

ON THE BOHR TRANSFORM OF ALMOST-PERIODIC SOLUTIONS FOR SOME DIFFERENTIAL EQUATIONS IN ABSTRACT SPACES

SAMUEL ZAIDMAN

(Received 11 March 2001 and in revised form 4 July 2001)

ABSTRACT. We consider abstract differential equations of the form $u'(t) = Au(t) + f(t)$ or $u''(t) = Au(t) + f(t)$ in Banach spaces X , where $f(\cdot), \mathbb{R} \rightarrow X$ is almost-periodic, while A is a linear operator, $\mathfrak{D}(A) \subset X \rightarrow X$. If the solution $u(\cdot)$ is likewise almost-periodic, $\mathbb{R} \rightarrow X$, we establish connections between their Bohr-transforms, $\hat{u}(\lambda)$ and $\hat{f}(\lambda)$.

2000 Mathematics Subject Classification. 34C27, 34G10.

1. Introduction. If $u(\cdot), \mathbb{R} \rightarrow X$ (a Banach space) is an ultraweak almost-periodic solution of the differential equation

$$u'(t) = Au(t) + f(t), \quad t \in \mathbb{R} \text{ (first order)} \quad (1.1)$$

or

$$u''(t) = Au(t) + f(t), \quad t \in \mathbb{R} \text{ (second order)} \quad (1.2)$$

with linear—not necessarily continuous—operator $A, \mathfrak{D}(A) \subset X \rightarrow X$, and with almost-periodic “forcing” term $f(\cdot), \mathbb{R} \rightarrow X$, then the Bohr transforms

$$\hat{f}(\lambda) = \lim_{T \rightarrow \infty} \frac{1}{T} \int_0^T e^{-i\lambda t} f(t) dt, \quad \hat{u}(\lambda) = \lim_{T \rightarrow \infty} \frac{1}{T} \int_0^T e^{-i\lambda t} u(t) dt, \quad (1.3)$$

will both exist, for all reals λ .

It appears that it is possible to establish a typical relationship between $\hat{u}(\lambda)$ and $\hat{f}(\lambda)$ which implies also connections between the (countable) sets

$$\Lambda_u = \{\lambda \in \mathbb{R}, \hat{u}(\lambda) \neq \emptyset\}, \quad \Lambda_f = \{\lambda \in \mathbb{R}, \hat{f}(\lambda) \neq \emptyset\}, \quad (1.4)$$

(the elements of Λ_u, Λ_f are the Fourier “exponents” of $u(\cdot), f(\cdot)$, resp.).

Some “historical” notes:

(i) In [7] we have (1.2) in a Hilbert space, with $A \geq \Theta$, and the solution is in the usual sense. One obtains the equality

$$(\lambda^2 + \tilde{A}) \hat{u}(\lambda) = -\hat{f}(\lambda), \quad \forall \lambda \in \mathbb{R}, \quad (1.5)$$

where \tilde{A} is a selfadjoint extension of A .

(ii) In [6] the equation is (1.1) and f is continuous almost-periodic in Stepanoff S^p -sense; the operator A is closed in X . One gets the equality

$$(i\lambda - A) \hat{u}(\lambda) = \hat{f}(\lambda). \quad (1.6)$$

Solution Sets Of Differential Equations In Abstract Spaces

Saburou Saitoh

Solution Sets Of Differential Equations In Abstract Spaces:

Solution Sets of Differential Equations in Abstract Spaces Robert Dragoni, Paolo Nistri, Pietro Zecca, Jack W Macki, 1996-04-03 This book presents results on the geometric topological structure of the solution set S of an initial value problem $x'(t) = f(t, x(t))$ when f is a continuous function with values in an infinite dimensional space A A comprehensive survey of existence results and the properties of S when S is a connected set a retract an acyclic set is presented The authors also survey results on the properties of S for initial value problems involving differential inclusions and for boundary value problems This book will be of particular interest to researchers in ordinary and partial differential equations and some workers in control theory

Solution Sets of Differential Equations in Abstract Spaces Robert Dragoni, Paolo Nistri, Pietro Zecca, Jack W Macki, 1996-04-03 This book presents results on the geometric topological structure of the solution set S of an initial value problem $x'(t) = f(t, x(t))$ when f is a continuous function with values in an infinite dimensional space A A comprehensive survey of existence results and the properties of S when S is a connected set a retract an acyclic set is presented The authors also survey results on the properties of S for initial value problems involving differential inclusions and for boundary value problems This book will be of particular interest to researchers in ordinary and partial differential equations and some workers in control theory

