Kim, 2023-07-28 The political system established by the Chinese Communist Party in 1949 had its origins in many respects in the Chinese Soviet Republic of 1931 1934 based in southern Kiangsi province about 400 miles southwest of Shanghai The Kiangsi period was important because it gave the Chinese Communists their first opportunity to govern an extensive area and a large population and in so doing to develop methods of mass mobilization as well as new techniques for conducting party and government affairs Kim explores the evolution of the Chinese Communist movement during the Kiangsi soviet period especially its organizational concepts behavioral patterns and development techniques of mass line politics He seeks answers to several questions What notions of organization shaped the Kiangsi political system Who formulated the policies How were they implemented at the rice roots level of government By analyzing Mao Tse tung's writings on organization and comparing them with those of other Chinese Communist theoreticians he achieves fresh insights into Mao's approach to administration and bureaucratic organization The distinct contribution of this book lies in its focus on such issues as how the Chinese Communist leaders viewed organizational problems within their movement especially following the failure of the 1947 revolution how they responded to these problems and how they maintained a balance of power among the party the government and the Red Army while administering the expanding territorial base and managing complex organizations This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1973 **Problems of Communism**, 1972 *Peasant Nationalism and Communist Power* Chalmers A. Johnson, 1962 This author researches the Chinese Communists wartime expansion according to the documentation recorded by Japanese intelligence then compares that expansion with that of the Yugoslav Communists **Xinjiang and the Expansion of Chinese Communist Power** Michael Dillon, 2014-08-01 Xinjiang China's far northwestern province where the majority of the population are Muslim Uyghurs was for most of its history contested territory On the Silk Road a region of

overlapping cultures the province was virtually independent until the late nineteenth century nominally part of the Qing Empire with considerable interest taken in it by the British and the Russians as part of their Great Game rivalry in Asia Ruled by warlords in the early twentieth century it was occupied in 1949-50 by the People's Liberation Army since when attempts have been made to integrate the province more fully into China This book outlines the history of Xinjiang It focuses on the key city of Kashgar the symbolic heart of Uighur society drawing on a large body of records in which ordinary people provided information on the period around the communist takeover These records provide an exceptionally rich source showing how ordinary Uyghurs lived their everyday lives before 1949 and how those lives were affected by the arrival of the Chinese Communist Party and its army Subjects covered by the book include Eastern Turkistan independence regional politics local government the military taxation education and the press *The End of Communist Power* Leslie Holmes, 1993 Account of the collapse of the communist ruled states Analyses the nature of the legitimization crisis that developed following the failure of the economic reforms of the 1960s and 1970s and considers the role of official corruption and anti corruption campaigns Includes a bibliography and an index The author is Professor of Political Science at the University of Melbourne

Moscow and the Emergence of Communist Power in China, 1925-30 Bruce Elleman, 2009-01-30 This book examines the emergence of Communist power in China during the interwar period focusing especially on the role of the Soviet Union and the 1927 Nanchang Uprising It describes the history behind the alliance between the Chinese Communists and Nationalists the impact of the USSR's military and political advisers and the success of the Northern Expedition that resulted in the April 1927 purge of the Communists from the Nationalist Party It explores the debates between leading communists in Moscow notably Stalin who thought that China was ready in 1927 for an urban based Communist revolution similar to what had happened in Russia ten years before and Trotsky who opposed it It goes on to examine the seizure of power in Nanchang by the Communists the establishment of China's first short lived soviet republic and the reasons why the soviet soon collapsed It explains the consequences of the rising including the adoption by the Communists of guerilla warfare the foundation of China's second soviet and after moving to northwest China during the 1930s the rise of Communist power throughout all of mainland China which culminated in the establishment of the People's Republic of China in 1949 The book stresses the importance of the mythology that evolved around the Nanchang Uprising since criticism of the Nanchang Uprising would open themselves up to accusations that they were Trotskyites the Chinese Communists created the myth that the Nanchang Uprising was a success and later dated the origins of the People's Liberation Army to this event **The Chinese Communist Movement, 5 July 1945** United States. War Department. General Staff, 1952 **Congressional Record** United States.
