurations and combinations imagined By studying the Bhakti movement Confucian democracy and the maritime and agrarian economies of China and India this book enlarges the terms of debate and revisits devalued terms and concepts like tradition religion authority and rural as resources for modernity This book will be of great interest to researchers and academicians working in the areas of history Sociology Cultural Studies literature geopolitics South Asian and East Asian Studies Great Satan's rage Scott Wilson,2016-05-16 Newly available in paperback this book looks at how rap and metal have been highly engaged with America s role in the world supercapitalism and their own role within it This has especially been the case when genres hitherto clearly identified as indelibly black or white forms of music have crossed over as an effect of cross racial forms of identification and desire marketing strategy political engagement opportunism and