Generalized Ordinary Differential Equations in Abstract Spaces and Applications Everaldo M. Bonotto, Márcia Federson, Jaqueline G. Mesquita, 2021-08-26 GENERALIZED ORDINARY DIFFERENTIAL EQUATIONS IN ABSTRACT SPACES AND APPLICATIONS Explore a unified view of differential equations through the use of the generalized ODE from leading academics in mathematics Generalized Ordinary Differential Equations in Abstract Spaces and Applications delivers a comprehensive treatment of new results of the theory of Generalized ODEs in abstract spaces The book covers applications to other types of differential equations including Measure Functional Differential Equations measure FDEs It presents a uniform collection of qualitative results of Generalized ODEs and offers readers an introduction to several theories including ordinary differential equations impulsive differential equations functional differential equations dynamical equations on time scales and more Throughout the book the focus is on qualitative theory and on corresponding results for other types of differential equations as well as the connection between Generalized Ordinary Differential Equations and impulsive differential equations functional differential equations measure differential equations and dynamic equations on time scales The book's descriptions will be of use in many mathematical contexts as well as in the social and natural sciences Readers will also benefit from the inclusion of A thorough introduction to regulated functions including their basic properties equi-regulated sets uniform convergence and relatively compact sets An exploration of the Kurzweil integral including its definitions and basic properties A discussion of measure functional differential equations including impulsive measure FDEs The interrelationship between generalized ODEs and measure FDEs A treatment of the basic properties of generalized ODEs including the existence and uniqueness of solutions and prolongation

and maximal solutions Perfect for researchers and graduate students in Differential Equations and Dynamical Systems

Generalized Ordinary Differential Equations in Abstract Spaces and Applications will also earn a place in the libraries of advanced undergraduate students taking courses in the subject and hoping to move onto graduate studies [Solution Sets for Differential Equations and Inclusions](#) Smaïl Djebali, Lech Górniewicz, Abdelghani Ouahab, 2012-12-06 This monograph gives a systematic presentation of classical and recent results obtained in the last couple of years It comprehensively describes the methods concerning the topological structure of fixed point sets and solution sets for differential equations and inclusions Many of the basic techniques and results recently developed about this theory are presented as well as the literature that is disseminated and scattered in several papers of pioneering researchers who developed the functional analytic framework of this field over the past few decades Several examples of applications relating to initial and boundary value problems are discussed in detail The book is intended to advanced graduate researchers and instructors active in research areas with interests in topological properties of fixed point mappings and applications it also aims to provide students with the necessary understanding of the subject with no deep background material needed This monograph fills the vacuum in the literature regarding the topological structure of fixed point sets and its applications *Topological Structure of the Solution Set for Evolution Inclusions* Yong Zhou, Rong-Nian Wang, Li Peng, 2017-10-31 This book systematically presents the topological structure of solution sets and attractability for nonlinear evolution inclusions together with its relevant applications in control problems and partial differential equations It provides readers the background material needed to delve deeper into the subject and explore the rich research literature In addition the book addresses many of the basic techniques and results recently developed in connection with this theory including the structure of solution sets for evolution inclusions with m dissipative operators quasi autonomous and non autonomous evolution inclusions and control systems evolution inclusions with the Hille Yosida operator functional evolution inclusions impulsive evolution inclusions and stochastic evolution inclusions Several applications of evolution inclusions and control systems are also discussed in detail Based on extensive research work conducted by the authors and other experts over the past four years the information presented is cutting edge and comprehensive As such the book fills an important gap in the body of literature on the structure of evolution inclusions and its applications

Handbook of Differential Equations: Ordinary Differential Equations A. Canada, P. Drabek, A. Fonda, 2006-08-21 This handbook is the third volume in a series of volumes devoted to self contained and up to date surveys in the theory of ordinary differential equations written by leading researchers in the area All contributors have made an additional effort to achieve readability for mathematicians and scientists from other related fields so that the chapters have been made accessible to a wide audience These ideas faithfully reflect the spirit of this multi volume and hopefully it becomes a very useful tool for research learning and teaching This volume consists of seven chapters covering a variety of problems in ordinary differential equations Both pure mathematical research and real world

applications are reflected by the contributions to this volume Covers a variety of problems in ordinary differential equations
Pure mathematical and real world applications Written for mathematicians and scientists of many related fields

Nonlinear Differential Equations in Abstract Spaces V. Lakshmikantham, S. Leela, 1981 Many problems in partial differential equations which arise from physical models can be considered as ordinary differential equations in appropriate infinite dimensional spaces for which elegant theories and powerful techniques have recently been developed This book gives a detailed account of the current state of the theory of nonlinear differential equations in a Banach space and discusses existence theory for differential equations with continuous and discontinuous right hand sides Of special importance is the first systematic presentation of the very important and complex theory of multivalued discontinuous differential equations

