well as economic development in a populous and poor agrarian nation This volume then assesses the economic performance and social consequences of China's political economy over four decades with a focus on China's countryside and city countryside relations In addition to a reconceptualization and updating of the introductory chapter there is a new chapter The Social Origins and Limits of the Chinese Democratic Movement Competitive Interference and Twentieth Century Diplomacy Richard W. Cottam, 1967-09-15 With nuclear proliferation essentially eliminating full scale warfare governments have increasingly turned to what Richard W Cottam calls competitive interference This type of policy invokes counter insurgency political economic and psychological manipulations and often involves looking deeply into the internal affairs of a country often secretly Cottam describes and defines competitive interference explores the United States institutional adjustment to it and provides a theoretical framework for projection and evaluation of foreign policy in this changing diplomatic arena He uses case studies of international relationships involving the United States India China Vietnam Iran and the former USSR and East Germany to evaluate his theoretical stance and proposes long term institutionalization of policy rather than covert operations 1967 Annual Supplement John B.