Integral Expansions Related to Mehler-Fock Type Transforms B N Mandal, Nanigopal Mandal, 2020-11-25 An important class of integral expansions generated by Sturm Liouville theory involving spherical harmonics is commonly known as Mehler Fock integral transforms In this book a number of integral expansions of such type have been established rigorously As applications integral expansions of some simple function are also obtained *Complex Analysis and Geometry*

Vincenzo Ancona, Edoardo Ballico, Rosa M Miro-Roig, Alessandro Silva, 1997-04-27 Based on two conferences held in Trento Italy this volume contains 13 research papers and two survey papers on complex analysis and complex algebraic geometry The main topics addressed by these leading researchers include Mori theory polynomial hull vector bundles q convexity Lie groups and actions on complex spaces hypercomplex structures pseudoconvex domains projective varieties Peer reviewed and extensively referenced *Complex Analysis and Geometry* contains recent advances and important research results It also details several problems that remain open the resolution of which could further advance the field **Lectures on**

Bifurcations, Dynamics and Symmetry Michael Field, 2020-02-17 This book is an expanded version of a Master Class on the symmetric bifurcation theory of differential equations given by the author at the University of Twente in 1995 The notes cover a wide range of recent results in the subject and focus on the dynamics that can appear in the generic bifurcation theory of symmetric differential equations This text covers a wide range of current results in the subject of bifurcations dynamics and symmetry The style and format of the original lectures has largely been maintained and the notes include over 70 exercises

Mathematical Theory in Fluid Mechanics G P Galdi, Josef Malek, J. Necas, 1996-08-01 This volume consists of four contributions that are based on a series of lectures delivered by Jens Frehse Konstantin Pileckas K R Rajagopal and Wolf von Wahl at the Fourth Winter School in Mathematical Theory in Fluid Mechanics held in Paseky Czech Republic from December 3-9 1995 In these papers the authors present the latest research and updated surveys of relevant topics in the various areas of theoretical fluid mechanics Specifically Frehse and Ruzicka study the question of the existence of a regular solution to Navier Stokes equations in five dimensions by means of weighted estimates Pileckas surveys recent results regarding the solvability of the Stokes and Navier Stokes system in domains with outlets at infinity K R Rajagopal

presents an introduction to a continuum approach to mixture theory with the emphasis on the constitutive equation boundary conditions and moving singular surface Finally Kaiser and von Wahl bring new results on stability of basic flow for the Taylor Couette problem in the small gap limit This volume would be indicated for those in the fields of applied mathematicians researchers in fluid mechanics and theoretical mechanics and mechanical engineers **Integral Transforms,**

Reproducing Kernels and Their Applications Saburo Saitoh, 2020-11-26 The general theories contained in the text will give rise to new ideas and methods for the natural inversion formulas for general linear mappings in the framework of Hilbert spaces containing the natural solutions for Fredholm integral equations of the first kind **Elliptic Boundary**

Value Problems with Indefinite Weights, Variational Formulations of the Principal Eigenvalue, and Applications Fethi Belgacem, 1997-05-05 Elliptic Boundary Value Problems With Indefinite Weights presents a unified approach to the methodologies dealing with eigenvalue problems involving indefinite weights The principal eigenvalue for such problems is characterized for various boundary conditions Such characterizations are used in particular to formulate criteria for the persistence and extinctions of populations and applications of the formulations obtained can be quite extensive

Numerical Methods in Mechanics Carlos Conca, Gabriel N Gatica, 1997-07-16 This volume contains the invited papers given at the Fourth French Latin American Congress on Applied Mathematics New numerical techniques in fluid and solid mechanics were presented **The Dirichlet Problem for the Laplacian in Bounded and Unbounded Domains**

Christian G Simader, H Sohr, 1996-11-07 The Dirichlet Problem u in G $u|_G = 0$ for the Laplacian in a domain $G \subset \mathbb{R}^n$ with boundary G is one of the basic problems in the theory of partial differential equations and it plays a fundamental role in mathematical physics and engineering **Integral Representations For Spatial Models of Mathematical Physics** Vladislav V

Kravchenko, Michael Shapiro, 2020-11-25 This book provides a new mathematical theory for the treatment of an ample series of spatial problems of electrodynamics particle physics quantum mechanics and elasticity theory This technique proves to be as powerful for solving the spatial problems of mathematical physics as complex analysis is for solving planar problems The main analytic tool of the book a non harmonic version of hypercomplex analysis recently developed by the authors is presented in detail There are given applications of this theory to the boundary value problems of electrodynamics and elasticity theory as well as to the problem of quark confinement A new approach to the linearization of special classes of the self duality equation is also considered Detailed proofs are given throughout The book contains an extensive bibliography on closely related topics This book will be of particular interest to academic and professional specialists and students in mathematics and physics who are interested in integral representations for partial differential equations The book is self contained and could be used as a main reference for special course seminars on the subject **The Theory of Quantaloids**

K I Rosenthal, 2014-07-22 This book presents a detailed account of the theory of quantaloids a natural generalization of quantales The basic theory examples and construction are given and particular emphasis is placed on the free quantaloid

construction as well as on the perspective provided by enriched categories *Numerical Analysis 1995* D.F. Griffiths, G.A. Watson, 1996-04-11 This volume contains invited papers presented at the 16th Dundee Biennial Conference on Numerical Analysis held at the University of Dundee 27-30 June 1995 The Dundee Conferences are important events in the numerical analysis calendar and the thirteen papers published here represent accounts of recent research work by leading numerical analysts covering a wide range of fields of interest The book is a valuable guide to the direction of current research in many areas of numerical analysis It will be of particular interest to graduate students and research workers concerned with the theory and application of numerical methods for solving ordinary and partial differential equations with emphasis on problems in fluid dynamics It also contains contributions to research into methods of linear algebra numerical methods for optimisation problems and surface fitting *Rings and Radicals* R. Wiegandt, J.W. Gardner, Shao-Xue Liu, 1996-04-18 First published in 1996 Routledge is an imprint of Taylor Francis an informa company *Complex Analysis, Harmonic Analysis and Applications* Robert Deville, J. Esterle, V. Petkov, A. Sebbar, A. Yger, 1996-04-30 Multivariable complex analysis and harmonic analysis provide efficient techniques to study many applied mathematical problems The main objective of a conference held in Bordeaux in June 1995 in honour of Professor Roger Gay was to connect these mathematical fields with some of their applications This was also the guideline for the fourteen contributions collected in this volume Besides presenting new results each speaker made a substantial effort in order to present an up to date survey of his field of research All the subjects presented here are very active domains of research integral geometry with its relation to X ray tomography classical harmonic analysis and orthogonal polynomials pluricomplex potential theory with its deep connection with polynomial approximation complex analytic methods in the theory of partial differentiable operators with constant coefficients in the spirit of those initiated by Leon Ehrenpreis Calderon Zygmund operators and nonlinear operators oscillatory integrals and resonance and finally multivariable residue theory in its most recent developments It is hoped that the reader will find enough insight in the different survey papers presented here to become involved with one of these subjects or to pursue further applications

Fuel your quest for knowledge with Learn from is thought-provoking masterpiece, Dive into the World of **Solution Sets Of Differential Equations In Abstract Spaces** . This educational ebook, conveniently sized in PDF (*), is a gateway to personal growth and intellectual stimulation. Immerse yourself in the enriching content curated to cater to every eager mind. Download now and embark on a learning journey that promises to expand your horizons. .

Solution Sets Of Differential Equations In Abstract Spaces Introduction

Solution Sets Of Differential Equations In Abstract Spaces Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Solution Sets Of Differential Equations In Abstract Spaces Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Solution Sets Of Differential Equations In Abstract Spaces : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Solution Sets Of Differential Equations In Abstract Spaces : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Solution Sets Of Differential Equations In Abstract Spaces Offers a diverse range of free eBooks across various genres. Solution Sets Of Differential Equations In Abstract Spaces Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Solution Sets Of Differential Equations In Abstract Spaces Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Solution Sets Of Differential Equations In Abstract Spaces, especially related to Solution Sets Of Differential Equations In Abstract Spaces, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Solution Sets Of Differential Equations In Abstract Spaces, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Solution Sets Of Differential Equations In Abstract Spaces books or magazines might include. Look for these in online stores or libraries. Remember that while Solution Sets Of Differential Equations In Abstract Spaces, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Solution Sets Of Differential Equations In Abstract Spaces eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Solution Sets Of Differential Equations In Abstract Spaces full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Solution Sets Of Differential Equations In Abstract Spaces eBooks, including some popular titles.

FAQs About Solution Sets Of Differential Equations In Abstract Spaces Books

1. Where can I buy Solution Sets Of Differential Equations In Abstract Spaces books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Solution Sets Of Differential Equations In Abstract Spaces book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Solution Sets Of Differential Equations In Abstract Spaces books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Solution Sets Of Differential Equations In Abstract Spaces audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Solution Sets Of Differential Equations In Abstract Spaces books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
